SPRING PETTICOATS.

The Princess is Popular and is Made of Various Pretty Materials.

Prominent among the spring novelties in lingerie is the princess petticoat. It is a combination of skirt and corset cover and is fitted carefully to the figure with darts and seams. It does away entirely with the objectionable waist band and is a most desirable garment to wear beneath the gowns of to-day, which, though they ripple and flare at the hem, fit as closely as ever over the hips and for some distance below them.

The new princess petticoats are a decided temptation to even the economical woman accustomed to self-denial.

These princess petticoats are made of brocade, liberty satin and India silk, but perhaps the daintiest are of sheer linen lawn, lace insertions and wash ribbons. One extremely pretty model in filmy lawn shows the lace insertion arranged in a series of Van Dyke points, and the beading, through which pink wash ribbon is run, placed in perpendicular stripes. The skirt is cut to flare below the knees and is made with a double lace trimmed flounce and a graceful demitrain.

All the new petticoats are fitted to the form with special care. A number of the French models are shaped to the figure over the hips by having the material finely pleated. The flaring flounce, which starts at the knees, is invariably trimmed with lace frills and insertions. Sometimes it is cut circular and then again it is straight and gathered.

These skirts are always made with two flounces, and the under flounce is generally trimmed with a plaited or gathered lace-edged frill. Much lace insertion is used as a trimming, and the clever joining of laces is a feature of this season's skirts.

In heading the flounce which forms the lower part of the latest petticoats many novelties are introduced. Some show the flounce headed with merely a fine line of fancy silk hemstitching. Others are decorated with exquisite hand embroidery, and then again the heading of the flounce is defined by a dainty lattice work design of wash ribbon, baby width, run through lace beading. The majority of the elaborate petticoats this spring are made with short trains.—N. Y. Journal.

TO CORRECT BASHFULNESS.

You Should Think Not of Yourself, But of What You Are Doing.

The bashful young girl must stop thinking about herself, writes Margaret E. Sangster in Ladies' Home Journal. I heard the other day of a man, a college student, who went to visit his sister, a college student, also. He was the one man, as it happened, in the dining-room with 500 girls, and he had occasion to cross the room with their bright eyes beaming on him with curiosity and interest. Said my informant: "The boy was completely at his ease. You would have thought his sister the only girl present." Evidently the young man's mother had brought him up in a sensible way and he was free from that bane of comfort, self-consciousness. It is hard for a very diffident person to be free from awkwardness, and very acute distress and much humiliation may be the results of an extreme shyness. Try not to think how you look, what impression you are making, what sort of gown you have on. Do not let your mind dwell on yourself, but think of what you are to do, and of making others pleased and happy. Once you are free from self-consciousness, bashfulness will trouble you no more.

Mamma's Plan.

Little Ella was telling of their domestic economy. "Oh, yes, mamma is very kind to us. Every time we take cod-liver oil without crying she gives us a penny each." "And what do you do with the penny?" asked the aunt. "Mamma buys some more oil with it," said little Ella.—Collier's Weekly.

Common Sense
Talk with Women

If a person is ill and needs a medicine it is not wise to get one that has stood the test of time and has hundreds of thousands of cures to its credit?

A great many women who are ill try everything they hear of in the way of medicine, and this experimenting with unknown drugs is a constant menace to their already impaired health.

This seems to us very unwise, for there are remedies which are no experiments and have been known years and years to be doing only good.

Take for instance Lydia E. Pinkham's Vegetable Compound; for thirty years its record has been one unbroken chain of success. No medicine for female ills the world has ever known has such a record for cures.

It seems so strange that some people will take medicines about which they really know nothing, some of which might be, and are, really harmful; while on the other hand it is easily proved that over one million women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine.

All this should, and does, produce a spirit of confidence in the hearts of women which is difficult to dilodge, and when they are asked to take something else they say, "No, we want Lydia E. Pinkham's Vegetable Compound, which has been tried and never found wanting, whose reliability is established far beyond the experimental stage."

We have thousands of letters like the following addressed to Mrs. Pinkham, showing that

Monthly Suffering is Always Cured by Lydia E. Pinkham's Vegetable Compound, also Backache and Bearing-down pains.

"I suffered untold agony every month and could get no relief until I tried your medicine; your letter of advice and a few bottles of Lydia E. Pinkham's Vegetable Compound have made me the happiest woman alive. I shall bless you as long as I live."—Miss JOSE SAUL, Dover, Mich.

"Four years ago I had almost given up hope of ever being well again. I was afflicted with those dreadful headache spells which would sometimes last three or four days. Also had backache, bearing-down pains, leucorrhoea, dizziness, and terrible pains at monthly periods, confining me to my bed. After reading so many testimonials for your medicine, I concluded to try it. I began to pick up after taking the first bottle, and have continued to gain rapidly, and now feel like a different woman. I can recommend Lydia E. Pinkham's Vegetable Compound in the highest terms to all sick women."—Miss ROSA HILDEBRAND, 126 W. Cleveland Ave., Canton, O.

"Two years ago I was a great sufferer from womb trouble and profuse flowing, each month, and tumors would form in the womb. I had four tumors in two years. I went through treatment with doctors, but they did me no good, and I thought I would have to resort to morphine. The doctor said that all that could help me was to have an operation and have the womb removed, but I had heard of Mrs. Pinkham's medicine and decided to try it, and wrote for her advice, and after taking her Vegetable Compound the tumors were expelled and I began to get stronger right along, and am as well as ever before. Can truly say that I would never had gotten well had it not been for Lydia E. Pinkham's Compound."—MARY A. STARR, Watsontown, Pa.

Two Letters which Prove that Lydia E. Pinkham's Vegetable Compound Will Remove Tumor and Cure Other Female Weakness.

"Two years ago I was a great sufferer from womb trouble and profuse flowing, each month, and tumors would form in the womb. I had four tumors in two years. I went through treatment with doctors, but they did me no good, and I thought I would have to resort to morphine. The doctor said that all that could help me was to have an operation and have the womb removed, but I had heard of Mrs. Pinkham's medicine and decided to try it, and wrote for her advice, and after taking her Vegetable Compound the tumors were expelled and I began to get stronger right along, and am as well as ever before. Can truly say that I would never had gotten well had it not been for Lydia E. Pinkham's Compound."—MARY A. STARR, Watsontown, Pa.

"After following the directions given in your kind letter for the treatment of my womb, I can say that I have been entirely cured by the use of Lydia E. Pinkham's remedies, and will gladly recommend them to my friends."—A. B. DAVIDS, Binghamton, N. Y.

Another Case of Womb, Kidney and Bladder Trouble Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR FRIEND—Two years ago I had child-bed fever and womb trouble in its worst form. For eight months after birth of babe I was not able to sit up. Doctors treated me, but with no help. I had bearing-down pains, burning in stomach, kidney and bladder trouble and my back was stiff and sore, the right ovary was badly affected and everything I ate distressed me, and there was a bad discharge. "I was confined to my bed when I wrote to you for advice and followed your directions faithfully, taking Lydia E. Pinkham's Vegetable Compound, Liver Pills and using the Wash, and am now able to do the most of my housework. I believe I should have died if it had not been for your Compound. I hope this letter may be the result of benefiting some other suffering woman. I recommend your Compound to every one."—Mrs. MARY VAUGHN, Trimble, Pulaski Co., Ky.
