Eagle Point Eagle

BY A. C. HOWLETT.

W. R. Potter and family spent the Fourth with relatives in Ashland.

Miss Hattie Howlett was visiting at A. H. Peachey's, in Mt. Pitt precinct, last week.

Frank Manning, of Leeds, passed through town last Monday morning on his way home from the county seat.

Rev. A. P. Gillett and Mr. Epperson, of Jacksonville, came out last Saturday and Rev. Gillett preached for us Sunday.

Ira Tungate came out from Big Butte last Saturday morning. He reported that a fine time was had at the dance at Mr. Geppert's.

Prof. Biah, Prof. Robt. Jonas, James Ringer and son, Chalmers, and Donnie McGee were the guests of A. H. Peachey, of Mt. Pitt precinct, over the Fourth.

Chas. Hayes, who has worked for T. E. Nichols for the past two years, has severed his connection with him and will go to Ft. Klamath to spend the summer.

While at Brownboro on the Fourth, Cephas Moomaw, Charlie Hayes and J. E. Hart each had a bride taken, which they would like very much to have returned.

Mr. and Mrs. G. W. Smith, of Yankee creek, were pleasant callers at our home one day last week. While in town they made some changes in their real estate affairs.

Rev. J. P. Moomaw was called last Monday to Mr. Rummel's, on Antelope creek, to attend to church matters in company with Rev.

Hoxie and others of the German Baptist Church.

During the festivities at Brownboro on the Fourth, while running a horse race, a colt ran in front of a horse that Joe Moomaw was riding and they collided. Joe saw the situation and sprang off, alighting on his feet and escaping injury.

At the meeting of the Young People's Society last Sunday evening the following officers were elected: Robt. Jonas, president; Donnie McGee, vice president; Floy Florey, secretary; Mrs. Lou Eber-sole, chairman of committee on program; Mrs. W. B. Officer, vice chairman of committee; Stella McGee, organist.

In spite of the rain on Wednesday and Thursday of last week our people scattered out and celebrated the Fourth in grand style. James Baker and Fred Law conducted a stand on Big Butte, and Messrs. Appel and Heekathorn had a stand at Brownboro, where they served ice cream and soda and other refreshments. Quite a number of our citizens went to Jacksonville and spent the day.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Pills prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Chas. Strang.

Kanes Creek Items.

BY SINE DIE.

Mr. Nutt and family spent the Fourth in Grants Pass.

Mr. Roland and Norris Johnson are assisting Mr. Nutt in buying this week.

Miss Mae Noe will leave soon for Roseburg to spend the summer with her sister, Mrs. Frank Ladd.

Mrs. Birdsey is staying in Gold Hill this week, assisting in the work at John McClelland's hotel.

Mr. and Mrs. Jas. Taylor, of Galle creek, spent the Fourth in Ashland with the latter's parents, Mr. and Mrs. Wm. Russell.

Elmer Higinbotham is working for Dr. Ray at the Braden mine. Quite a force of men are now engaged at work in the mine.

The rain of the past few days did some damage to hay that was in the field, but if the weather permits it will be all right to haul in a few days.

Mrs. Robt. Swinden was elected school clerk in this district instead of Mrs. Brown, as was reported in last week's items. Mrs. Brown's time had just expired.

Mr. Knotts and son, John, left last week for Pendleton, Oregon, where they will locate. They will be greatly missed in this neighborhood, where they have lived for the past twenty-three years.

J. R. R. Rowe, postmaster at Sams Valley, was buried in Sams Valley cemetery, July fifth, under the auspices of the Gold Hill G. A. R. Post, of which he was a member.

Three-fourths of the hay crop in this section was put in the barns before the rain reached us and the little damage to hay has no comparison to the vast amount of benefit the gardens, corn and sugar cane received.

At the recent school election the Antioch district elected the following officers: T. C. Brown, Jesse Richardson and G. W. Stacy directors, and A. D. Houston clerk. The district called a special meeting and levied a five mill tax to rebuild and furnish the present school house.

The M. E. Church, South, held their quarterly meeting at Antioch school house. The presiding elder, Rev. Fitch, and Rev. Darby, of Medford, were in attendance. An Old Superstition.

A curious example of superstition was made public the other day through the medium of the law courts of Berlin. A tree growing opposite the gateway of a farmer was noticed to be withering away and dying. On further investigation it was found that a deep hole had been bored in it, probably by some person who wished to kill it. As the tree somewhat incommoded the entrance to the farmer's house, he was charged with the deed and fined. He, however, appealed to a higher court and succeeded in proving that the hole had been bored by some superstitious person who believed in the old superstition that if illness attacks a household it can be driven away by "burying" it in a healthy tree. A hole is bored in the tree, and all kinds of medicines are buried in the hole, which is then carefully stopped up amid the singing of weird incantations. This could have been done by any superstitious person in the neighborhood, the farmer pointed out. The judge acquitted him.

CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected.

S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

How Metals Are Used by Nature.

Nature uses largely four gases—oxygen, nitrogen, hydrogen, chlorine. She uses also largely two inorganic nonmetallic bodies, carbon and sulphur. She uses metals, calcium and iron. She uses one metalloids, phosphorus. Man in his work uses all these elements with some others. Nature uses iron sparingly. Man uses it largely.

Nature uses the metal calcium largely, letting it enter into the construction of the bone of every skeleton of animal. Man uses calcium in a rough way in the formation of buildings in the compound form of lime, together with other metals in the grand storehouse—tin, copper and aluminium, substances which nature shows no preference for in any of her artistic and mechanical works. Man also uses zinc, lead and mercury, for which nature has no special employment that is obvious to us.

A Penalty of Genius.

It seems to be the frequent penalty of genius that it is denied the privilege of perpetuating its name and kind beyond a few generations at most. Thus it is said that there is not now living a single descendant in the male line of Chaucer, Shakespeare, Spenser, Milton, Cowley, Butler, Dryden, Pope, Cowper, Goldsmith, Byron or Moore; not one of Sir Philip Sidney or of Sir Walter Raleigh; not one of Drake, Cromwell, Hampden, Monk, Marlborough, Peterborough or Nelson; not one of Bolingbroke, Walpole, Chatham, Pitt, Fox, Burke, Graham or Channing; not one of Bacon, Locke, Newton or Davy; not one of Hume, Gibbon or Macaulay; not one of Hogarth, Sir Joshua Reynolds or Sir Thomas Lawrence; not one of David Garrick, John Kemble or Edward Kean.
