SUBSCRIPTION \$1.50 PER YEAR Entered in the Postofice at Medford, Oregon

cond Class Mail Matter MRDFORD, FRIDAY, July 16, 1897.

### NEWS OF THE STATE

S. B. Parish, formerly chief of police of Portland, is dead.

A postoffice has been established at Winona, in Josephine County.

Walter L. Main's great circus will exhibit in Eugene Thursday, July 29th. E. B. McElroy, instructor of logic. Some of our exchanges are treating this humorously. There were 1104 inmates, 755 fe-males and 349 males, in the state asy-lum on June 30th.

Judge Sears, of Multnomah County, as decided that the slot machines cannot be licensed.

B. S. Ward, county treasurer of Clat-sop County, has been found to be more than \$12,000 short in his accounts.

Capt. S. B. Ormsby, president of the soldiers' home board, has been ap-pointed special agent and supervisor of forest reserves, at a salary of \$2500 per year.

The penitentiary stove foundry will shut down for a month, while the cupola of the building is being re-paired. About 100 more convicts will be idle during the time.

There seems to be plenty of money in circulation around Sumpter. The re-celpts of a saloon there on July 5 were silolo for cigars and liquors alone. The gambling receipts are not known.

The presentation of that silver serv-ice to the battleship Oregon was made at Portland last Tuesday. Captain Barker of the ship was there to receive it and Governor Lord made the presen tation speech.

At a recent meeting of Salem Grange. No. 17, resolutions were adopted se-verely censuring County Judge Terrill's method of conducting county affairs, and also the action of the minority of

Mrs. Wade such the City & Suburban Rallway Company, of Portland, for \$5,000 for causing the death of her little child some weeks ago, by mangling its body under car wheels. The court this weak may her indement for \$500 week gave her judgment for \$800.

S. N. Alford has been appointed superintendent of the registry depart-mont of the Portland postoffice to suc-coed Julian Epping, who stands ac-cused of entering into a plot to rob that division. Alford's bonds are \$15,000.

In Linn County there are 71 church organizations, 45 church edifices with secting capacity of 13,845; 21 halls, with a seating capacity of 1155; valua-tion of church property, \$117,275; num-ber of communicants, or members, 3495.

The Drain schoel district has donated its public school building to the Drain normal school, and it will be used as a training school for the seniors. Here-tofore the normal and the public school have been conducted in the same building.

Bob Hinman, the notorious Douglas County oriminal, has been placed in the Salem penitentiary under a sen-tence of five years for burglary. Hin-man has not yet recovered from the wounds he received in Arizona while a fugitive from justice and was taken to Salem on a stretcher.

The county-court of Marion County allowed \$104 of the bill for \$875 pre-sented by Assessor Hobart. Mr. Ho-bart says he will bring suit for the re-mainder. The bill arises from claims for pay of deputies, the assessor claim-ing the law entities deputies to \$4 per day, which the court refuses to allow.

day, which the court refuses to allow. In 1844 setting on juries in Oregon was not very profitable. An act of that year fixed the pay at only twenty-five cents for each case tried, but there was in those early days a greater dispatch to court affairs than now, and it seldom required long to dispose of a case. There was swift justice at two-bits a case.

There is a military cadet to West Point to be appointed from Oregon's first congressional district within a very short time. The present appointee made the two man and wife. About 10 o'clock they left for their home in Pleasant Hill precinct, as happy as people could be. Mr. Shelley is a well-to-do farmer and a sober industrious man THE MUNATION VIEN C. DEATH.

About 10 home in

A Beautiful and impressive Custom of the Moravians. Clifford Howard contributes to the

adies' Home Journal an interesting article upon the Moraylaus of Bethlehem, Pa., and their religious customs:

"Upon the death of one of the congre-gation," he writes, "the event is an-mounced, not by the monotonous, mouraful tolling of the bell, but by the deep-breathing, melodious music of trombones, played in the open belfry steeple of the church by the trombone choir; and as the deep, sweet notes of the familiar hymn are borne to the peo-ple below they reverently drop their work to listen. 'Hark!' they whisper, 'the horns are blowing; some one has gone home!' 'Gone house!'-perhaps nothing more beautifully exemplifies the perfect, unquestioning faith of these derout people than that expressive utterance, the sincerity of which is ever demonstrated by the lack of mourning at the passing away of a member of the household, however dearly beloved; so true and heartfelt is the Moravian belief that death is but the entrance to a brighter, happier home. The trom bones are also used at the touching funeral services held at the grave; and amid their sad, yet inspiring, strains the departed one is laid to his eternal rest. On all occasions, whether of death or joy, the trombones lend their sweet solemnity in fitting breath. From the steeple they herald the festival day of each of the choirs, and in all open-air services their mellifluous

tones are ever present." Earliest Cheese Exports.

The first exports of cheese from the United States are believed to have been Herkimer county, N. Y., opened a regu-lar cheese trade with England.

#### Engles Pair for Life.

Eagles do not have different mater every season, as do birds generally; they pair for life, and sometimes occupy the same neat for many wears.

-That not only animals but plants also will have some of their juices or liquids freeze in the winter time is well known. Twigs will snap easily when the thermometer is below zero and ice crystals can be readily discerned by the microscope. But the question, asks Mechan's Monthly, is do they freeze solid? The contention is that the

The True Remedy. The True Remedy. W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house withost Dr. King's New Discovery for consumption, coughs and colds. Ex-perimented with many others, but never got the true remedy until we home, as in it we have a certain and there cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even If they are read on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a read-the intermedies, even If they are the intermedies free at Chas. Strang's drug tore. THE COLD IS CRUEL THE COLD

The St. Petersburg Geographical society has published the results of an exploration among the Yakuti, a peo-ple dwelling in a region of Northeast Siberia, covering an area of over 2,000, 000 square miles, yet numbering no more than 200,000 souls. They are grathered mostly on the banks of the great rivers. The climate is a terrible one. There are not more than 96 days in the year free from frost, which be gins in the middle of September and lasts to the middle of May. By October 15 the land is covered with a solid man-tle of snow and ice, which begins to melt at the end of April. The cold is the most intense on the globe, and the temperature is lower than any record-

# Sales

With Hood's Sarsans rills, "Sales Talk," and alk show that this medicine has enjoyed public confidence and

cine has enjoyed public confidence and patronage to a greater estent than accord-ed any other proprietary medicine. This is simply because it possesses greater meril and produces greater cures than any taker. It is not what we say, but what blood's Bersaparilla doe, that tells the stord's Bersaparilla to of Hood's Bersaparille, like Hood's Bersaparilla it-self, are honest. We have mever deseived the sublic, and this with its superistive medicinal merit, is why the people have sbiding confidence in it, and buy

Hood's Sarsaparilla ion of all others. Try It.

WHERE RHODE ISLAND LEADS.

The Little State Has 318 People to the Square Mile.

In 1800 only the country between the Attautic and the Mississippi belonged to the United States. Since that the Louis-isun purchase in 1803, the Florida in 1821; the Mexican acquisitions in 1840. 1850 and 1853, and Alaska in 1867, have been added.

The increase, excluding Alaska, has been from \$27,841 to 3,025,600 square miles, or 3%, but the growth of popula-tion has been from 5,308,483 to 62,622, 250, or nearly twelvefold. In 1800 the inhabitants were a little

less than seven to a square mile (in 17% they had been less than five); in 1590 they were over 21.

The place where the population is densest is the District of Columbia. which has 3,839 to the mile; the next is Rhode Island, 318; then Massachusetts, 278; then New Jersey, 193; Connecticut, 154; New York, 125; Pennsylvania, 116; Maryland, 105.

Maryiand, 105. The other states and territories rui: below 100, down to Montana, Wyoming Arizona and Nerada, which have less than one inhabitant to the square mile.

The census commissioner notes that in Rhode Island and Massachusetts the density of population is as great as in many of the most densely settled European states, and that the entire

## Substances Sensitive to Weak Radia tion from a Heated Body.

The invisible radiations from a heated body possess the power of effecting cer-tain chemical decompositions much after the manner of lights, as, for instance, in photography, says the St. Louis Globe-Democrat. Among the substances sensitive to weak radiations of heat may be mentioned paper esturated with cupric bromide, or mixture of sulphate of copper and potassium bromide, which has a faint greenish tint that becomes olive brown in radiant heat, and if green is used a brown image can be obtained in a minute by exposing to the radiations from as stove and on treatment with sil

### Klamath County Items.

From the Republicat. R. H. Goddard, D. P. Twogood and C. S. Phelps, near Talent residents, were in town yesterday en route for the Chewaucan country. A coyote with a docked tail, with an upper slope and under bit in right ear and an under slope in left, is at large. He was caught on Lost river Sunday morning by Will Weedon and Lou Matney, and thus disfigured, was turned loose, and now probably feels badly chagrined among his kindred.

Near Picards, on the desort, in Butte creek valley, Fred W. Stope, a young man about 27 years of age, was accidentally shot through the chest. He had placed a rifle, which he thought was unloaded, against about them. The general orders are a sage bush. In palling it out, with "keep moving clong." The man who a sage bush. In palling it out, with the muzzle toward him, it was discharged, the ball entering his chest on the right side coming out under the arm. I. C. Higgins and F. E. Johnson started with the unfortu-nate man for the Falls, arriving here Tuesday evening at 10 o'clock. He died the following morning at

The flume of the Little Klaman Water Ditch Company, being con-structed across Lost river under the management of J. F. Adams, will be completed this week. The will be completed this week. From Klamath Falls Express. L. F. Willits and wife started to Ashland this morning. V. A. Dun-lap will have charge of the Electric Cash Store during their absence.

ford returned Sunday from the eastern part of the county and remained in town until after the celebration Monday.

P. L. Fountain arrived yesterday from Dairy accompanied by his son, and niece Miss Effic Weiss. They left for Ashland today to attend Chautauqua and hear Bryan Satur-

Jacob' Crawford, an old resident on Lost river near Merrill, died Wednesday afternoon, July 7, 1897 of heart failure. He was taken suddenly ill with a pain in his side shortly after noon and Dr. Wright was sent for. Before he got started however another messenger arrived announcing Mr. Crawford's death.

## Mining Locations.

J H Shotwell located July 1 5000 inches of which from Little Applegato. W Darville located June 26 a placer claim of Upper Grave oreek. Werek district forated May 17 30 acres in Grave werek district forated May 17 30 acres in Grave reck district. Henry Griner located June 26 100 inches of rater from Evans creek. Chas Honley and Robt Taylor located June 10 he "H & T" queric claim in Wagner creek dis-rict.

FANCY-DRESS BALL IN LONDON. English Men and Women Take Their

Pleasure Seriously. A fancy-dress ball in London is slow. The streets around Convent garden on fancy-dress ball night are as solemn as Scotland itself, says Scribner's. A few homeless Londoners are kept at respectful distance by the police, while a procession of carriages Koes slowly under the archway and deposits serious merry-makers, dressed as stoves, light-Nouse, monks, lanops and vigetables. Owing to these elaborate dispuises the journey past the ticket-takers and to the ballroom is slow. On the ballroom oor officials, totally void of a sense of humor and dressed in black velvet and cut steel buttons, keep the center of the floor clear, apparently for their own use, and stand ready to subdue any burst of light heartedness that might appear in the circle that is kept moving manages the searchlight, from one of the top baxes, probably enjoys the ball the most. He certainly does more to help it. The center of interest is wherever he will have it. He can make a dull costume bright and a supper

party in one of the boxes proud; and he can almost remove the gloom caused by the officials in black.

-Teacher-"What was Joan of Ar-maid of?" Bright Pupil-"Made o dust."-Boston Transcript.

-"Wouldn't it be better to call it an internephew war? The neices never have anything to do with war."-Har per's Round Table. She (sentimentally)-"What poe there is in a fire!" He (sadly)poet

"Yes; a great deal of my poetry ha gone there."-Harper's Bazar.

tions a minute, took it for granted that the bird had been killed. When the factory shut down at noon the men were astonished to hear a gentla chirpfrom the wheel, and lo, there was the from the wheel, and in there was the sparrow as well as ever. They found that the bird had clong to the strength-ening rod of the wheel and was in a semi-dazed condition. They picked him up and put him on a (able, and thence, after collecting his wite, the litthe bird flew to freedom. The wheel in which the bird rode made 31,000 rev-clutions while it was upon 1t, and so the tiny feathered creature traveled screnty-three and eight-tenths filles in the embrace of a flying wheel .-- Cleveland Plain Dealer.

Sparrow's flide in a Fly Wheel.

Birds have all sorts of queer adventures, but perhaps what was the oddest one of recent days is that which befeil

a sparrow at Anderson, Ind. It flew in-

to a knife and bar factory, and, getting

too near a small wheel, was sucked in. The workingmen noticed it go into the

wheel, but knowing that the cylinder

was revolving at a speed of 150 revolu-

land Plain Dealer. If asked the question "Have you got a stomach?" it would be safe on gen-oral principles to answer "Yee," But, if you are sure of it, that is, if you ever feel any distress after eating or any pains of whatever description in the region of the stomach, you have got something more than an ordinary stomach in other words, you have got a diseased stomach. The stomach is a powerful muscle, and the proper rem-edy for a tired muscle is rest. Try the Shaker Digestive Cordial, for this

powerful muscie, and the proper rem-ody for a tired muscle is rest. Try the Shaker Digestive Cordial, for this product not only contains digested food, which will nourish the system without any work on the part of the diseased organs, but it aids the digestion of other foods as well. You can test its value in your case for the triffing sum of 10 cents. Sample bottles at this price are carried by all druggists.

Laxol is the best medicine for chil-dren. Doctors recommend it in place of Castor Oll.

## 6 o'clock from hemorrhage. The flume of the Little Klamath

flume is 200 feet long, 32 feet wide and 3 feet deep, and will carry over 10,000 inches of water. On the completion of the flume the ditch to the east bank of Lost river where work on the new survey will cease for the season and from which point a ditch will be constructed ditch. This fall, winter and next spring further work will be done on the new survey. Parties performing work on same will be paid in scrip which will be redeemed by water payments. It may be several years yet before the ditch is finally completed to the lower end of Tule lake valley, a distance of 20 miles, but that it will be, some time, is assured. Tule lake valley is rich and fertile and offers many inducements to homeseekers.

from this district will be graduated in June, 1898, but the rules require the appointment of a successor to be made almost a year in advance. Here is a chance for somebody who has a son whom he desires to have educated by Uncle Sam in the art of war.

In 1891 the state of Oregon brought suit against Baker County for back taxes amounting to about \$14,000. After five years of litigation, Referee B. F. Bonham, appointed by the supreme court, has rendered his findings to the effect that Baker County must pay all but about \$3000, barred by the statute of limitation. After adding interest and costs Baker County will probably conclude it had better have paid with-out litigation. out litigation.

Hon. James F. Gazley, who died in Whatcom, Wash., July 4th, was buried in Canyonville. Mr. Gazley was one of the well-known ploneers of Oregon, baylor have for more service or each. in Canyonville. Mr. Gazley was one of the well-known ploneers of Oregon, having been for many years prominent in politics and public affairs. He was a lawyer and was one of Oregon's presi-dental electors on the Lincoln ticket. Of late years he had retired from poli-lics and made his home in Washington, where he had property interests. Mr. Gazley left three sons and two daugh-ters. J. F. Elmer and Clarence Gaz-ley, Mrs. G. W. Riddle and Miss Minnie Gazley. Eugana was the scene of a romantic

Suggest was the scene of a romantic mariage Thursday morning, says the Guard. Several months ago P. N. Shelley, of Pleasant Hill, through a matrimonial agency, commenced corresponding with Miss Enoree Jay, aged 23 years, of Augusta, Ga. As time went on a real love affair resulted, and at last, after first-class references had been exchanged, an engagement was the result. Thursday morning a complex that the northbound overland train by Mr. Shelley, ong woman was met at the northbound overland train by Mr. Shelley, and was escorted to the Hotel Eugene traines the result. Thursday morning a complex three the partice had never met before. A few hours latter a marige license was procured, and Elder A. C. Jennings performed the ceremony that Eugene was the scene of a romantic

ed round the pole. It is greater on the southern plateau than further north or the shores of the Arctic ocean. During its continuation the simospheric con-dition is one of undisturbed calm. There is not wind enough to move a twig, not a bird cleaves the still air. The silence is complete, and all nature is in deep sleep. Yet the climate is exhilarating on account of its dryness, and day and night have equal temperature. The short summer is sudden and very hot. The people are of Turko-Tartar origin.

Reminders of the Commune.

Parisians constantly find awful re-minders of the days of the commune staring them in the face. Recently the water supply of the city was being ameliorated, and in order to build some storage tanks works were carried on in the Charonne quarter. There, wrapped in their great coats or blankets, no fewer than 800 hodies were found all victims of the bloody fights which took place about May, 1871 These remains were gathered up and buried in a corner of the Charonne cemetery.

## Why She Pawned the Kettle.

A poor Irish woman took a copper

ver nitrate this image becomes black by reason of the reduction of the silver Bichromated paper is affected by radiant heat, as by light, and paper impregnated simply with sulphate of copper yields a feeble image, which becomes nearly black when treated with allver nitrate. A mixture of sulphate of coper and oxalic acid gives a paper which becomes brown on exposure. Chlorate of copper is also very sensitive, the faint blue color becoming a deep green. Similarly used bromide of tin behaves as if exposed to light, but unexposed parts become very black when treated with silver nitrate. Nitrate of silver, which is markedly acted upon by light, is slightly browned when exposed to heat radiation, and the tint is deepened by hydroquinone or gallicacid.

Reasons Why Chamberlain's Colic, Cholera and Diarrhoea Rem-edy is the Best.

 Because it is the best.
Because it affords atmost instant relief in case of pain in the stomach, colic and cholera morbus.
Because it is the only remedy that never fails in the most sovere cases of dysentery and diarrhoea.
Because it is the only remedy that will cure chronic diarrhoea.
Because it is the only remedy that will prevent billous colic.
Because it is the only remedy that will cure epidemical dysentery.
Because it is the only remedy that can always be depended upon in all cases of cholera infantum.
Because it is the most prompt and most reliable medicine in use for bowel complaints.
Because it produces no had results. Because it affords almost instant

A sick person trying to keep up on mere stimulating tonics is like any one pretend-ing to swim while supported by a belt. The instant the support is withdrawn down

ing to swim while supported by a belt. The instant the support is withdrawn down Nearly all diseases result from a deep-seated impairment of the sutritive powers which cannot be reached by any temporary exhilaration. The only good that any med-leine can do is to increase your own natural powers of recovery and make you able to swim for yourself. The debilitating weakness, nervousness and digestive disorder which indicates this state of mal-nutrition can only be overcome by a scientific remedy like Dr. Pierce's Golden Medical Discovery which acts di-rectly upon the digestive and blood making organs, and effects the nutritive transforma-tion of food into rich, healthy blood, which carries genuine permanent vitality to every corner of the system. It is vastly more nutritious than malt-extracts. It does not paralyze the nerves, but feeds them with healt. It is better than cod liver oil emulsions. It is assimi-iated by the weakest stomachs. It does not make flabby uscleas fat, but muscular strength and healthy nerve-force. It is the only perfect invigorant for corpilent people. Mrs. Ella Howell, of Derby, Perry Co. Ind., writes,'' in the year of 1504 yas taken with In pursuance of a degree and order of sale To be a subscription of a degree and order of sale oregon, within and for the County of Jackson, on the the with day of september, A. D. 1866. In favor of M. R. Hart, plaintif, and against (barles Miton, defendant, for the sum of 258, 68, and the further sum of \$5.00, also attorney fees, \$20.00, and cents and this unsemine taxed at \$20.70, with legal interost thegeon, together with accruing costs, on which forgment there having a builance of \$10.00, with legal interest thereon from the 28d day of March, 1896, I will expose for sale and will sell, as the law directs, at the front door of the court house of sald forunty, in the town of Jacksonville, State of orgeno, on Saturday, July 31, 1897. and particle invigorant for corpilent people. Mrs. Ella Howell, of Derby, Perry Co. Ind. writes: "In the year of 189,1 was taken with stomach trouble-servous dynpepsis. There was a coldgeas in my stomach, and a weight which seemed like a rock. Everything that T ale gave me great pain; I had a bering down seutation: was awelled across my stomach; had a ridge around my right side, and in a short time I was bloated. I was treated by three of our hest phy-sicians but got no relief. Then Dr. Pierce's Golden Medical Discovery was recommended to me and got it, and commenced the use of it. I began to see a change for the better. I was and much weak a could not walk across the room without assistance. I took Dr. Pierce's Golden Medical Discovery and one bottle of the 'Pleasant Pel-lets. 'I began to improve very fast after the use of a few bottles. The physicians wino strender me and I had 'dropsy' and that my disease was up to it. I than KG of that my disease was up to die. I thank God that my cure is permanent.
