Universal Disapproval.

The unexpected removal of Prof. W. T. Van Scoy from the presidency of the Southern Oregon state normal college like a thunder clap upon all Southern Oregon. No man has ever showed greater ability or made greater sacrifice for an institution of learning than Prof. Van Scoy. He has raised the school to its present standing against many difficulties. His untiring energy and magnanimous spirit has won for him the respect of all the leading educators of the state who know him; and the petitions that have been, and are being circulated and so universally signed for his re-instatement show how much his services have been appreciated by the business men, and patrons of the school, of Ashland, Medford, Central Point, Grants Pass and all Southern Oregon. It is to be hoped that the board of regents will reconsider their former action and preserve the harmony of our school interests in this part of the state.
