

NEWS OF THE CITY.

(CONTINUED FROM LOCAL PAGE)

—As we garner the harvests of plenty and hear the jingle of gold realized from the sale of the surplus we naturally feel like buying something, not only something that is a beauty but of lasting good. We feel that the good housewife has helped us to gather these gold coins, and we know that there is nothing we could present her with that would bring more joy than a fine dinner or tea set. Those golden Green Thistle sets at Wolters are positively the very finest ever brought to Medford—and they are being sold at a figure that is way down—considering the quality and beauty.

—Ladies should bear in mind that Mrs. L. J. Sears is the leading millinery in Medford and carries a complete stock of everything in that line. —Chas. Anderson, who assaulted Stevens during the Central Point Fair, was arrested at Redding, Calif., last Saturday. Sheriff Patterson is awaiting the arrival of requisition papers, after receiving which he will go down after him. LATER—Sheriff Patterson telegraphed to Redding Wednesday to release prisoner from custody. This move was made upon instructions from District Attorney Benson, Stevens having declared his intentions of leaving the country and would not prosecute.

—Because he didn't have store room enough is why Druggist Chas. Strang has had the partition set back twelve feet, which not only adds more room but as well is an improvement in the general appearance of the store.

—Hon. J. D. Whitman has been appointed general superintendent of the construction work on the new school building, by the school board. Mr. Whitman has had years of experience in this line of work and it is a safe guess when we say that all will be done correctly and according to contract, yet his task is not a difficult one with contractors working so exactly in line with the specifications as are those on this job.

—The largest and best selected stock of fine millinery, at the most reasonable prices, is to be found at Mrs. C. W. Palm's.

—A. M. Woodford, of this city, is handling Rogue River Mills flour, manufactured by Hock & Signorotti, at Gold Hill. The superior qualities claimed for this flour are that it will raise better and retain its moisture longer than any other brand. See the brand—"Rogue River Mills"—try the flour, and your wife will have no other. It is just a little better than the best.

—It's just as easy to try One Minute Cough Cure as any thing else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine, better results; better try it. Geo. H. Haskins, druggist.

—There is trouble brewing down at Central Point among some of the District Fair officers. Report reached here Tuesday that the treasurer, Hon. J. W. Merritt, had garnished the fair funds, which are in his own hands. As we get the report there is a shortage of about \$100—that is, there is that amount shy of enough to pay all bills, and the garnish is made for track rent, Mr. Merritt being one of the track owners.

—The best shaves put up are those you get at Bates Bros. shop, ditto hair cuts—best class, everything. South C Street.

—If you didn't get a chance at that last large invoice of "Happy Home" clothing you were unfortunate—at that time—but your chances are now good again. Mrs. Beale is the youngest daughter of the late James G. Blaine, and her marriage in May, 1894, to Truxton Beale, a member of one of the most distinguished Washington families, was supposed to be a genuine love match, and their union was regarded with favor by their friends. Soon after their wedding day Mr. Beale began to show signs of incompatibility, and his habits became quite eccentric.

D. R. ANDRUS and J. D. MOYER, of Falls City, Polk county, arrived in Medford Thursday of last week, and are visiting with Geo. E. Webber and family, they being old acquaintances. Both gentlemen are looking for a location and will probably decide upon Medford as about the proper place to drop anchor.

Mrs. J. B. MCGEE, of San Francisco, stopped off in Medford Monday for a day's visit and upon business. She has placed her property, corner Sixth and C street, in the hands of C. W. Palm for sale. This is a very desirable piece of property and there ought to be no trouble in disposing of it.

W. A. BRISBY and family arrived in Medford the first of the week from near Sprague, Wash., and will make their home with us the coming winter,

and should Mr. Busey's health improve sufficiently to convince him that our climate is all right they will become permanent residents in this valley.

Mrs. JOHN CURRY, who has been stopping in Medford since the death of her parents, Judge and Mrs. G. S. Walton, returned to her home at Coeur d'Alene, Idaho, Wednesday evening. Her sister, Mrs. Bruns, who is administratrix of the Walton estate, will remain here until the business is all settled.

Merchant G. L. WEBB returned Monday evening from his quite extended visit to New York City and other eastern points. GEORGE ESTES, S. P. Station agent at Roseburg, was in Medford Tuesday arranging for the Portland exposition excursion, which leaves Ashland next Monday morning. Mr. White and family will locate in our city, and Mrs. Thompson will visit her brother for several weeks, after which she will return to Kansas. It is not at all unlikely that she will become well enough pleased with the Rogue river valley to again return, accompanied by Mr. Thompson and the family and make their permanent abiding place in Medford.

E. E. QUIMBY, of Ft. Klamath, was in the Hub city Monday making his fall purchases. While here he was unfortunate in losing a \$100 bank check. The check was drawn upon Grayson, Owens & Co., of Oakland, California, and was signed by Mitchell, stock buyer for the above named company. Mr. Quimby was doing business at Cranfill & Hutchison's store and had the check in his hand when he stepped out of that store and into I. A. Webb's furniture store. He is almost positive he put it in his pocket, but a diligent search did not reveal it—neither has it been found yet. The check is of no use to anyone but Mr. Quimby as it had not been endorsed. Anyone finding it will confer favor by leaving it at Cranfill & Hutchison's.

Sunlight and Health.

The potent influence of sunlight upon health can hardly be exaggerated. Dr. Wier Mitchell, in his interesting researches on snake poisons, found that the poison of the deadly cobra, if exposed to sunlight for a brief time, became harmless. Prof. Huxley has shown that yeast increases indefinitely in volume amid darkness and damp, while in sunlight just the reverse is the case. Sunless houses are unnatural creators of sickness. The prevalence of goitre in Siberia, which attacks twelve and often twenty-five per cent of the people in some villages, is ascribed to the accumulation of filth in deep, narrow valleys and the habit of Russian peasants of keeping their houses tightly closed. Free access of light favors nutrition and regularity of development and contributes to beautify the countenance, while deficiency of light is usually characterized by ugliness, rickets and deformity, and is a fruitful source of scrofula and consumption in any climate. It is probable that one of the chief benefits derived by invalids from a winter sojourn of Alpine or tropical resorts is due to the large amount of sunlight enjoyed.—Science.
