Getting Thin

is all right, if you are too fat; and all wrong, if too thin already. Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver Oil. There are many causes of getting too thin; they all come under these two heads: over-work and under-digestion. Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it—true—but, by it, you can. There's a limit, however; you'll pay for it. Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work—you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample. Its agreeable taste will surprise you.

White Man Turned Yellow.
Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 25c. Sold by Chas. Strang, druggist.

General MacArthur has directed all department commanders to release one prisoner for every rifle surrendered. An insurgent who surrenders his gun will be permitted to name the prisoner to be released, provided no exceptional circumstances require this man's detention, in which case another selection will be allowed.

Lieutenant West, with the gunboat Laguna de Bay, surprised an insurgent camp on the island of Talim, capturing 31 insurgents. Many small detachments in various localities are surrendering daily.
Judge Taft, president of the Philippine commission, telegraphed Secretary of War Root at Washington that a great quantity of firearms were captured and many insurgents surrendered, captures and surrenders both being due to the co-operation of natives. He says the commission has organized five provincial governments and the situation is now very satisfactory.
Mrs. Turbitt, a resident of Petaluma, Cal., died on the operating table of the California Woman's hospital, presumably from the effects of chloroform.
Samuel D. Holman, deputy sheriff of Calaveras county, Cal., was shot and killed while endeavoring to arrest two highwaymen.

A PHYSICIAN COMING.
Eminent Physician to Visit Ashland April 1st to 25. His Success in Treatment of Diseases is Simply Marvellous.

We are pleased to announce that there will soon be a physician in Ashland, not simply a practitioner, but a physician of very high order of merit, a scientist—whose years of close study, close observation, close practical experience, has enabled him to draw not only testimonials, but the highest personal endorsements from the leading men of the country—Congressmen, Judges etc.—and whose success in the medical field is today without a parallel. We allude to Dr. Darrin, who will arrive in Ashland and have offices in the Hotel Oregon.

Dr. Darrin has an enviable rank in the profession as a wonderfully successful physician. He is essentially original in his method of practice, but those who have been under his treatment are surprised at the newness and novelty of his system of practice by electricity. His honesty and straightforward advice has won for him the confidence of patients as well as the general public. The doctor is a gentleman of genial social nature, and his private practice is marked by the formation of a close personal friendship with whom he comes in contact. He is without doubt one of the most thoroughly qualified physicians now before the public, as his wonderful cures of chronic diseases can testify. The doctor not only treats chronic and acute diseases, but is prepared to test the eyes and fit glasses to any defect in eyesight.

Don't Kick.
Don't kick at the feather man's prices. Come down to the shop and heave coal; turn a two-horse power crank for six or eight hours; get feathers in your hair and nostrils; get your teeth full of feathers; take a few thousand cubic feet of steam down into your vitale; pound dusty ticks till your arm drops off; eat a pound or two of dust and feathers and when your temperature runs up to 400, stand on your head occasionally to let the sweat out of your boots. Then tell me how nice, how easy and pleasant it is to renovate feathers.
