

Alexander Had a Tender Heart.
Two weeks before the sickness of the czar of Russia took a turn for the worse, Miss Strutton, his former governess, died in the winter palace at St. Petersburg. Miss Strutton, who was an English woman, loved Alexander Romanoff as dearly as though he had been her son. The emperor and his two brothers attended the funeral, following the hearse on foot from the palace to the English cemetery, almost two miles apart. His majesty and the two grand dukes had carried the coffin from the deathroom to the hearse. When the body was lowered into the grave the czar, it is said, wept like a child.

Did you ever stop to think what indigestion really means? It means simply that your stomach is tired. If our legs are tired, we ride. The horse and steam engine do the work. Why not give your stomach a ride; that is let some thing else do the work. Food can be digested outside of the body. All plants contain digestive principles which will do this. The Shakers Digestive Cordial contains digestive principles and is a preparation designed to rest the stomach. The Shakers themselves have such unbounded confidence in it that they have placed 10 cent bottles on the market, and is said that even so small a quantity proves beneficial in a vast majority of cases. All druggists keep it.
