Around Mt. Rainier.

This mountain is the grandest in the United States. It is more than 15,000 feet high, is covered with ice and snow, has beautiful parks and noble forests at its base, and is much frequented by camping parties, tourists and mountain climbers.

Some years ago the Northern Pacific Railway fitted out a party that ascended the mountain to its highest point. An article in Wonderland '98, describes some experiences of the party in camp life at Paradise Park. This mountain trip is sure to become increasingly popular, especially to those who make Puget Sound a theatre for vacation trips, and such will be interested in this chapter.

Send Chas. S. Fee, St. Paul, Minn., six cents for Wonderland '98 and you can read about it.

General Corbin believes that the First California should reach the United States by April 10th.

Secretary Bliss notified Senator Perkins that he had withheld from the public domain 60,000 acres at the head of Trabuco canyon in Ventura county. This will make a forest reserve for the preservation of the water supply of that region. The land so reserved is on a ridge of mountains and is where the sheep herders have recently been making raids with their flocks. The raids have endangered the small timber and this threatened to do away with the entire water supply. For this reason Secretary Bliss has set the tract aside and will add to it when it is made manifest that more land is needed to conserve the water supply of the valley.

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scales on the sores would peel off on the slightest touch, and the odor that would arise made the atmosphere of the room sickening and unbearable. The disease next attacked the eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave it as their opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of this disease to return.

Mrs. Ruth Beckley, Salina, Kan.

Scrofula is
