One of the most pleasant and thoroughly enjoyable parties we ever had the good fortune to attend occurred at the farm residence of Mr. and Mrs. J. P. True, last Saturday evening. The occasion was a surprise to Mr. True's family and a dedication of their beautiful new residence, which is now nearly completed. At 8 o'clock, prompt, the crowd came pouring in through the doorways until eighty persons had assembled in and around their old residence, and taking possession of Mr. and Mrs. True, escorting them to their new home, where after all were made welcome, we were treated to a feast of fine watermelons. After bountifully partaking of this royal feast, we were glad to listen to some music by Miss Emma Ulrich, of Jacksonville, which was nicely rendered and duly appreciated. Then came an address by Rev. Merley, of Medford, who took for his subject, Sociability, which was treated in a very able manner. Rev. W. C. Jenkins next entertained the crowd with a very eloquent and interesting address on the subject, Home. Then came one of the nicest treats of the evening—music and song by Mr. Ferguson, two little girls, the older being eight years of age. They are sweet little singers and show rare musical ability. Mr. and Mrs. Ferguson rendered several choice musical selections, during the evening, also did Mr. and J. H. Bellinger, after which refreshments were served, consisting of ice cream, cake, peaches, grapes and new cider (we then thought of THE MAIL editor.) Mr. and Mrs. True, ably assisted by their daughter, Mrs. H. Griffin, entertained their friends in their usual hospitable manner, leaving nothing undone that could contribute to the comfort and pleasure of those assembled. Games of all kinds were indulged in by the young people and as the clock neared the stroke of 12 all slowly dispersed to their homes, feeling they had enjoyed four solid hours of pleasure that seldom falls to the lot of a fortunate mortal to enjoy. Eagle Point Eagles.

BY A. C. HOWLETT.
Mrs. Hoyt, of Solano county, California, who has been visiting her son, A. Hoyt, started yesterday for her home.
Miss Henrietta Morine, while riding on horseback one day last week, was dragged from her horse by a clothes-line and considerably bruised and scratched.

Last Thursday Merchant Geo. Brown, his two daughters, Misses Cora and Lottie, and Mrs. M. A. Taylor, went to Jacksonville to attend the funeral of Lewis Bilger, who was drowned at Astoria some few weeks ago and whose remains were brought to Jacksonville for interment.
The body of a child was found buried in the sand at the head of Reese creek last week, and upon being notified, Justice Haselton held an inquest over it. The child proved to be one born last Wednesday, to a woman of unquestionable character, and at last accounts the jury had not fully decided as to the cause of its death.
On Thursday of last week I took a business trip on the outskirts of our village. Calling upon Mrs. Elizabeth Simon I learned that her son, Daniel M., was quite ill, but gradually improving. Next I called upon John Williscroft and discovered that he had made some considerable improvement in put-

ting the finishing touches on his dwelling but was sorry to find him quite indisposed. Next I called at the beautiful farm of Mrs. M. A. Taylor but found that she was not at home, but her accomplished daughter, Miss Mattie, presided with all the grace and ease of an aged matron. Here I found Mrs. Frank Lewis and her brother-in-law, Mr. Oscar Simpkins, and wife, of Woodville, who were upon a visit to Mrs. S's parents—this Mr. Simpkins is a brother of the Chief Justice of Woodville. While there the conversation naturally drifted to THE MAIL and Mrs. Lewis remarked that she could not keep house without it and the result was that Mr. Simpkins ordered THE MAIL for a year. I next called on Mr. D. T. Ewin and interviewed him upon the subject of the newspaper business and he assured me that he wanted THE MAIL as soon as he could go to—and stop the—he intended to subscribe for it. I saw several others that told me the same thing. THE MAIL is away in the lead of all the papers in the county in the estimation of the reading public. Speaking of the papers, I picked up one of our county papers last week and on looking it over discovered that there was not a single communication from a correspondent in it and in turning to THE MAIL find that considerable more than one page of the paper is taken up with letters from regular contributors, and that is one reason why THE MAIL is so popular. During that trip I fell in company with Mr. Swinney, recently from Iowa, and Mr. Cooper, of Phoenix, with three pack horses going out on a hunting tour on the head waters of Trail and Elk creeks and the head waters of Rogue river. They expect to be gone several weeks.

Late Literary News.

Fiction and travel are the strong points of the September Cosmopolitan, which, by the way, illustrates better than any previous number the perfection of its plan for printing a magazine of the highest class. Cagan Dwyer, H. H. Boyesen, and Clerk Russell are among the story tellers. A well known New York lawyer relates the story of "A Famous Crime," the murder of Doctor Parkman by Professor Webster. A delightful sketch of "An English Country House Party" is from the pen of Nina Lore Smith, the house at which she visited being no less than the historic Abbotford, still occupied by the direct descendants of Sir Walter Scott. "The Realm of the Wonderful" is descriptive of the strange forms of life discovered by science in the ocean's depth, and is superbly illustrated in a surprising and marvellous way by the author, who is a member of the Smithsonian staff. An article on Cuba is timely. And it may be said that no more beautifully illustrated number of the Cosmopolitan has ever been given to the public.

A Timely Reminder.

Each season forces upon our consideration its own peculiar perils to health. The advent of fall finds many prepared in strength and vigor, poorly prepared to continue the business of life. The stomach and the bowels, the great highway of animal economy, is especially liable to disorder in the fall. The nervous system has also suffered in the struggle. Typhoid fever and malaria in particular find in the fall that combination of earth, air and water that mark this season as especially dangerous. The falling leaves, the decaying vegetables contribute their share of contamination. Hood's Sarsaparilla furnishes a most valuable safeguard at these important points, and should be used in the fall before serious sickness has laid you low.
