## Barnum's Monkeys

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

SCOLARS BREAK JAIL.  
The escape of Thos. Featherstone and M. M. Reed from the county jail at Jacksonville on Sunday night, where they were confined awaiting trial for burglarizing the store of J. Nunan, was evidently the result of a carefully pre-arranged plan on the part of the prisoners and friends on the outside. At the supper hour on Sunday evening the two men were in their cells, and were looked in by the deputy sheriff. All three of the male prisoners were seen in the cells by the deputy. There are four cells in the steel cage in which the prisoners were confined and are locked simultaneously by means of a bar operated from the outside of the cage. This bar is enclosed in a

steel box, fitted with a lock claimed to be proof against ordinary lock picks. In the main part of the jail, outside the cage, was Mrs. Taylor, awaiting trial for adultery. She was the only person who could have had access to the lock. On Monday morning the cage was found unlocked, no bars or anything broken, showing conclusively that the prisoners had been released from the outside. A hole in the corrugated iron roof of the jail showed the manner of their escape from the building. A ladder, left standing against the wall of the jail by workmen engaged in repairing the roof, enabled them to descend to the ground and afterward scale the high fence around the jail. The hole in the roof also shows evidence of outside help. The edges of the iron are bent downward, proving that the cutting was done from the top. The two prisoners who remained in the jail refuse to say anything further than that someone unlocked the cage. Sheriff Orme is of the opinion that the woman released the men, and that they made their way through the ceiling and thence through the roof to liberty. Mr. Orme offers \$200 reward for their apprehension.

Mr. Brown of Brown Bros., who located in our midst last fall, has gone to Los Angeles, Calif., on a business trip.

Rumor has it that J. G. Martin of Table Rock a life long Republican, will ask for the nomination for the office of county commissioner at the coming Republican convention.

Grandpa and Grandma Myres, pioneers of this section, aged 87 years respectively, have moved to the home of their daughter, Mrs. O. Vincent. These grand old people are getting quite feeble and almost totally blind.

School directors of the country district who are in need of teachers for the next term of school, can send three or four yet at the Academy who have not engaged schools.

Prof. Samuels' after-school vocal music class numbers eighteen. The students are showing excellent talent in music. In the opening exercises each morning almost every student sings.

Miss Hilda McCurdy, one of the Douglas County students, who took the teachers' examination at Grants Pass, passed a way above the per cent required for the second grade county certificate, a fraction less than 80 per cent. If those who were examined at Jacksonville do as well, it will be remarkable.

Editor Bliton, Dr. Adkins, F. M. Stewart and the principal of the Academy were looking over various suburban tracts of land last Saturday, in an effort to find a suitable campus of five acres or more for the new college building to be built within eighteen months. The site is not fixed yet. If there are old ones who own sufficient acreage in the suburbs for a campus, and who would like to make a liberal donation toward the founding of a permanent college in Medford, the way is now open.

## THE DUPLEX WIRE FENCE BUILDER,

L. D. MINEAR,  
Agent for  
Jackson County

Residence on Griffin Creek, adjoining the Naylor farm

The Duplex makes a fence in which there are no kinks in the wire. It is so constructed, as will be seen by the cut, that no stock can possibly get through. There are many other advantageous points, which are explained at length in catalogues, which I will furnish free.

My agency permits me to sell the machines for making the Duplex fence, and the purchaser of a machine is licensed to build all the fence he may wish to, either for himself or his neighbors. Call upon or write me for prices and catalogue. Postoffice address, Jacksonville, Oregon
