The two great material conquesta which mark the nineteenth century are the building of the Pacific railroads and the digging of the Suez canal.

Asia or Africa.

In Janesville, Wis., is a pearl button factory which turns out thousands of the finest quality of buttons. Tons of Mississippi clam shells are used in pro-ducing the buttons.

others for the export trade, and espe-cially in warm climates where American and English goods come into close competition. American glass is said

The South Kensington indeed of April 25, mays; constantly adding to the collection of I sode from Jammersburg here, skirtscientific instruments and models of old-fashioned machines. We learn from Industries and Iron that they have now made a large number of additions of modern machinery and tools, such as a coal gas purifying house, a Belleville boiler, a launch engine, water-tube boilers using liquid fuel, a transformer, steam turbine, etc. Many of the machine models are shown in motion.

I rode from Jammersburg here, aktriing Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepener, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and met General Brabant's advance guard four miles south of Wepner, and with the guard four miles south of Wepner, and with the guard four miles south of Wepner and Sunday and Tuesday, with the guard four miles south of Wepner and Sunday and Tuesday, with the guard four miles south of Wepner and Sunday and Tuesday, with the guard four miles south of Wepner and Sunday and Tuesday, with the guard four miles south of Wepner and Sunday and Tuesday, with the guard four miles south of Wepner and Sunday and Tuesday, with the gu

#### PICKPOCKETS' GAINS.

Ascording to This Account It Is Fairly Remunerative Calling

The amount of money which pick-pockets take in annually is probably greater than that of any other special-iate in crime. It would be to ists in crime. It would be idle to say how large it is, but it is a well-known fact that thousands of dollars are stolen by them at big public gatherings to which they have access. It was reported, for instance, that at the recent confederate soldiers' reunion in the south \$30,000 was stolen by pickpockets, and almost every day in the year one reads in the newspapers of a big "touch" reaching into the thousands. I think it is a conservative staement to say that in a lifetime the expert pickpocket steals \$20,000. Multiply this figure by 1,500, which I have given as the number of first-class grafters in the country. and the result reaches high up into the millions. Like other professional thieves, the pickpocket throws away his money like water and very seldom thinks of saving for old age, but prac-tically all successful mobs have "fall money" (an expense fund for paying lawyers, etc., when they get arrested) of from \$3,000 to \$5,000 each carefully banked, and I know of one pickpocke who is the owner of some very valuable A good illustration of the rapidity with which they recoup themselves financially after a period of rest or a term in prison is the story told about one of them who returned to this country penniless after a pleasure trip to Europe. The man related the in-cident to a friend of mine. "Didn't have a red," he said. "I tackled a saloor keeper I knew for a couple of thousand. How long do you think I was paying him back? Three weeks."

If the pickpocket knew how to save his money and could invest it well his children might some day be our milliouaires.-Isaiah Flynt, in Independ-

## TWENTIETH CENTURY'S DAWN

The Friendly Islanders Will Be the to resign. Advent.

The first people to live in the twen-tieth century will be the Friendly is-landers, for the date line, as it may be called, lies in the Pacific ocean just to the east of their group. At that time, al-though it will be already Tuesday to them, all the rest of the world will be enjoying some phase of Monday, the last day of the nineteenth century (December 21, 1900). At Melbourne the people will be going to bed, for it will be nearly ten o'clock; at Manila it will be two hours earlier in the evening; at Calcutta the English residents will be sitting at their Monday afternoon dinner, for it will be about six o'clock; and in London "Rig Ben" in the tower of the house of commons will be striking the hour of noon. In Boston, New York and Washington half the people will be eating breakfast on Monday morning. while Chicago will be barely conscious of the dawn. At the same moment San Francisco will be in the deepest sleep of what is popularly called Saturday night, though really the early, dark hours of Monday morning, and half the Pacific will be wrapped in the darkness of the same morning hours, which become earlier to the west, until at midway or Brooks island it will be but a few minutes past midnight of Sunday night.—John Ritchie, Jr., in Ladies' Home Journal.

Coins Five for a Cent. The smallest coin now current in Europe, and at one time having the least value, is the Greek lepton. The lepton is, according to the decimal monetary system, current in all countries belonging to the Latin union. Some idea of this valueless little disc may be gathered from the fact that the lepton is the one-hundredth part of a drachma. The Greek drachma usually passes for the ranch of John Miller, were each some value that a franc pieze does, that tenced by Judge Hart to ten years' imis, it is about equal to about 20 cents of cur money.—Boston Globe.

WAR IN THE TRANSVALL.

Progress of the Fight Between Brite

LONDON, April 27.—The Constantino-ple correspondent of the Daily Chronicle says: The Turko-American diffi-culty is in a fair way of actilement, the sultan having promised satisfaction. It is asserted that the porte has revived A medical paper directs attention to the curious fact that searlet fever has united States to diagnise the payment aever been observed in epidemic form of indemnity and Ahmed Pasha is going the tropical or subtropical regions of ing to New York to negotiate with the

The Constantinople correspondent of the Daily Mail says: In addition to re-building the American structures at Kharput, the sultan has found a way graphs, canals nor harbors.
India has perhaps a greater variety of plants than any other country in the world, having 18,000 native species, while the flora of the entire continent of Europe only embraces about 10,000.

Lorson, April 26.—A special to the Times, dated Majoking, Basutoland,

are 88 killed and 189 wounded.

COMMITANTINOPLE, April 28.—The porte has not yet replied to the note handed to Tewfik Pashs, the Turkish foreign so Tewns Franch, the United States charge d'affaires, Lloyd Griscom, regarding the indemnity claim, and the situation is unchanged. It is believed in some quarters that a settlement will yet be made by means of some arrangement ecaling the actual payment, and thus relieving the Ottoman government from admitting responsibility for the losses occasioned at the time of the massacre.

NEW YORK, April 17 .- A Sun cable from Manila says: General Otis has ordered the trial by court-martial of Colonel James S. Pettit of the Thirtyfirst volunteer infantry on a charge of violating the 62nd article of war. Pettit is accused of making arrangements with Mayor Medill of Zamboanga for the capture of the notorious Juan Ramos, who was afterward to be trans-ferred to Medill to be killed. Pettit captured Ramos and turned him over to Medill, who killed the prisoner without a trial the same day. "The court will assemble in Manila. Major Willard A. Holbrook of the Thirty-eight volun-teer infantry will preside, while Judge-Advocate Grant will conduct the prose cution. There are seven solonels on the board of officers to conduct the trial.

General Ruis Riveira, secretary of agriculture, industry and commential of Cuba has written a letter, which is to be largely circulated, calling upon political parties of all shades to unite in order to present a united front to the government and people of the United States when asking that the year 1901 shall be devoted to the formation of an independent government for Cuba, which shall begin to act on its own responsibilty after the end of 1901. The letter has caused a great sensation among the Cubans generally, coming as it does from a cabinet secretary, and the feeling is that the letter is, to all practical extents, to call upon the Cubans to demand independence. He will have

President McKinley has nominated Frank L. Campbell of the District of Columbia to be assistant secretary of the interior, vice Webster Davis, re-

David H. Shields, formerly a post chaplain in the United Statet army, died suddenly at Philadelphia a few days ago, Shields was recently court-martialed at San Francisco, and sentenced to be dismissed from the army because of his intemperance.

The gunboats Bennington and Concord are to return to the United States from Manila.

Property worth millions of dollars has been swept away by the floods in the southern states along the Mississipi. Bain poured down in three states further increasing the damage. So far the only loss of life is reported from Jackson, Miss., where John Horton, his wife and five children were drowned in the beatwares of the Pearl river while the backwaters of the Pearl river while trying to reach the hills. Vast damage is being done to bridges, railroads and dikes. Telegraph service is destroyed in many localities. It is now estimated that the total property loss will reach up to \$60,000,000.

General Joe Wheeler has tendered his resignation as Alabama's represen-tative in congress from the Eight dis-

The work of construction by the United States government of a steel combination railway and highway draw-bridge, to span the tidal canal at Fruit-vale has commenced.

W. H. Prather and Charles Davis who were found guilty of grand larceny at Sacramento last Saturday night for stealing 50 sacks of buckwheat from the

Representative de Vries has presented to the house a number of petitions urging that immediate action be taken by congress to preserve the groves of bigtrees in Calaveras and Tuolumno counties. They bore about 200,000 signatures, which had been secured by scalous work of the ladies of the California

Senator Martin of Virginia, gave notice that he would offer an amendment to the naval appropriation bill, providing for the sucrease of the salary of electricians in charge of plants in the department yards and docks at the navy yards at New York, Mare island, Nor-fork and Washington from \$1900 to \$2400 a year.

sent to the president, members of the cabinet, senators and representatives in congress, invitations from the board of trade of Visalia, Cal., to join in a 30-day camping party which is to visit Mount Whitney and the Sequola na-tional park in the Sierra Nevada moun-tains about July 18.

The postmaster at San Francisco hereafter will make an additional daily dispatch of registered matter to Chicago at 8:80 a. m.

Senator Bard secured passage in the the public domain. The bill was intro-duced by Representative Waters and has been passed by the house.

Many important government surveys will be made in Alaska during the com-ing season. Considerable interest athes to surveys at Cape Nome. Alfred H. Brooks will have charge of this

Senator Perkins' bill prohibiting the towing of log and lumber rafts in coast waters of the Pacific ocean, which passed the senate some weeks ago, has not been reported by the house committee, to which it was referred. Most of and shipping interests, have respectively put themselves on record as opposed to raft-towing because of the danger of the breaking up of the huge structures and consequently menace to navigation from derelict logs and timbers. Re-cently, however, E. H. Horrick, presi-dent of the Pacific Pine Lumber com-pany of San Francisco, has filed with the house committee his formal statement that no possible danger can enem perience shows, as he says, that none such have gone to pieces on the seas. Unless the matter is presented to the house in its true light the bill may not pass this session.

Admiral Bradford, chief of the bu Admiral Bradford, callef of the nu-reau of equipment of the navy depart-ment, has advised Representative Need-ham that the commanding officer of the United States steamship Ranger, about to visit San Diego, will be requested to look into the matter of the establishment of a naval coal depot there and report on the most desirable The bureau will not advise establishing at present a first-class coal depot the harbor, but will recommend to the department that a store of coal be kept there, provided the expenses is not too great, for such vessels of modurate size
