## Oregon at the Paris Exposition.

the coming Paris exposition is admirably de-signed to portray the character of American resources and industry as a whole, it will not afford much opportunity for distinction to individual states. For example, there will be a general exhibit of American breadstuffs in which Oregon's contribution will appear suits-bly marked; and so on as regards timber, fruit and other products. But there will be little or no space, even if exhibits shall be provided, for the setting forth in a comprehensive way of the industry and resources of Oregen, or of any other state individually. With the idea any other state individually. With the idea of making a more satisfactory showing for the three Pacific states through which its lines run, the Southern Pacific Company has conceived the idea of a special exhibit to be made outside the exposition—in side-show form, so to speak—in which the states of Oregon, California and Nevada, and possibly the territory of Arizona, shall be very fully and completely represented. It is proposed to find quarters in some prominent and popular street of Paris, and there te make a showing of Pacific coast products, the like of which cannot be equaled by any other part of the United States, or, for by any other part of the United States, or, for that matter, any other country of the world. The California board of trade, a body whose oblef fusction it is, in connection with the Bouthern Pacific Company, to exploit the state, has taken up the work of organizing the Cali-fornia feature of the exhibit. The secretary of the board—Mr J. A. Filcher—is now in Portland for the purpose of inviting our people to co-operate. He has conferred with the Cham-ber of Commerce, and that body has named a committee to take the matter in hand.

The offer made to Oregon is a generous one. If our people will contribute the materials for an exhibit—massing them at Portland-the Southern Pacific will transport them to Paris. pay all the charges of transportation, and re-turn them here or elsewhere in the United States. And if, further, our people will send an agent or commissioner to take charge of training horses on the central long track.

Henry Gregg, an Applegate miner, Mrs. I. E. Sayre left Mudford last Friday for Provost, Utah, where she expects to reside. Mrs. Sayre is an accomplished musician and an artist of no mean repute. Several of her latest brush productions are indeed the work of the true artist. The lady will be very much missed by her scores of Medford friends.

Mr. and Mrs. S. G. Edwards, of Lake Creek, were in Medford this week upon a visit to their son, S. L. Edwards, and no visit to their son, S. L. Edwards, and no visit to their son, S. L. right now compels them to lay off from work until the fall rains.

S. L. Bennett and family left Monday for the Shovel Creek hot springs. They went by team and their mission thither is to give their ten-year-old son, Lewis, treatment for rheumatism. The little fellow has been a sufferer for sometime and Mr. Bennett, who a few years ago was himself cured of this discase at the springs, feels that a cure of the boy will surely be effected.

Mr. H. R. and Miss Nellie Herriford, all of Lakeview, arrived in the city work and operate excompanied by Miss Leongy Monday. These people came via Crater lake and will spend a few days in the valley, getting fruit and sight seeing. These people knew what they were dofing when they came to Medicor for fruit. They express themselves as well pleased with the valley and Mr. Howland will expend on the way to put up houkicherries.
