Eagle Point Eagiets.

BY A. C. HOWLETT.

Holmes Bros. sent a fine lot of hogs to Medford Monday.

Miss Mattie Taylor spent a few days last week with Mrs. C. E. Hoyt.

Frank Nichols and family were the guests of Mr. and Mrs. Scott Pool last Sunday.

E. Pool moved his family to their new home in Mt. Pitt district the first of the week.

Miss Lol. Nichols was visiting the family of Mrs. R. O. Brown, the first of last week.

Misses Nora and Opal Daley entertained about a half a dozen of their schoolmates last Sunday afternoon.

There does not seem to be much sickness in our neighborhood, but our pharmacist, John Williscroft, seems to be doing a good business.

A man by the name of Robinson, of Medford, is contemplating moving to Eagle Point if he can secure a tract of land, and raise garden truck for the market.

Jas. Geary and John Watkins, of Elk creek, came down last Sunday and brought Mr. Elliott, who has been teaching school in that district, to Dr. Officer for medical treatment, he being afflicted with the asthma. In a few minutes Dr. Officer gave him relief and he ate a hearty meal, after a fast of forty-eight hours.

A young man by the name of Edwards, of Indiana, is here visiting his cousin, Mrs. G. W. Daley, Jr. He is very favorably impressed with our country and somewhat amazed at seeing we old men riding around the country without coats or gloves on, when in his state they are having snow and floods and the thermometer is twenty degrees below zero.

Strangers who have been attracted to our vicinity by the big onions raised here, are inquiring daily for land and fancy prices are being offered for the use of the land. As much as $40 per acre a year for five year has been offered. A. L. Hazelton was recently heard to remark that he would not take $200 an acre per year for his onion bed of two and one-half acres.

Mrs. C. E. Hoyt gave a rag tacking party at the Sunnyside last Friday night to about sixty of her friends. They sewed twenty-six pounds of rags, played games, had music and during the evening light refreshments were served. Mrs. A. L. Hazelton received the ladies' first prize, a handsome bobinet throw, and Frank Foster the gentlemen's first prize, a neat handerchief box, and Charley Thomas received the booby prize. To say that we had a good time does not fully cover the ground.

The M. E. Church, South, pastor, Rev. Darby, of Medford, informs his church at this place that it will be impossible for him to fill his appointments here in the future.

The members of New Hop Baptist Church failed to raise sufficient funds to engage a pastor for the coming year, consequently we will have no preaching at New Hope.

E. C. Pomeroy, a leading citizen of the Meadows country, called one day last week while en route to Central Point, where his family are now wintering and his children are enjoying the excellent school privileges at that place.

A heavy downpour of rain began here last Saturday and continued for several days unabated. Snider and Donegan creeks that drain the two small valleys are raging torrents; rails, drift wood, water gates, and in fact everything movable is swept away.

We are sorry to report the sad accident that befell our young neighbor boy, John Godfrey, last Thursday. He and his brother were returning from Medford with a load of grain when one of the wheels of their wagon struck a stump, throwing the young man out and the front wheel passed over his leg, fracturing it very badly. He was taken to Central Point, where Dr. Hinkle reduced the fracture and he is now resting as easy as can be expected

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by Chas. Strang, druggist.

Brain-Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Chas. Strang's. Singular Case of Blood-Poisoning.

The death of Charles Otto at Tacoma is said by doctors to have been caused primarily by a scratch on his scalp, received some weeks ago in a barber shop. At that time a wire bristle of a hair-brush pierced his skin and blood-poisoning resulted. A large gathering formed and was removed subsequently by an operation. From that time Otto's health declined. He lost his appetite and became melancholy. Finally his mental and physical condition brought on heart disease. He quit work and resolved to rest until he felt better. One morning recently he was attacked by heart trouble and died in great agony on the floor of his room.

Mudhens Frozen to Death.

Thousands of mudhens were frozen to death during the recent cold spell in Okanogan county, Wash. Four miles above Loomis is a large mountain lake, which is the haunt of mudhens and other water fowl during the greater part of the year. This winter the mudhens were the last to leave for warmer climes further south. The cold weather was accompanied by a heavy gale, which rolled up whitecaps on Loomis lake. As the mudhens flew along its surface, striking the water with their wings, ice formed upon them so rapidly that they lost the power of locomotion. By the hundreds they were caught in the rapidly forming ice and held until frozen to death. The Okanogan Indians have been gathering the birds in numbers for food.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected. S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.
