It is a curious fact that a negro has never been known to tame an elephant or any wild animal.

The president of France receives a salary of \$125,000. Additional incomes make it equal to \$250,000.

The Cuban army rolls show that 48,000 men are entitled to share the \$3,000,000 to be distributed by the United States authorities.

In England more than 10,000,000 oil lamps are used nightly. They cause 300 deaths annually, and in London alone 165 fires in a year have been traced to them.

Pope Leo probably appeared in St. Peter's, at the Thanksgiving mass, Sunday for the last time. The condition of the holy father seemed to be one of extreme emaciation.

The Albatross, the new torpedo boat destroyer which has been built in England for the English navy, attained a speed of 33 knots on her trial trip. This is the greatest speed ever attained by any war vessel.

The imports of mutton into London from all parts have increased from 400 carcases in 1880 to nearly 4,500,000 in 1898, and the fact is noticed that the condition of frozen meat on arrival is gradually improving.

The total wheat shipments from the Northwest ports for the year 1898-1899 or from July 1, 1898, to April 1, 1899, amounted to 23,588,965 bushels. Of this amount 15,578,074 went from Portland and 8,009,891 from Puget Sound ports.

The American opera singer Emma Nevada was hissed by the Spanish grandees at Seville. At Madrid the queen regent was informed of the occurrence. Her majesty invited Nevada to a soiree at the palace, and presented to her a diamond and sapphire bracelet.

A telegraph line from Skagway to Dawson will be constructed by the Canadian government this season. The construction party left Ottawa to begin work March 4. The distance of the proposed line is 600 miles; estimated cost \$250 a mile, or a total of \$150,000. It is expected that the line will be in operation by Nov. 15, 1899.

A French physician recently reported to the Academie des Sciences the result of the experiments on blind children. A statement prepared in the office of the adjutant-general shows that 13 officers who entered the army at the opening of the war of the rebellion and served throughout

that struggle are still on the active list of the army, having served with credit throughout the Spanish war which has just closed, the period of service during both wars, from April 11, 1861, to April 11, 1899, being 38 years.

The United States transport Hancock sailed Monday from San Francisco for Manila with the Twenty-first infantry regiment. Several other transports will depart during the week. The Grant, with invalided soldiers and many dead bodies on board, is due at San Francisco within a few days.

A letter from Hong Kong to the New York World says: "We are weak and you are strong," said Dr. Gallicano Apairle, the head of the Filipino junta here, "but we have an ally and you have none. We have 70,000 stands of arms and 30,000 troops in the field, and sufficient material to make cartridges to supply our troops for four years to come. Our ally is the climate of the Philippines. Your bullets cannot kill one of our men where disease will kill 20 of yours once you begin your advance into the interior. We will harass your advance at the same time that we welcome it. We cannot fight pitched battles with you, and we do not need to. We shall be here today and there tomorrow, attacking, then flying. You can no more catch us or conquer us than you can the wind."

A Few Farm Notes.

From the Rural Northwest.

Alfalfa is said to make the best pasture for hogs, and clover and blue grass come next.

The outlook for the coming wheat crop in the United States is very much less favorable than was the outlook at this time last year. Winter wheat has been damaged in many states, and the backward spring has greatly delayed the sowing of spring wheat. It very rarely happens that a good crop of spring wheat is secured in years when the seeding time is much delayed.

The codlin moth is probably the most troublesome insect pest with which the fruit grower has to contend. It has been thoroughly proved, however, that it pays to fight this pest. Even in the worst infested districts of Oregon, fruit growers have succeeded by timely sprayings in reducing the number of wormy apples grown in their orchards to less than five per cent. It does not pay to raise wormy apples.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, skin eruptions, blotches and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at Chas. Strang's drug store.
