The south refers with pride to the state of Georgia as having furnished more volunteers for the war with Spain, in proportion to population, than any other state.

H. Clay Evans, Commissioner of Pensions, says there have been 20,000 applications for pensions growing out of the war with Spain, of which about 400 have been granted.

A young lady in Philadelphia had her hand permanently injured by the squeeze a gentleman gave it when shaking hands with her. She sued him for damages, and was awarded \$10,000.

When Admiral (then lieutenant) Kautz was exchanged and thus liberated from his Confederate prison in Richmond, his was the first case of exchange of prisoners sanctioned by President Lincoln.

Ex-President Benjamin Harrison, who was chief counsel for Venezuela in the boundary arbitration, receives a free of \$250,000. He has given his entire time to the case for two years past.

A safety bicycle geared to 120 gets over the ground as fast as a giant thirtyfive feet tall would, if he took steps of fifteen feet in length as rapidly as an ordinary man steps his thirty inches in a brisk walk.

Admiral Dewey, at his own request, has been detached from the warship Olympia, on which he won the victory of Manila bay. Anything Dewey wants he can have, whether it is shore leave, or at the head of the navy.

The authorities of a Wisconsin town propose to compel all bicycle riders to take out a license and pay one hundred dollars therefor. These license fees are to provide a fund for the compensation of the possible victims of collision.

Deonya Burklin is the new queen of the gypsies. She was crowned at Lancaster, Pa. The queen was born in Egypt and her father, who is 92 years of age, boasts that none of their family for seven generations has ever slept in a house.

At Tacoma, Wash., on Saturday, Albert Mitchand was sentenced to death by hanging for the murder of his divorced wife. The crime was committed less than ten days ago. The date for carrying out the sentence is not yet fixed. The courts of Washington are evidently not slow to act in murder cases.

When the eight vessels which were last Saturday ordered to Manila reach Admiral Watson, he will have under his command one battleship, two monitors, one armored

The number of soldiers slain in battle depends a great deal on the color of their uniforms. The more flashy and conspicuous the helmet and jacket the better the target, and consequently the greater the mortality. Red attracts the eye most readily, and twelve men wearing that color are killed to seven in rifle green, or six in blue, or five in either brown, blue gray or gray.

"Homer Davenport is the highest-priced artist in the world, and he is a native Oregonian. Recently the New York Journal, on which Davenport draws pictures of current events political, in causing a general reduction of expenses, asked Davenport if he would stand a reduction of \$50 a week. Davenport got mad, and instead of being reduced \$50 it was raised \$50, so that he now receives only \$15,000 a year. That is genius."—Albany Democrat.

A Juneau Dispatch correspondent says of the Cape Nome mining district: "About 2000 people will winter at Cape Nome. Upon interviewing miners, merchants and professional men, I find that they all agree upon one point, and that is that the Cape Nome mining district is the richest on the Pacific coast, if not in the world, for where is there another place where an inexperienced miner can take an old-fashioned rocker and take out from the sands on the beach from \$10 to \$100 per day? Such is the case here. There are 1000 or 1200 men now working side by side on the beach near the mouth of Snake river. How long this will last is a speculation, but as the beach prospects good for many miles in each direction it is natural to suppose it will hold out for two or three years, at least, but that depends also upon the number of men and the means employed in working it. The deposits of gold lie in "pockets" in the richest spots and are also scattered freely among the sands in other places, as though it had been thrown up by the action of the waves."

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run down feeling. But there's no need to feel like that. Listen to J. W. Gardner, of Idaville, Ind. He says: "Electric Blitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at Chas. Strang's drug store. Every bottle guaranteed.
