The Island of Guam has been detached from the Asiatic station making it an independent naval establishment.

Kansas has one potato patch forty miles long, with a prospective crop of 4000 carloads. The man with the hoe can stand it if the poets can.

Philadelphia contributed over \$100,000 in cash to the Texas flood sufferers, besides numerous train loads of provisions, clothing and drugs.

Latest reports from South Africa state that the number of Boer prisoners captured or surrendered to the British is daily increasing and must now aggregate nearly 16,000 men.

In 1890 Tacoma's population was 36,001, in 1900 it is 37,714, an increase of only 1708 in ten years. In 1880 its population was 1098, showing an increase of 34,908 from 1880 to 1890.

The report of the commissioner of the general land office, just made public, shows a large increase in the current work of the office for the past year, due, the commissioner says, to the general stimulus given to all the industries of the country for a year past.

Eddie McBride, ten years old, died last Saturday at Trenton, N. J., from burns received while playing "Indian" with companions. McBride was tied to a stake and his clothing saturated with gasoline and then ignited. The boy broke loose and ran screaming to his home, where he died.

A new shell game has recently developed, a dealer in Iowa sending out packages by express C. O. D. to parties who have never ordered them. It is a pretty safe proposition not to accept packages or pay money therefor unless you know what they contain or who and where they come from.

During the last few days, 8160 immigrants from the Canary islands and Barcelona have arrived in Havana, Cuba, and left for the country districts, where employment is readily obtained. This continued influx partially solves the labor question, many of the plantations having been idle owing to lack of labor to cultivate them.

Seven thousand five hundred pounds of dynamite in the powder magazine at the Puce mine, near Evelth, Minn., blew up Sunday afternoon. A hole 100 feet square and twenty-five feet deep marks the spot where the magazine stood. The force of the explosion was so great that it smashed every pane of glass within a radius of two miles. At least 200 people were hurt more or less from being thrown down by the shock or hit by shattered glass. The explosion was plainly felt at Blwabik, twelve miles distant.

A cyclone passed through the northern part of Biwabik, Minnesota, last Saturday. It tore the Duluth mine's powerhouse and shaft asunder and several ore cars standing near them were demolished, dropping the wreck over the entire country. Some of the heavy cars were picked up and dropped in the Duluth pit, near the powerhouse.

Not long ago an Arizona rancher posted the following notice on a cottonwood tree, not far from his place of abode: "My wife Sarah has left my ranch when I didn't do a Thing Too her, and I want it distinctly understood that any Man as takes her in and keers for her on my account will get himself Pumped so Full of Led that some tenderfoot will locate him for a mineral claim. A word to the wise is sufficient and orter work on fools."

The United States has more than 50,000 tons of coal distributed at various points throughout the world for the use of its warships, and this amount will be increased by additions to be made by schooners en route.

The largest coal pile is in Manila, where there are 24,000 tons. As large a quantity is now on the way to the far East. At Guam there are 2856 tons, and a station to accommodate 10,000 is to be established. Honolulu has a naval coal pile of 10,918 tons, and Rear-Admiral Bradford has prepared plans for locating 20,000 tons there. VICTORIA, B. C., Oct. 9.—News that the Dominion government has decided to offer for sale all government claims in the Klondike has been received with much joy in Dawson, as it means the development of some of the best property in the Yukon valley. The claims to be offered include all the alternate claims which were reserved by the government during the big rush and all the claims that have reverted to the crown from various causes. It is estimated that there are between 8000 and 10,000 such claims in the Klondike.

FOR S. P. COMPANY.**

NEW YORK, Oct. 8.—The Cooke Locomotive Works, in Paterson, N. J., has received an order for 58 engines to be built for the Southern Pacific Railway Company. As the locomotives are to be built in a hurry, night and day forces will be organized. The work is to begin at once, and the men have been promised steady employment for six months. Already 300 men who were formerly in the Rodgers Works have secured employment.

Each of the locomotives to be built will weigh 100 tons, and the cost is estimated at \$10,000 each.

WASHINGTON, Oct. 8.—The Imperial Chinese government, Kwang Hsu, emperor, has been re-established, and negotiation with the nations can now continue in a regular manner. The one thing the powers will now demand is speedy justice for the indignities heaped upon its representatives and for the lives lost.

**THE REPORT  
IS CONFIRMED.**

MANILA, Oct. 5, via Hong Kong:—The report of the capture of about sixty men of the Twenty-ninth U. S. Infantry, on Marinduque island, is confirmed through communications to MacArthur and Kemff, from Marinduque island, but details are lacking. The Yorktown's relief column landed at Torrijos, on the Marinduque coast, and marched to Santa Cruz, which was the proposed route of the captured party, without encountering the enemy or learning anything definite regarding the captives, except that they had entirely disappeared.

Marinduque is a small island within forty miles of Luzon. It is possible that the rebels have conveyed the captives to Luzon.
