Children's Fertilizer.

That's a good name for Scott's Emulsion. Children are like young plants. Some will grow in ordinary soil. Others need fertilizers.

The nature of some children prevents them from thriving on ordinary food Such children grow right if treated right.

All they need is a little fertilizer—a little extra richness. Scott's Emulsion is the right treatment.

Fertilizers make things grow. That's just what Scott's Emulsion does. It makes children grow in flesh, grow in strength, grow rich blood, grow in mind, grow happy. That's what we make it for.

There seems to be a false rumor going through the country that our town is having an epidemic of diphtheria, which is not true in the least part. There has only been one case here that any physician could call diphtheria, and that was the case of the late Ira Perry, and he was a child that had always been subject to membranous croup and when he took the two diseases together it was too much for his constitution. Your correspondent has inquired particularly and can not find even one case of sore throat in town.

No Loss Of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of sugar and coffee than it. I sold five bottles of it to threshers yesterday that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by Chas. Strang.

The Old Boys and Girls Entertain.

On Wednesday evening of this week the G. A. R. boys and the girls of the Relief Corps of Ashland and Medford had a time, the likes of which were never before recorded in this orchard land of ours. Those from Ashland most prominent in the program were Mrs. Ganiere, Mrs. Paul and Miss Hendrix, and those of Medford who delivered addresses were Dr. B. F. Adkins and Attorney Hartson.

Upon arriving in Medford the visitors were met at the train by a committee who conducted them to the banquet hall, where about six o'clock a lunch was served, After the lunch the visitors were given the freedom of the city, and at about eight o'clock all were again at the hall and the above mentioned program was carried out After the program a fine supper was served by the ladies of the Relief Corps of Medford, and soon after the visitors returned to their homes at Ashland on the midnight train.

Medford Loses Telephone Case.

From the Portland Telegram.

That the City of Medford has no right to impose a license of $100 per annum on the Sunset Telephone & Telegraph Company was the ruling of Judge Bellinger in the United States Court this morning, and the injunction restraining the city from removing the poles and wires is still in force.

Some time ago the City Council passed an ordinance fixing the annual license to be paid by all telephone companies at $100 a year, and also fixing the rate for telephones at $1.50 a month. The Sunset Telephone & Telegraph Co., deeming this excessive, refused to pay it, and when the officers commenced to make preparations for removing the poles and wires from the city a suit to enjoin them from doing so was brought in the United States Court. The case was argued some days ago, and a decision rendered this morning.

Judge Bellinger stated that this would be without the authority of the city and the ordinance was therefore void The court explained that a city can fix a license only at figures which will cover the expense of issuing a license and other possible expenses, and that such a license would be a tax that could not be levied. "In short," he said, "a city cannot add to the conditions upon which the franchise was originally granted, although a license within reason is legal."

The court stated there was no need to take up the other phase of question as to the monthly rate of $1.50, the defendant having admitted that such a prohibition or restriction would be void. The demurrer to the bill of the complaint was accordingly overruled.

The attorneys for the defense took ten days in which to answer, but the restraining order is in force and will continue so unless the defendants can show better cause why they should not be allowed to impose the license of $100 per annum.

Klamath County Items.

From the Klamath Falls Republican.

H. F. Murdoch has been appointed postmaster at Klamath Falls, to succeed A. Castel, who resigned upon receiving the Republican nomination for county clerk.

The senate Indian committee has favorably reported Senator Mitchell's amendment to the salary civil bill ratifying the treaty with the Klamath Indians, whereby they cede to the United States a tract of 621,824 acres of their reservation. The amendment appropriates $537,000 to pay for the land.

From the Klamath Falls Express.

Mrs. Mattie Kessler, formerly of Medford, Grants Pass and Klamath Falls, has begun divorce proceedings against Henry Kessler. The charge against her husband is intemperance.

Col. H. H. Sargent, of the 2nd Cavalry, U. S. A., who has been with his command in Matanzas, Cuba, since his return from the Philippines, is soon to return to the States and will be headquartered at Fort Ethan Allan, Vermont.

Work for Election Clerks.

SALEM, Or., May 5.—There appears to be a general misunderstanding among the election boards of the county concerning the posting of election notices in the several precincts. Formerly the sheriff was obliged to post the notices, but under the new law the work devolves upon the clerks of the election boards of each precinct. The notices have been mailed by the county clerk to the clerks of the different boards. The clerks are required to post the notices in conspicuous places within their respective precincts. Since no instructions have accompanied the copies of the notices of election; many of the recipients thereof have been in a quandary to know what to do.

A lively debate was precipitated in the senate by Pritchard of North Carolina by some remarks on political methods in that state, in the course of a discussion on the Philippide bill. Simmons, also of North Carolina, vigorously denied his colleague's assertions. Pritchard advocated the retention of the Philippines.

The house, without a word of debate, passed the anti-conspiracy bill, reported from the judiciary committee. This bill provides that no restraining order or injunction shall issue in trade disputes between employers and employees.

Saturday.

The debate in the senate on the Philippine question revolved around a resolution calling for Major Gardener, in the Philippine islands, to appear as soon as possible before the Philippine committee as a witness. No action had been taken upon the matter when the senate adjourned on account of the death of Representative Amos Cummings of New York.

The house, shortly after assembling, adjourned as a remark of respect to the memory of Representative Amos J. Cummings.
