NEWS OF THE CITY.

THE MAIL has always been a firm advocate of the policy of patronizing home industry and home business men, because there can be no doubt that such a cause invariably results in a very perceptible gain to the purchaser and at the same time acts as a stimulus to the home merchant—a thing which, if he is at all reliable, he is justly and unmistakably entitled to. There have been some few cases hereabouts of people sending to city business houses for articles and in which they were badly beaten, which we could cite in support of the correctness of the course we have always maintained on this question, but two cases have come under our observation recently which will fit in well as examples and which should have a wholesome effect upon those contemplating a repetition of the cases in question. A gentleman, in this city, sent to a well known firm of Chicago for some articles, the cost of which was three dollars, when the package arrived he was confronted with a bill for expressage of just a few cents less than three dollars and fifty cents. After reflecting for some time upon the advisability of accepting the package he decided that inasmuch as he had ordered it he would see it through, but his chagrin was not to terminate yet. As soon as the articles were unwrapped they were found to be of a quality inferior to that which could be purchased in Medford at even less cost than the original purchase price in Chicago. The other case is even more flagrant than the one just cited. A lady sent to New York City for a cake stand, which cost one dollar and sixty-seven cents and her express charges were four dollars and seventy-five cents. Is there need of saying more?

We now have several good improved farms on our list for sale or rent. We also represent several first class insurance companies. Anyone desiring anything in our line, will do well to give us a call. York & Jones, Real Estate and Insurance Brokers, office over Haskins' drug store.

The young ladies' members of the brass band, recently organized in this city, have decided to give an entertainment during the holidays, the proceeds to be applied in purchasing instruments for the band. They are making very perceptible progress in their work, and have entered upon the enterprise with a determination that is bound to culminate successfully, but, realizing the necessity of having their own instruments, and that the barrier must be surmounted before they can fully realize the success they desire to attain, they have decided to take the first step toward the consummation of this necessary adjunct. The entertainment will be replete with features that are most likely to entertain the average congregation, and will consist of farces, musical selections, both vocal and instrumental, by the best talent in the city, besides numerous other features that are bound to make the evening an enjoyable one. "The Sweet Family," that highly interesting comedy, will be presented under the auspices of the band as will also "Tennyson's Dream of Fair Women," which in themselves, would be worth the small admission fee that will be charged. Let everyone turn out and assist in placing this enterprise on a substantial basis.

The concert given by the Choral union of the Christian church at the opera house Wednesday evening was one of the most pleasing local entertainments of the season in Medford. The genuine generosity of the Medford citizens and the unselfish interest which they take in church affairs of the city are always sure to make these entertainments successful in point of attendance, and the local talent of the city can be relied upon to do the rest. At the time appointed to commence the exercises, a good sized audience had assembled to witness the exercises and the hearty applause which greeted the respective participants upon their appearance infused in them the vigor necessary to present their parts in the creditable manner which marked the entire program. The singing was splendid, the recitations were all good and the beautiful cantata, "The Season," was a fitting dessert for the feast of good things to be seen and was the chef d'œuvre of the evening's entertainment.

Fresh and cured meats, sausages, etc. can now be had at the West-side market, where the lowest market price prevails. Give me a call. Westside Market, two doors south of the West-ern hotel.

The graveyard of failure is full of monuments erected over the blasted hopes of merchants who had plenty of good things to sell, but who neglected to place their merits properly before the people. The time for the holiday trade is fast drawing near, and mer-

chants can find no better medium of averting the calamity that has been the lot of their procrastinating brothers, and at the same time insuring themselves of their just proportion of the trade, than THE MAIL, and there is no better time than now. Bring in your ads. and join hands with those whose names are already in our columns. You say the word—we write the ads and them display in a manner that will catch the trade.

We are sorry to learn that J. K. Darnell has not received any tidings of the whereabouts of his son Calvin, who mysteriously disappeared a few weeks ago, and the grave fear which has been foisted upon him, is likely to be confirmed. Truckee, Calif., the place where he was last seen, is considered one of the toughest places in the state, it being inhabited to a great extent by a very dangerous element, and the fact that several similar occurrences have preceded this one, lends color to the apprehension felt here for the safety of the young man.

An attachment was levied on the Gray lumber yard in this city Tuesday by Richard Perry and J. Beck & Co. The attachment was made to recover money claimed by the above mentioned, but there will probably be a settlement of the claim without taking the matter into court. THE MAIL hopes a settlement will be effected, as occurrences of this nature are always detrimental to the best interests of a town, and Medford business firms have always maintained a reputation for being the most substantial on the coast.

Mrs. D. isn't making any very vigorous protest because of the loss of the fruit but she would like the jars to fill again next season. Others of our townspeople, who are at present more fortunate than these good people, should profit by their misfortune and bar the door.
