NEWS OF THE WORLD.

HAPPENINGS OF THE PAST FEW DAYS FROM ALL QUARTERS.

Will of the Late President McKinley. Large Contribution to the "Conscience Fund"—Government Receivers Large Amount of Embossed Money.

In the naval court of inquiry Mr. Rayner succeeded, as chief counsel for Admiral Schley, Judge Wilson, who died suddenly last week.

At the Crystal Palace, London, Arthur A. Chase set the world's cycling record, covering 50 miles in 77 minutes 44 seconds. At the end of the sixth mile he was 16 2-5 seconds inside the record, and from that point he put all records in the shade.

The marriage of Major-General H. O. Corbin, adjutant-general of the army, and Miss Elythe Patten will take place in Washington city at the residence of the bride on the 6th of November.

The sum of \$300,000 in cash, and real estate valued at many thousands of dollars, held by relatives of former Captain Oberlin M. Carter, have been seized by the government. Securities, worth several hundred thousands of dollars, discovered hidden in Chicago, have also been confiscated. Captain Carter, while an engineer officer in charge of the river and harbor improvements at Savannah, Ga., embezzled \$1,200,000. The department of justice is not certain that it will recover the entire amount embezzled, but it has clues which may establish where the money was placed before detection came.

The will of the late President McKinley was filed for probate at Canton, O. Secretary George B. Cortelyou and William R. Day were appointed as administrators. The entire property of the late president is bequeathed to his widow, with the exception of an annuity of \$1,000 to Mr. McKinley's mother. It is said that the McKinley estate will total \$235,000 to \$250,000.

G. W. Cass, premier of the province of Ontario, has been absent two months in England, and has concluded arrangements for a scheme of assisted immigration. The plan will, it is understood, come into effect next spring, and it will first be tried with farm laborers, who are scarce in the province. They will contract to remain in the province and pay back their passage money within a specified time. The province will pay the shipping company.

Spain, according to the New York World, is at present placing extensive contracts for railroad material and machinery in the United States. About 1,000 cars have been ordered from an American car and foundry company, which are to be used by the Compania del Norte, the principal Spanish trunk line, and the Bilbao-Santander railroad. The government gun factory is to be equipped largely with Yankee machines, tools, etc. Large electrical orders are also being placed in this country.

The Duke and Duchess of Cornwall were entertained at Calgary by Indians, cowboys and mounted police, who pictured northwestern frontier life before them with all possible dash and color. They count this one of the most interesting sights of their Canadian tour.

MOTHERHOOD

The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shattered nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.

WINE OF CARDUI

143 Market Street, Memphis, Tenn., April 14, 1901. In February, 1901, I took one bottle of Wine of Cardui and one package of Chamberlain's Stomach and Liver Tablets. I had never given birth to a child until I took Wine of Cardui. Now I am mother of a fine baby girl which was born March 31, 1901. The baby weighs fourteen pounds and I feel as well as any person could feel. Now my home is happy and I never will be without Wine of Cardui in my house again. Mrs. J. W. C. SMITH.

A Canton dispatch says that Guard Deprend, stationed in the rear of the vault in which the body of the late President McKinley lies, was attacked by a man and cut slightly. Guard Deprend saw a man behind a tree about 7:45 p. m. He requested the man to halt, but the fellow dodged from his first position to a second tree about ten feet nearer the guard. Sentinel Deprend then raised his gun and fired. Just as he did this a second man, masked, who had stealthily approached, knocked the gun from its aim. At the same time the soldier was struck a heavy blow on the back, and was assaulted with some sharp instrument. He was knocked into a small ravine at the vault. Guard Deprend says the man behind the tree carried a pack of white and some instrument in his hand which showed a glint. The men escaped despite the prompt rush of the officer of the day, and other soldiers to his assistance. Military men say they believe it was an attempt to blow up the vault.

Do you suffer from piles? If so do not turn to surgery for relief. DeWitt's Witch Hazel Salve will act more quickly, surely and safely, saving you the expense and danger of an operation. Chas. Strang.

The athletes of Yale and Harvard met representatives of Oxford and Cambridge universities at Berkeley Oval, New York, in track and field events. The Harvard and Yale men defeated their English opponents by a score of 6 points to 3.

The annual inspection tour of the board of managers of the national soldiers' homes was completed at Milwaukee. General McMahon said: "The board has decided to maintain canteens at all the homes for the good and sufficient reason that experience has taught us that it is better for the veteran and for the people in the community in which the homes are located. The canteens are properly conducted at these soldiers' homes, and the result is that the veterans do not squander their money in cheap saloons, nor do they drink too much."

DeWitt's Little Early Risers never disappoint. They are safe, prompt, gentle, effective in removing all impurities from the liver and bowels. Small and easy to take. Never gripe or distress. Chas. Strang.

The first telegraphic message, which was one of congratulation, over the new line to the Klondike, was sent by Governor Ross of the Klondike, while at Vancouver, B. C., to his legal representative at Dawson. The line, which is 2,300 miles long, touches at Atlin, White Horse, Dawson and Fort Simpson, and connects at the Alaskan boundary with the projected American government line from St. Michael.

Two men journeying down the Columbia river in a skiff recently went over the Rocky rapids near Meyers Falls, about five miles south of Kettle Falls. About half a mile below the rapids was found the boat, in which were the men's hats and coats. In the pockets of one of the coats were found letters indicating that one man's name was Selby A. Louenburgh of Spokane.

Lewis Ockerman, Goshen, Ind.: "DeWitt's Little Early Risers never bend me double like other pills, but do their work thoroughly and make me feel like a boy." Certain, thorough, gentle. Chas. Strang.

"I cannot live without you," declared Anson Goodman as he placed a revolver in his temple and pulled the trigger. He fell dead at the feet of his sweetheart, Ella Shaw, who had just told him that she no longer loved him and could not become his wife. The Shaw and Goodman families live in Umatilla county, Oregon, 13 miles southwest of Walla Walla. A few weeks ago Goodman said or did something that displeased Miss Shaw, and after that she treated him rather coolly. The break finally came when he was informed that she no longer loved him.

At Eureka, Cal., the jury in the case of Albert Blanchain, a "squaw man," who is charged with the killing of Laguna Charlie, a chief of the Trinidad Indians, on Jan. 19, was discharged. The jury remained out all night without reaching an agreement. This is Blanchain's second trial.

When you wake up with a bad taste in your mouth, go at once to Chas. Strang's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

Oriando Stevens of San Jose and Colonel Cotton of Oakland, Cal., have gone to New York to hasten the manufacture of automobiles which have been ordered by a company which they represent. Their order includes ten passenger busses, one large touring machine, six dos-a-dos and six parcel delivery wagons. Passenger routes will be established between San Jose, Campbell and Los Gatos, San Jose and Saratoga, and San Jose and Alviso immediately upon the arrival of the machines.

Get a free sample of Chamberlain's Stomach and Liver Tablets at Chas. Strang's drug store. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25 cents per box.

Secretary Gage of the treasury department received by mail, as a contribution to the "conscience fund," the sum of \$8,150 in bills. This is probably the largest amount of cash ever sent through the mails without registration. The communication enclosed, apparently in the handwriting of a feeble old man, explained that "duties were not fully paid as desired." No name was signed.

Stepped Into Live Coals. "When a child I burned my foot frightfully," writes W. H. Eids of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by Charles Strang, 25c.

ELOPING PRINCESSES.

Some Have Run Away with Men Far Beneath Them.

Notable Instances of the Susceptibility of Royalty to the Darts of Cupid—Tragedies That Have Resulted.

Even royalties are not immune from the darts of Cupid, and, although under the laws of all European nations princesses are forbidden to wed husbands of inferior rank to their own, many have surrendered to a handsome face or a dashing manner even though their possessors were men of plebeian birth, says a London exchange.

Princess Isabella, granddaughter of the present king of Spain, eloped with the Polish Count Gurowaki. One dark night the count repaired with a carriage to Enghien, near Paris, where his innamorata lived. Leaving her house by means of a rope ladder, she soon joined him, and the couple escaped safely to this country, where they were married. Alas, the glamour soon faded, for after awhile the pair quarreled and a separation ultimately ensued.

Even more romantic was the elopement of her sister, Princess Josephine. A certain Senor Renede, a poet of promise and a journalist attached to a Havana paper, asked a rich planter for his daughter's hand, with the result that he was ignominiously shown the door. Furious at this treatment, the young poet swore that he would show the world his worth by marrying a princess.

Quitting Cuba, he journeyed to Madrid, where, after years of want and suffering, he gained a reputation as a poet. At last his genius attracted the notice of Princess Josephine, to whom he had dedicated several of his effusions. The royal lady made his acquaintance and became enamored with the poet. Her love was returned, the pair eloped to Paris. On hearing the news the princess' family were aghast and strove by every means to have the marriage annulled. Their efforts were, however, futile, and, common sense at length prevailing, the poet and his royal bride were forgiven and taken into favor.

Some six years since Princess Elizabeth, a granddaughter of the emperor of Austria, fixed her affections upon Baron Otto von Seefried, a young infantry lieutenant. Her relatives' efforts to prevent the marriage were of no avail, for one morning the lovers escaped to Genoa, where they were married. Another Austrian royalty, Princess Elvira, likewise contracted a runaway marriage by eloping with a Bavarian count, while the mother of the present queen of Italy eloped with an artillery officer, who, on the union turning out unhappy, committed suicide.

Some two years since a desperate duel was fought between Lieut. Geza De Matabich and Prince Philip of Saxe-Coburg, in which the latter was wounded. This encounter was the outcome of the action taken by the prince's wife, Princess Louise, eldest daughter of the king of the Belgians, who, driven to desperation by her husband's cruelty, had, after vainly appealing to her father for protection, thrown herself upon the honor of the Hungarian officer of hussars, with whom she fled to Spain.

An elopement that failed was that planned by Grand Duchess Olga, daughter of Nicholas I. of Russia, and Lieut. Barantinski. At the last moment the lover's courage failed and he made a full confession. The princess was promptly married to Prince Charles of Wurtemberg, while the treacherous officer received such rapid promotion as to attain the highest rank in the army before he was 50.

Count Louis Barthyany, who was shot in the market place of Budapest by the imperial troops for his complicity in the rising of 1848, might have escaped his tragic fate had he consented to desert his wife and family and elope with Archduchess Maria, who was madly in love with him.

"Hamlet" by Deaf Mutes. Very useful work is done by the adult deaf and dumb institute in Manchester in keeping up a link of association and interest among deaf-mutes scattered over a large area. Some travel great distances to take part in a reunion in Manchester, that has now become an annual event. This year it took place at the Hulme town hall, where a tea party in the evening was followed by a performance of "Hamlet," by deaf-mutes. Probably the feeling for dramatic representation is as strong in them as in others, but to those who can hear and speak it is difficult to imagine that it can be fully satisfied by signs and gestures, more especially when they are trammelled with the rapid and complicated movements of the finger language. The performance was, however, a great success. Last year the same "actors" gave "Romeo and Juliet," so that the success was not altogether due to novelty. The dressing of the play was effective, the scenery was good, and there was spirit in the acting, and the audience, judged by their attention, felt a real concern in the development and the incidents of the play.—London Lancet.

Measuring the Earth. After nearly 30 years of constant effort and the expenditure of nearly \$500,000, scientists have succeeded in accurately measuring the earth. They have learned that its diameter through the equator is 7,926 miles; its height from pole to pole, 7,899 miles. The earth, therefore, is flattened at the poles; and, while this fact has long been asserted, the actual measurement has removed the question from the domain of doubt.—Science.

INTERESTED.

Has Great Faith in Future of the Electric Railroad.

Believes That Electricity Must in the Years to Come Be the Motive Power of Passenger Trains.

Emperor William is interesting himself actively in the development of electric traction on ordinary railways. He has been watching during the past few months the excellent results achieved by heavy electric trains between Berlin and Zehlendorf, and as a result of his observations he has been discussing with Privy Councillor Rathenau, who is director of the Allgemeine Electricitats Gesellschaft, the possibility of revolutionizing the present system of traction. His majesty is convinced that electricity must in the future be the motive power of passenger trains, especially express trains, between Berlin and the other German and European capitals. He thinks, however, that steam might for the present be retained for freight and local trains.

Herr Rathenau has issued a report by request of the emperor, in which he states that some of the leading industrial and financial firms, including Siemens & Halske and Krupp, of Essen, have founded a studien gesellschaft under the chairmanship of Dr. Schulz, president of the imperial railway bureau, to investigate the problem. This syndicate has appointed a technical committee, of which Herren Slaby and Rathenau are presidents, and a subcommittee to deal with the details of traffic, architecture and mechanics. These will examine data and confer.

It is expected that the result of their labors will be the establishment during 1901 of a so-called lighting service on the military line from Berlin to Zossen, which Gen. von Gossler, minister of war, has placed at the syndicate's disposal for purposes of experiment. It is hoped to prove the feasibility of making 200 or 250 kilometers an hour. Each train will consist of a single car accommodating about 50 persons. The Allgemeine electricitats gesellschaft and Siemens & Halske are each building an experimental car, which generally resembles the ordinary European sleeping car. If the experiments succeed on the Berlin-Zossen line, which is only about 30 kilometers long, it is intended to start a quarter or half hour service between Berlin and Hamburg. The distance will be covered in rather less than an hour. The emperor has ordered the state department to assist this studien gesellschaft as much as it possibly can.

Tot Causes Night Alarm. "One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. 50c and \$1.00. Trial bottles free at Charles Strang's Drug Store.

In cold countries, where snow prevails during a long winter, many of the animals change the hue of their coats to white tint. The Arctic bear and fox are white throughout the year. The northern hare is brown in summer and white in winter. The weasel is especially curious. It retains the brown coat until the first snow appears, and then whitens in a few hours.

Postmaster Palmer

of So. Glen Falls, N. Y., describes a condition which thousands of men and women find identical with theirs. Read what he says, and note the similarity of your own case. Write to him, enclosing stamped envelope for reply, and get a personal corroboration of what is here given. He says regarding

Dr. Miles' Heart Cure:

"I suffered agonizing pain in the left breast and between my shoulders from heart trouble. My heart would palpitate, flutter, then skip beats, until I could no longer lie in bed. Night after night I walked the floor, for to lie down would have meant sudden death. My condition seemed almost hopeless when I began taking Dr. Miles' Heart Cure, but it helped me from the first. Later I took Dr. Miles' Nerving with the Heart Cure and the effect was astonishing. I earnestly implore similar sufferers to give these remedies a trial."

MILWAUKEE PEOPLE

Could Hardly Believe It. A Prominent Woman Saved From Death by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suppose a large number of people who read of my remarkable cure will hardly believe it; had I not experienced it myself, I know that I should not.

MRS. SADIE E. KOCH.

"I suffered for months with troubles peculiar to women which gradually broke down my health and my very life. I was nearly insane with pain at times, and no human skill I consulted in Milwaukee could bring me relief.

"My attention was called to Lydia E. Pinkham's Vegetable Compound; the first bottle brought relief, and the second bottle an absolute cure. I could not believe it myself, but felt sure it was only temporary, and blessed fact, I have now been well for a year, enjoy the best of health, and cannot in words express my gratitude. Sincerely yours, SADIE E. KOCH, 124 10th St., Milwaukee, Wis.—\$5000 forfeit if above testimonial is not genuine.

Such unquestionable testimony proves the power of Lydia E. Pinkham's Vegetable Compound over diseases of women.

Women should remember that they are privileged to consult Mrs. Pinkham, at Lynn, Mass., about their illness, entirely free.
