NEWS OF THE STAFE.

Baker City has fifteen saloon+-one for every 400 people.

Mechanical hall at Corvallis agricultural college will be rebuilt at once

The crop of cured prunes in Lane County is estimated at 1,200,000 pounds. Some fall-sown grain in Umatilla County is already four inches above the ground.

An Astoria lumber company shipped a carload of spruce lumber to Minneap-olis, Minnesota, last week.

Cordwood is selling for \$2.25 per cord, spot cash, at Warren, an increase of 90 cents a cord in two years.

About 2,000,000 pounds of hardtack, manufactured from the best Oregon four, have been shipped to the Philip-plass for the use of the Oregon recruits there

The Oregon Pharmacists in session at Portland last week passed resolu-tions asking that the stamp tax be repealed.

The run of fish in the Coquille river is so great that the cannerles have limited the amount to be accepted from each boat to sixty.

Oregon papers report the presence in this state of prominent California fruit growers who are looking for or-chard lands in Oregon.

The Eugene Guard says one-third of the prune crop of Lane County has been lost on account of lack of a sufficient number of evaporators.

The Dalles military road company has about 100 cases against the settiers of Sherman County, to be tried in the coming session of the circuit court.

Edwin Weaver, a leading Myrtle Creek fruitgrower, will dry over 100,000 pounds of prunes this year, and will besides tose about 10,000 bushels be-cause of a lack of drying capacity to handle his crop.

The superintendent of the state peni-tentiary has made his quarterly report which shows the number of convicts confined at the close of the quarter to have been 305, a decrease since the close of the preceding quarter of thirty.

close of the preceding quarter of thirty. The owners of the Dallas woolen mill have leased or practically sold the mill to the Pioneer Woolen Mill Com-pany, of Tacoma. Operation of the mill will be commenced immediately. New machinery will be added as soon as possible, with a view to making the mill one of the most completely equip-mill one of the most completely equipped in oregon.

Eugene's contract with the Eugene ater Company was to have expired October 1, 1898, but a new 10-years' on October 1, 1895, but a new 10-years' contract was made. In the new con-tract, the water company agreed to furnish the city water for the first five years for \$1000 per year, and for the last five years of the life of the contract for \$1200 per year. A petition is in circulation in Lake-view reaching for shall be and the second

A petition is in circulation in Lake-view traying for a daily mail between Prineville and Silver Lake. This is the ooly section on the through line which is not run as a daily, and the granting of this petition will be a great convenience. Major Chrisman circu-lated the jetition in Lakeview and re-ceived many signers.

on the old lines. The regiment will be composed of three battallons, one from Portland, one from Eastern Oregon, and one from the Willamette valley. These battallons are to be made up of four companies each. In addition to this, there will be one company from Oregon City.

RULER OF GUAM.

The Provisional Governor of the La. drones Once an Elevator Boy In Sau Francisco.

Francisco Porusach, who is now the American provisional governor of the Ladrone islands, was formerly a resident of San Francisco, and at that time was employed for about a year as elevator man in the Chronicle build-

ing. That was in 1892. Four years ago, on the indorsement and recommendation of Justice of the Peace Barry, he attempted to secure the appointment as janitor in the new city hall building, but did not land the position. He then departed for the Ladrones. When the United States took possession of that group of islands on June 21 last, Portusach was the only resident American citi-zen, and was accordingly put in charge of affairs after the Spanish governor and garrison had surrendered

and had been removed to the transports in which they were taken on to Cavite. Gov. Portusach is a native of the is-

land of Guam, of the Ladrones group, and is about 30 years of age. He became an American citizen during his residence in California. His father is a full-blooded Spaniard, but his mother is a native islander. When Francisco Portusach was here he won the heart and hand of a young German woman, whom he made his wife.

who used to be an elevator man in the Chronicle building and became ar American citizen in this state, would seem to have combined all the ele-ments necessary to insure peace among the nations interested in the destiny of the Philippines and the adjacent Spanish islands.

It was evidently a lucky day for Portusach when the powers in the new city hall turned him down for another, and when the Charleston and the three troopships of the first expedition stopped at the island of Guam they found Portusach comfortably situated, a man of family, and a promi-nent representative of the United States. Capt. Glass of the Charleston. states. Capt this off in the placed the interests of the United States in Portusach's hands, pending the ultimate appointment of a regular mili-tary or civil governor by the authori-ties at Washington.—San Francisco Chronicle.

Deafness Cannot Be Cured

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitu-tional remedies. Deafness is caused by an in-manted condition of the mucous lining of the Eustachtain Tube. When this tube is inflamed you have a rumbling cound or imperfect hear-ing, and when it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, nearing will be destroyed forever; nin c cases out of ten are caused by Catarch, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any rase of Deafness (caused by Catarch) that can-not be cured by Hall's Catarch Cure. Send for circulars free. F. J. CHENEY & Co, Toledo, O.

Robert Dow's Manila Letter.

MANILA, Aug. 21, 1898.

DEAR FRIEND :--- I 'received your letter and papers about three weeks ago. for letters are a scarce article out here, I can tell you.

particulars about the surrender of age or condemnation in that period. Manila and the bombardment, etc. To day the sailing fleet of England I wish you could have been here and seen the bombardment. We were an chored about three fourths of a mile from Dewey's fleet and saw all of it. It commenced about 10:30 and lasted until 11:45. We landed in Manila the same evening the entire world. In combined ton-a little after six o'clock. The Ore- nage, Germany holds fourth place, gon boys were the first to land and to raise the American flag. I saw 4500 Spaniards lay down their arms and it was surely quite a sight. Most of the Spanish soldiers seemed giad to quit, but the officers looked pretty blue about it. We landed at Cavite, about nine miles across the bay from Manila, on July 1st, and stayed there until the 13th, the day of the bombardment.

Manila is not a very small town by any means, although it has a rather ancient appearance. The

streets ar only about twenty feet wide and the houses all have bars across the windows, which makes them look like jails. There are two parts of the town-Old and New Manila. There are lots of Catholic Churches and convents here, some of which are quite grand inside.

With a Spanish father, a native of Guam for a mother, and a German woman for his wife, this new governor.

quitoes to bother you at night. There are people of nearly all nationalities here, but there are more natives and Spaniards than any-thing else. The Spaniards have treated us quite well so far-that is, to our faces. I don't know how they are when our backs are turned. but I think they will have to be good under the circumstances.

We are quite up to date here in the barracks; have church and Sunday school every Sunday, and a band concert every evening. We Production of salt. The United States, which for many years has ranked second to Great Britain in the production of salt, pro-duced in 1897 considerably more than the production of Great Britain in 1596, according to a recent report of the United States geographical sur-vey. In Probate Lourt.

A Big Salmon Offers Itself Just in

Three Boston men-Herbert Duma-resq. Charles Hoyet and L. R. Howewere returning from a very enjoyable salmon fishing trip to the celebrated Dawson pool, on the Restigouche river, in New Brunswick. They each took about seven salmon of good weight, though the weather was hot a good part of the time and the season inte. Mr. Dumaresq was leader of the party as to size of fish taken, he landing salmon of 36 pounds weight. The fish was a noble fellow, and it appears was a fish of good qualities-possibly of a religious turn of mind. It happened this wise:

A Fleet of Over 40,000 Ships. That the general commerce of the

entire world is undergoing a remark able increase is attested not only by DEAR FRIEND: -- I received your stter and papers about three weeks go. I was glad to hear from you, r letters are a scarce article out ere, I can tell you. I suppose you have gotten all the represents more than a third of the world's combined sailing fleets, and her steam fleet nearly 60 per cent, of the steam fleets of the world. North America ranks second and Norway third, each having about two-thirds more sailing than steam tonnage of but in steam alone she follows Eng-land, and in the number and value of her passenger steamships she also stands above all countries excepting England. The commercial fleet of the world comprises nearly 30,000 sailing vessels of over 9,000,000 tons net, and more than 11,000 steamships of nearly 10,800,000 tons net. As the steamship, by its more rapid voyages, has a transporting capacity about three times greater than the sailing vessel, it will be seen how the enpacity of transportation is increasing.-Philadelphia Saturday Evening Post.

Three Doctors in Consultation.

Three Doctors in Consultation. From Beojamin Frankin. "When you are sick, what you like best is to be chosen for a medicine in the first place: what experience and lice and the first place. In the second place: share so it is to be chosen in the second place: share so it is a first place. full if you can get Dr. Inciding on Dr. Experi-ence and Dr. Reason to hold shore so its first enter and br. Reason to hold shore so its first can be taken."

of which are quite grand inside. The street cars here are all pulled by horses. They don't seem to stay on the track very well for some reason, but they are not hard to get back on. A couple of natives get hold and lift them back on with-out much exertion. I don't think I would like to stay here very long, for it is a little too warm and there are too many mos-quitoes to bother you at night.

Notice to Creditors.

Walking the Floor. When a business man gets to the where he cannot sleep at night, wher so shattered of nerve that it is tort even remain in his bed, and he has

An Old Man's Last Hope.

Made helpless as a baby by a dreadful nervous disease he read of a case like his own, and had enough faith to follow the example it set him. Now he is himself an example to others who are suffering from disorders of the nervous system.

Sawing wood, working in his garden, walking three times a day to and from his place of business these form part of the daily routine of Edwin R. Tripp, Post-mater of Middlefield Centre, N. Y. He is past his seventisth birthday. Nearly fifty years a blacksmith, i thirty-two years Justice of the Peace; three years town clerk, then postmaster; forty-six years a resident of the town he now lives in-these are the bare outlines of a useful life. Ms. Tripp's career is a type. His story will be read with heartfelt sympathy by thousands. His hearty endorsement of Dr. Williams' Pink Pills for Pale People will be echeed by tens of thousands. He said: "In March, 1892, I was sttacked by what I alterwards learned was locomotor atasis."

ataxia. "Two skillful doctors did everything lateadily became

"Two skillful doctors did everything they could for me. I steadily became worse. Was unable to dress myself. "Later I could not move even about the room, but was carried in my chair. "I gave up hope. The doctors gave me no encouragement. I did not expect to live very long. I was more helpless than a baby. I sank lower and lower. "In June the tide turned! From the lowest ebb, it began to set toward health and vigor.

"The turning point was a newspaper

"It told how a man, who suffered as ... had suffered, had been cured by Dr. Wil-liams' Pink Pills for Pale People. "It gave me faith and hope. I took two boxes of the pills ; then four more boxes. "My gain was steady; my return to health was a source of daily gratification. "In all I took eighteen boxes of the pills before I was entirely well. At first I paid 50 cents a box, but afterwards I saved monsy by getting six boxes at a time, paying \$2.5d. "I owe my cure entirely to Dr. Williams' Box But for Dir Buent?"

money by getting six boxes at a time, paying \$2,50. To we my cure entirely to Dr. Williams' Pink Pills for Pale People." To clinch his remarkable story and add to its helpfulness to others, Mr. Tripp made affidavit to its truthfulness before Homse Hanna, a local Notary Public. To melplesness, suffering and despair Mr. Tripp was restored to the healthful, useful activity suggested as the beginning of this sketch. His experience is like others. While locomotor ataxia is one of the most baffling nervous diseases with which physicians are called to contend, its cure by Dr. Williams' Pink Pills for Pale People has become a matter of almost daily oc-currence. Smaller nervous troubles yield much more readily to the powerful influ-ence these vegetable pills exert in restoring wasted nerve force and in purifying and eariching the blood. Druggists everywhere sell Dr. Williams' Pink Pills for Pale People.

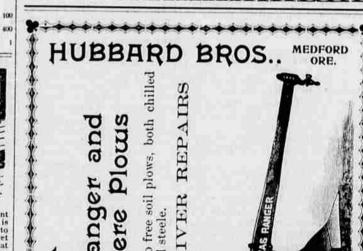

Bicycles.

We are strictly in it when it comes to Wheels. We are carrying in stock the Celebrated

'98 Phoenix Wheel

that we are selling at \$50.00. For a cheaper wheel, we have the Golden Eagle at \$35.00. This is a good wheel for a small amount of money. Call and see our new '98 Solar Gas Burner Bicycle Lamp. No wick ; will not blow or jar out. Throws the largest light of any lamp in use. Bicycle repairs carried in stock. Repair shop in connection.

Boothby, of Prospect, Oregon. Sec. 0 28 Energizes and vitalizes

The weather was hot and the fishing rather poor. On that part of the Restigouche river is a little church, in which old gentleman Dawson (from whom the pool takes its name) and his wife are much interested. On the day in question Mr. Dumaresq registered a vow that if he took a salmon of 29 pounds weight he would lift a debt of \$100 that had been hanging for some time like an incubus over the little meeting

Mr. Dumaresq went fishing in the morning, not thinking it possible that he would have much luck; but soon he had a great strike, and, after a most exciting fight, the fish was brought to the net and was found to weigh 36 pounds.

There is not the slightest doubt in the minds of all the anglers conversant with the facts that the salmon had Mother Dawson's church in mind when he seized Mr. Dumarceq's fly. That genticman promptly raised the church's debt and received the gratitude of Mother Dawson, who is firm in the belief that the Lord sent the fish. But now the real reckoning among sportsmen is that Mr. Dumaresq owes that church just seven more contribu-tions, for did not the salmon weigh 36 pounds, and the vow was registered at 29 pounds?--Chicago Inter Ocean.

NOTICE FOR PUBLICATION.

Land office at Rosoburg, Oregon, Bopt. 19, 1858. Notice is hereby given that the following named settler has filed notice of his intention or make final proof in support of his claim, and that said proof will be made before Gue New-bury, county clerk of Jackson County, Oregon, at Jacksonsville, Oregon, on November 5, 1958,

ALFRED D. GORDEN.

where he cannot sieep at might, where he is so shaltered of nerve that it is toriture to even remain in his bed, and he has to get up and pace the door—it is time for that man to bring himself up with a round turn. If he does not, it means nervous prostration and mental, if not physical, death. For a man who gets into this condition there is a remedy that will brace him up, put him on his feet and make a man of him again. It is Dr. Pierce's Golden Medical Discovery. It goes to the bottom of things. It searches out the first cases. When a man is in this condition you can put your finger on one of two spots and hit that first cause — the stomach or the liver or both. This great medicine acts directly on these spots. It prompily transforms a weak stom-ach into a healthy one. It facilitates the flow of digestive luices and makes diges-tion and assimilation perfect. It gives a man an appetite like a boy's. It invigor-ates the liver. It fills the blood with the life giving elements of the food, and makes in the life current, and when it is filled with the elements that build new and healthy tissues, it does not take long to make a man set stom. It builds firm, muscular fibes, it puts may form and yreat into. Nothing "just as good " can be found at medicine stores. "I had suffered about eleven years with a pain theolek of my bead and heak." writes Mr. "T auffered for eleven years and spent as great dot get elle. Then I tried four bottles of the "Oolden Medical Discovery' and improved great-by. Tsen to for wore and now im glad to tell veryone that I am is good health."
