Women and Jewels.

Jewels, candy, flowers, man-that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insiduous consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it tubes and drive the dread disease from the system. It is not a cure all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Kulp won, and the result was made known to Miss Kinsey. "I doubt whether that is a fair test,"

she said; "I will go and ask mamma. Mrs. Kinsey is a widow, her husband having been prominent in the commer-cial circles of Philadelphia, and at one time resided at Little Rock. She replied that Celeste could do as she chose, and that so far as she was con-cerned either suitor would be agreeable. The daughter confessed that she loved both, and decided to wait to determine which she loved better. The Kinseys, accompanied by the rival suitors, afterword left Hot Springs for Philadelphia, Miss Kinsoy saying that she would make up her mind before she reached Little Rock, and the wedding could take place in her father's native city.

A New Gold Extractor.

William L. Long, a stranger who has spen! the past six weeks here, says a Salem dispatch, is confident he has discovered a new process for extracting gold from ores which is cheaper than the present methods and saves three times the amount of gold that can be secured by putting the ore through a smelter. His and forestry warden. process is similar to that of Prof-ssor Winn, who recently died in Denver. Long has interested reveral prominent business men of Salem in his discovery. He has secretly experimented with ore from various sections with great success. His last experiment was with tailings from the Ashland smelter. The Paisley public school has been closed on account of the smallpox at that place and vicinity.

Thos. Conkling, of Rogue river, paid a fine of \$25 into Justice Hatton's court Tuesday for killing a deer, complaint being made by E I. Applegate, special deputy game

Capt O. C. Applegate has re ceived a letter from Paisley, in Lake County, stating that there were between twelve and fifteen families suffering from smallpox at Summer Lake, three families at Paisley and one family at Silver Lake. The correspondent seems to think there would still be more cases. Fumigating stations have been established and efforts made the infected localities.

Seven bright Indian girls and boys, varying in ages from 17 to 20 years, left here yesterday under the care of Rev. Jesse Kirk, for Phoenix, Arizona, where they will attend the Indian Industrial school. The seven are: Maggie A. John Emma Jackson, Clayton Kirk, Josh Williams, Harvey Drew, Fred A Hendricks and Joseph S. Ball.

Rev. Jesse Kirk, who is accom-panying the Indian boys to Phoenix, Arizona, expects to proceed from there to Washington City to work in the interest of a measure before congress to pay the Klamath Indians for lands erroneously excluded from their reservation. Rev. Kirk is an educated Indian who has studied and worked on the matter now in hand for ten years, and is well qualified to represent his people in Washington. The excluded land comprises 621,824 acres and according to the appraisal and treaty the Indians are to receive about 86 cents per acre. Settlement has been pending thirty years and it is now believed everything has been prepared so there can be no longer delay. A year ago action of ratifying the treaty and providing payment was deferred by congress on account of an error, which has since been corrected. A bill to satisfy all differences is now before congress and it is hoped nothing will prevent its passage at the present session.

Something That Will Do You Good, We know of no way in which we can we know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best rem-edies on the market for coughs, colds, edies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Adam Worth, alias "Harry Raymond," well known in America in connection with the Manhattan bank and other big robberies, died recently in London. It was Worth who, 26 years ago, cut the celebrated Duchess of Gainsborough picture from its frame in carried it away. The painting, which ing the whole premises for money, had been concealed in America for 15 which they did not find. The following years, was handed over by Worth to C. Moreland Agnew in the office of Detective William A. Pinkerton at Chicago last April. Worth told Pinkerton that he wanted to "turn up" the famous picture in order that his two children, who had been educated in a convent, might enjoy the proceeds.

CRIMES AND ACCIDENTS.

A great fire swept through Paterson, N. J., and destroyed property amounting to \$10,000,000. The finest structures devoted to commercial, civic, educa-tional and religious uses, as well as scores of houses, are in ruins. Hundreds are left homeless and thousands with out employment.

Burglars entered the store of W. Erlichman, Eighth street and Pacific av-snue, Tacoma, and stole \$1,500 worth of goods. The store is within a block of the central police station.

J. O. McIntosh, a gambler, attacked with his fists J. T. Riley, a traveling photographer of San Francisco, in a saloon at Clifton, A. T., and the beating Riley received resulted in his death. The trouble was caused by Riley's ques-tioning the propriety of McIntosh's wife dealing at a gambling game. McIntosh was held without bail.

A dozen men of the St. Louis fire department were killed and many more injured in a fire which broke out in the seven-story stone and brick building at 814 Chestnut street, occupied by the American Tent and Awning company. The building suddenly collapsed and the men were caught in the crash.

Eleven lives were lost, many persons slightly injured and two buildings at 372-374 Twenty-second street, Chicago, were wrecked by an explosion of gas. The gas mains were instantly of gas. The gas mains were instantly ablaze after the explosion, and a success sion of explosions followed, the flames shooting up through the manholes in the street. One building collapsed, and the occupants, with one exception, were carried with it to the basement.

Two masked men, about 9 o'clock in the evening, surprised an employee in charge of the horses at Tubbs Islaud farm, ten miles from Sonoma, Cal., and, presenting a pistol, demanded his cash. They succeeded in getting \$40, and with this retreated in the darkness. The men evidently expected to find considerable money in the bunkhouse so near pay time. The unexpected coming home of the forman, the sound of whose team startled the robbers, probably saved others from being held up.
