IT IS UNFAIR

To send out of town for articles that can be procured at home.

THE MERCHANT

expects all the people of a town to trade with him. And that is quite proper and right, because it is a fair business proposition.

IT IS JUST AS FAIR

for mill men to expect merchants and all builders to buy their Doors, Sash, Mouldings, Flooring, Rustic, and all Mill Products at home.

GRAY & BRADBURY'S PLANING MILL

is a home institution. Why not patronize it?

A LITTLE OF EVERYTHING

All the land above sea level would not fill up more than one-third of the Atlantic ocean.

A race horse galloping at full speed clears from twenty feet to twenty-four feet at every bound.

London's debt, including the sums owing by the city corporation now reaches the great sum of \$250,835,000.

The place of the hen in political economy, may be judged from the statement that 450,000,000,000 eggs are in cold storage in the United States.

According to an eastern exchange, rural free delivery by electric cars is likely to be established in some sections of New England this year.

The national park of 1297 square miles, proposed at the head waters of the Mississippi will, if it is established, be the first in the central region of the country.

The Presbyterian General Assembly has expressed its approval of individual communion cups by using them recently at the Lord's Supper. About 2,000 were used.

An astronomer declares that Jupiter is in the same state that our earth was 34,000,000 years ago. Those who can remember back that far will understand what this means.

For more than thirty years Hiram Paxter has been postmaster at Lu Suens, Minn., and has given entire satisfaction to the community, although during nearly all the time he has been blind.

Chicago now contains a greater population than all the cities in the United States contained in 1840, and New York now has a greater population than all the cities together had in 1850.

The United States revenue cutter Grant has seized at New Whatcom a sloop which was sailed under the British flag, because it was violating the laws of this country by bringing contract Japanese laborers.

A little grizzly bear has been born in the New York Central Park menagerie, which is only six inches in length, four inches high and weighs but one and a half pounds. Yet the young bear appears to be in perfect health.

Foreign exports at New Orleans last year reached a total of \$142,000,000, the largest on record, and an increase over the previous year of \$45,000,000. The figures are just an inkling of what the traffic will be when the Mississippi is deepened.

A resolution was adopted recently by the Indian Federation of Labor asking that a law be passed prohibiting the employment by street railway companies of conductors or motormen who are addicted to the use of intoxicants.

It is reported that the Federal Steel Company, the American Steel and Wire Company and the American Steel Hoop Company are about to consolidate with \$200,000,000 capital. It is supposed that the object of this combination is to fight the Carnegie company.

In 1880 a trip to Europe occupied over a month, and was very dangerous; now it is a holiday excursion of five days and as safe as a trip by rail. A century ago messages of business took a year to reach the Orient and obtain a reply. Today only a few hours, or minutes, are consumed, thanks to the telegraph.

The negro growers of Southern California are becoming very anxious over the situation because there are not enough cars to carry away

the fruit as rapidly as it ripens. The capacity of the two railroads is estimated at about 150 carloads a day, but there are 500 carloads a day to be moved.

Telephonic communication has been established between St. Michael and Nome by means of a temporary submarine cable. The toll is \$2 for ten words.

An experiment farm is to be started two hundred miles from Manila by the United States Philippine Commission for the purpose of ascertaining what seeds and plants from this country can be cultivated on the far eastern island. The University of California will send from its experiment stations the required seeds and plants.

Twenty years ago the city of Toronto, Canada, began the erection of a city hall which was to cost \$300,000 by the original estimate. The outlay on it today has been \$2,345,000, and is not yet finished. Meanwhile, the architect's fees, it is said, exceeded \$60,000, and effort in the city council to dismiss him has failed.

Paris is said to be the cleanest city in the world. Every morning 2,000 male and 600 female scavengers, divided into 149 brigades, turn out to perform the toilet of the capital. The men work from 4 in the morning till 4 in the afternoon, less 2 hours off for meals, or ten hours a day. The women are engaged in the morning only.

A peculiar musical instrument is used by the Moros. It consists of a hoop of bamboo, upon which are hung by strings, a number of thin pieces of mother of pearl. When struck with a small reed these give forth a tinkling sound, a combination of which sound is developed into a weird, monotonous fantasy, very pleasing to the ear—for a short time.

A man in Philadelphia takes five daily papers, just to read the patent medicine advertisements. He imagines, when reading the symptoms of any disease, that that malady is growing unseen within his body, and he skips off to the drug store and buys a remedy. During the past two years he has taken 772 bottles of various proprietary preparations.

Congressman Connell, of the Eleventh Pennsylvania district, is the richest man in the lower house of the national legislature. He draws an income of \$500 a day from one investment alone. Mr. Connell was born in Nova Scotia, and is one of the largest coal operators in the United States. Fifty years ago he was working as driving boy in a coal mine at 75 cents a day.

The metric system was legalized in the United States in 1866, but its use is not obligatory. A bill is now before congress, prescribing that from January 1, 1900, the metric system of weights and measures shall be the standard in the United States. Public inertia defers the adoption of the system, though its general use is inevitable, it being the most accurate, the simplest and the best.

Some idea of the diversity of conditions in the state of Texas may be gained from the fact that there was held within its borders a few years ago at nearly the same date, a drainage conference and an irrigation convention. One was at Galveston and the other at San Antonio. Some persons were thus studying means of lessening the amount of water over a large area, while others sought to increase it, or rather to make its supply for agricultural purposes more regular.

A year ago the Great Northern railroad made arrangements with labor contractors for 2,000 Japanese workmen. They were assigned to work on the road from Seattle to the North Dakota line until a few weeks ago, when the first of them were sent further east. They took

Business Methods

of today require a complete and neatly printed line of stationery. Your business should be represented in an attractive manner upon every piece of stationery you send out. It costs but little more to have the long run and carries with it an air of prosperity. The MAIL job department is replete with facilities for printing letter heads, envelopes, cards, etc.

That Win.

The places of white men in all branches and there were many who predicted the necessity of excluding the Japanese, just as the Chinese were before them. The fear, however, was ill-founded. The railroad has come to the conclusion that Japanese at \$1 a day are more expensive than white men at \$1.25. Orders have been given to discharge the Japanese as fast as their places can be filled.

The trial of Walter McAlister, A. J. Campbell and W. A. Deatha, for the murder of Jennie Bosschier, the pretty factory girl, at Patterson, N. J., resulted in a verdict of murder. The trial has attracted a great deal of attention throughout the United States.

The oldest Christian hymn was composed not only by a pagan, the Roman Emperor Adrian, but by a persecutor of Christians as well. The hymn begins with the line "Vital spark of heavenly love" and was written between the years 76 and 138 A. D., the dates of the emperor's birth and death. The hymn was paraphrased by Alexander Pope in the early part of the eighteenth century.

The greatest oil well ever sunk is now flowing near Beaumont, Texas, at the rate of over 16,000 barrels a day. Hon. Robert Greer, member of the Texas legislature, is one of the owners of the tract of land upon which the great oil well is located. C. W. Lucas, who put down the phenomenal well, will make an effort to control the flow, as soon as the proper equipment arrives. Thousands of barrels of oil have gone to waste, the dirt reservoir having been overflowed.

Holland, the submarine boatman, proposes to cross the Atlantic in a new craft which will live under water or travel like an ordinary respectable steamer, just as the owner desires. He has planned the itinerary and declares there is no one to be feared in making this experiment than when he first took a dive in the original Holland boat. His new invention will go first to Bermuda, thence to the Azores, Lisbon and Cadiz, Spain. Much of the trip will be made under water he says.

In 1800 our country was a plucky fledgling, healthy, vigorous, ardent in hope, high on resolve. Our total population was less than 5,500,000. Germany and Britain each had four times our number, Spain twice as many, and even little Portugal had as big a family of sons and daughters as Uncle Sam. West of the Mississippi all was wilderness. We had thirteen little states and few cities of prominence, except Philadelphia, New York, Baltimore, Boston and Charleston. The entire revenue of the United States government under our first administration was only \$4,500,000, while it now costs annually \$98,100,413.33 to defray the expenses of Greater New York. Washington was then a new settlement, with only a few thousand population, and had been only lately made the capital.
