VISIT DR. JORDAN'S GREAT MUSEUM OF ANATOMY
1081 MARKET ST., SAN FRANCISCO, CAL.
(Between Ninth and Tenth)

The largest Anatomical Museum in the world. Open to the public. Wonderful sight for visitors. Weakness, or any other ailment, especially if of long standing, is the result of a general debility of the system. Dr. Jordan's special method of treatment, based on the study of the human body, has cured thousands of cases of debility, and is the only method of treatment that is safe and reliable. Dr. Jordan's special method of treatment, based on the study of the human body, has cured thousands of cases of debility, and is the only method of treatment that is safe and reliable. Dr. Jordan's special method of treatment, based on the study of the human body, has cured thousands of cases of debility, and is the only method of treatment that is safe and reliable.

Edison T. Holeslaw and wife both died suddenly and within an hour at Gilroy, Cal. Mr. Holeslaw, who was 75 years of age, dropped dead soon after eating his supper. Mrs. Holeslaw, of about the same age as her husband, was prostrated by the shock and died soon after. Mr. Holeslaw, who came to Gilroy in 1881, was prominent in public affairs.

FRUIT LAND BARGAINS
FOOT HILL—71 acres, 30 acres in cultivation; balance brush. Fair house, barn and out-buildings. Living water from Mountain spring piped direct to residence. 14 acres needed to affluents. Only 1 1/2 miles from Central Point. Every acre good orchard land. Price \$2500. Crop reserved.
VALLEY HOME—25-acre tract adjoining Central Point town site. 20 acres in cultivation. Small house and barn. 15 acres good fruit land. \$1250. A nice home for someone.
GRAIN RANCH—100 acres in square. All in cultivation. Rich, black soil, which fruit men claim will prove adapted to trees. Fair fence but no buildings. Only two miles from town. The present crop speaks for the quality of the soil. Price \$6000. Crop reserved.
A LEADER—130-acre orchard land at base of foothills, two miles from Central Point, all but about five acres of which is the very best of fruit land. 20 acres of timber land goes with the place. An excellent 7-room dwelling house, lashed and plastered; brick milk house. Good barn and granary; wood shed, smokehouse and outbuildings. Two wells of fine water. Entire place visible from residence. A great bargain at \$5500. Crop reserved. This is the peer of any fruit land in Jackson county.
HOLMES BROS. CENTRAL POINT

A LITTLE OF EVERYTHING

An easy way to soften hard water delightfully is to throw orange peel into it just before the water is used. The peel will not only prove agreeable to the skin, but will give out a fragrance like that which follows the use of toilet water.

There are 23,000 immigrants on the Atlantic liners due to arrive this week, and they bring the total for the month up to 85,000, breaking all records for any month in the last twenty years. The majority of the arrivals are from Austria, Hungary, Italy and Russia.

An immense timber land deal was consummated at Eugene last week, whereby the Booth-Kelly Lumber Co. acquires control of the land grant of the Oregon Central Military Road Co. The grant embraces every alternate section for three miles on each side of the road, and comprises more than 1,000,000 acres, much of it covered with heavy timber.

Of a population of 38,000,000 in France, 150,000 die annually from tuberculosis, while Great Britain with a population of 41,000,000, only loses 60,000 from the same cause. In every other European country tuberculosis is decreasing. In France it is increasing, because in every other European country alcoholism is decreasing while in France it is on the increase.

The Canadian Pacific railway's telegraph received advices from Ottawa that telegraph rates to Dawson and other points in the Yukon will be reduced by one-third from June 1. This will make Dawson rate \$3.25 for ten words, as against the present rate of \$4.75. The Canadian Pacific Railway Company telegraphs advices that commencing June 1 the cable rate to Queensland and Victoria, Australia, will be reduced to \$1.11 per word.

The people of Hilo and vicinity, Hawaiian Islands, are watching for an early outbreak of the volcano of Mauna Loa. People have noticed the increased action of the volcano, and another eruption is expected within a short time. The cloud of steam arising from the volcano is so dense that the government station about a mile from the hotel cannot be seen at all. People who were present at the flow of lava in 1881 and 1883 report that they have never seen steam inside of the crater, while at the present time considerable smoke is visible on the outside. An examination of the crater made last week, when the wind blew the steam away to one side, showed fire at the bottom of the pit. The idea that it was a burning sulphur pit is dispelled by the lack of fumes. The native guides, who are probably the best authority, since they have known the volcano for thirty years, state that the volcano is acting just the same as it always does before an outbreak.

Happy Time in Old Town.
"We felt very happy," writes R. N. Beville, Old Town, Va., "when Bucklen's Arnica Salve wholly cured our daughter of a bad case of scald head." It delights all who use it for cuts, corns, burns, bruises, boils, ulcers, eruptions. Infallible for piles. Only 25c at Chas. Strang's drug store.

"LOST CABIN" MINE FOUND.
Original Discoverer Driven Away by Indians.
From the Grants Pass Mining Journal.

Last week a gentleman by the name of S. D. Johnson, recently from Iowa, stepped into the Grants Pass Banking & Trust Co.'s office with a bag of gold, stating that he had made a discovery on Jack creek in the Jump-Off-Joe district. He thinks he has discovered a mine that has been lost for fifty years. This is the story:
"Johnson was grubstaked to this

country by a capitalist of Colorado Springs, Colo. This capitalist had been in Southern Oregon during pioneer days. Among others, he made a rich discovery on Jack creek, in the Jump-Off-Joe district, northern Josephine County. The find was in the nature of an auriferous gravel bed, rich in coarse gold and nuggets. He had just begun work upon his bonanza when he and his companions were attacked by Indians and forced to flee for their lives. He left Southern Oregon and went to Colorado, where he made his fortune. He did not forget his find in Southern Oregon, and, after fifty years had passed he sent his friend Johnson here to make a search for it. He made a rough sketch of the district, and armed with this Johnson came to Grants Pass about a week ago. He found Jack creek and had prospected but a little while on the rich gravel bars when he removed \$26 in coarse gold, and searching farther, found a number of good sized nuggets. He was nearly wild with delight, knowing that he had found the lost mine.

Johnson found that the claims had been located, but had no trouble in purchasing them for \$1500. The owners not knowing of the discovery. Johnson has gone back to Colorado, but will return within a month and begin equipping his discovery with a hydraulic plant. Ditches, piping and giants will be put in, and the property converted into an extensive hydraulic mine.

Saved from an Awful Fate.
"Everybody said I had consumption," writes Mrs. A. M. Shields, of Chambersburg, Pa., "I was so low after six months of severe sickness, caused by hay fever and asthma, that few thought I could get well, but I learned of the marvelous merit of Dr. King's New Discovery for Consumption, used it, and was completely cured." For desperate throat and lung diseases it is the safest cure in the world, and is infallible for coughs, colds and bronchial affections. Guaranteed bottles 50c and \$1.00. Trial bottles free at Chas. Strang's.

THE PRESIDENT A PEDESTRIAN.
Lures a Boston Friend into a Walk of Sixteen Miles.
From the Baltimore Sun.

President Roosevelt repeatedly gives exhibitions of his prowess as a long distance walker. He walks whenever the fit seizes him, and has no regular hour for either walking or riding.
An intimate friend from Boston has reason to remember that the president is no ordinary walker, and will probably not be so quick to accept an invitation the next time he visits Washington. Three days ago this friend called at the White House, and after an interview with the president was asked to wait a few minutes while some business was being attended to, after which the president would be glad to have his company for a walk.
At 3 o'clock p. m., an hour later, they started off together, walked rapidly out beyond Georgetown, thence to Cabin John bridge, seven miles away, and back to the Chain bridge, which they crossed. Coming down on the Virginia side through brush and woods, they again crossed the Potomac by the Aqueduct bridge, reaching the White House at 7 o'clock, after traveling more than 16 miles.

The visitor had an engagement to dine with Senator Lodge informally at 7:30 p. m., and was barely able to reach his hotel. He telephoned the senator that all that was left of him would soon be in bed; that he had been walking with the president, and the senator would understand.

Virulent Cancer Cured.
Startling proof of a wonderful advance in medicine is given by Druggist G. W. Roberts, of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microbe poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Bitters 50c, Salve 25c at Chas. Strang's.

BOER WAR IS ENDED.

Lord Kitchener Announces Surrender of the Boers.
An official telegram from Lord Kitchener, dated Pretoria, Saturday, May 24, 11:15 p. m., says: "A document containing terms of surrender was signed here this evening at 10 o'clock by all the Boer representatives, as well as Lord Milner (the British high commissioner in South Africa) and myself." The following message, from King Edward to his people, was issued after midnight: "The king has received the welcome news of the cessation of hostilities in South Africa with infinite satisfaction, and his majesty trusts that peace may speedily be followed by the restoration of prosperity in his new dominions, and that the feelings necessarily engendered by war will give place to earnest co-operation on the part of his majesty's subjects in promoting the welfare of their common country."

Soon after the receipt of the dispatch the news spread to the clubs and hotels, and was received with much enthusiasm. The church bells were rung to acclaim the glad tidings. A crowd gathered at the Mansion House, and the lord mayor of London, Sir Joseph U. Dimsdale, announced from the balcony that terms of surrender had been signed in South Africa. The Sunday evening calm of the London streets was broken by enthusiastic singing, shouting and horn-blowing. The hotels, clubs and public houses and the streets were not the only places where the people were actively demonstrating their joy. The peace news was announced in the churches, and by some congregations it was received with applause. In all the churches of London prayer and thanksgiving were offered and special hymns were sung.

Following is a synopsis of Balfour's statement in the house of commons of the terms of peace: The burgher forces lay down their arms and hand over all their rifles, guns and munitions of war in their possession or under their control. All prisoners are to be brought back as soon as possible to South Africa, without loss of liberty or property. No action to be taken against prisoners except in cases where they are guilty of breaches of the rules of war. Dutch is to be taught in the schools, if desired by the parents, and used in the courts if necessary. Rifles are allowed for protection. Military occupation is to be withdrawn as soon as possible and self-government substituted. There is to be no tax on the Transvaal to pay the cost of the war. The sum of £3,000,000 sterling is to be provided for restocking the Boer farms. Rebels are liable for trial according to the law of the colony to which they belong. The rank and file will be disfranchised for life.

Ready to Yield.
"I used DeWitt's Witch Hazel Salve for piles and found it a certain cure," says S. R. Meredith, Willow Grove, Del. Operations unnecessary to cure piles. They always yield to DeWitt's Witch Hazel Salve. Cures skin diseases, all kinds of wounds. Accept no counterfeits. Chas. Strang.

President Roosevelt has appointed Charles F. Lummis of Los Angeles, Russell C. Allen of San Diego and Charles L. Partridge of Riverside as a commission to assist in selecting a new home for the Warner Ranch Indians in San Diego county. The commission is allowed \$1,000 for expenses in the Indian appropriation bill, but will serve without pay.
