Entered in the Postoffice at Medford, Oregon as Second-Class Mail Matter.

TRACEY SURROUNDED

OFFICERS ARE SURE THAT THEY HAVE HIM THIS TIME.

Boy Tells of the Bandit's Whereabouts and Men and Bloodhounds Are Hot on His Trail.—Thought That Battle Will Surely Occur Today.

Enumclaw, Wash., July 17.—Tracey has again taken to the swamps, and although surrounded by armed men he still has a good chance of escaping. He was seen Saturday afternoon near this place. Hounds were put on the trail and followed it to the marshes near Buckley. Reinforcements have been obtained by the sheriff, and there is likelihood of an encounter some time today.

Enumclaw, Wash., July 17.—After two days of inactivity the man hunters are once again hot on the trail of Harry Tracey, the outlaw convict.

At 9:30 o'clock the bloodhounds were placed on his track and after following it for three-quarters of a mile lost it in a dense swamp that borders the road leading from here to Buckley. The wires have been kept busy humming messages to surrounding towns and it is believed that Tracey will be either killed or captured by noon today.

Tracey was seen at 5 o'clock yesterday afternoon one and a half miles east of Enumclaw by Clarence Burke a 10-year-old boy. He was sitting near the edge of a gravel pit as the lad passed on a bicycle. Hailing the lad Tracey inquired the road to Buckley. The boy imparted the information desired and then hastening into town gave the news of what he had seen.

The information was telephoned to former Sheriff Wollery, in charge of the posse at Enumclaw, by Sheriff Hartman of Pierce county, who happened to be here, and also Deputy McKillen at Buckley. Wollery and five guards procured a team as soon as possible and came here with the bloodhounds. They were placed on the trail and followed it for some distance. It was very dark when the hounds were thrown off the scent at the swamp, and after a consultation the posse decided to cover all possible avenues of escape and wait until daylight before trying to follow the trail farther.

The instant the bloodhounds struck the scent they strained at the leash and bayed in a manner indicative of being on the trail of the convict. The description given by young Burke without the behavior of the hounds shows plainly that Tracey has once again been located.

Is Headed for Buckley. It is believed that Tracey is heading directly for Buckley. When he was at Frank Portant's house along Green river Friday night he asked the farmer to take a rig and drive him to Buckley. He was told the horse was too old to stand such a trip, and replied that he would have to start for there without a team. His appearance on the Buckley road, east of here, and

Mother's Girl.

There exists often a very beautiful companionship between the mother and her daughter. The intimacy is frank, free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is silent and sad, and seems to stun her mother instead of seeking her.

This change very often occurs when the young girl is crossing the border line of womanhood. She is morbid, nervous, fearful, as she enters upon this new experience.

The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as improve the appetite, nourish the nerves, and promote the general physical health.

"Two years ago my daughter's health began to fail," writes Mrs. Day Hill, of Broadland, Conn. "I was so worried that I could not think of anything to help her but I bought a bottle of Dr. Pierce's Favorite Prescription. It was just what she needed. She had lost her appetite, and she was so nervous and fearful. I felt I could not give her up as she was the only child I had, and I must say, Doctor, that only your 'Favorite Prescription' my daughter would have been in her grave today. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. E. V. Pierce, Buffalo, N. Y.

with three and a quarter miles of his destination, shows that his questions were not intended to throw his pursuers off the trail.

Early yesterday morning Sheriff Brown of Kittitas county arrived here and informed Sheriff Cuddehe that he had been much disturbed over the prospect of Tracey's gaining the summit of the Cascades. He came to confer with the King county sheriff and assure him that Kittitas county had already anticipated the possibility. Ten heavily armed deputies are awaiting developments on the coast of the range and physical boundaries will not deter them from crossing over should the exigencies of the situation require it.

"Should Harry Tracey emerge from the cover of Puget sound forest and head down the eastern slope," said Sheriff Brown, "it will be a question of speed, not strategy. Nature will not aid him in providing a safe retreat at every turn, and field glasses rather than bloodhounds will come in to requisition."

The Secret of Long Life Consists in keeping all the main organs of the body in healthy, regular action, and in quickly destroying deadly disease germs. Electric Bitters regulate stomach, liver and kidneys, purify the blood, and give a splendid appetite. They work wonders in curing kidney troubles, female complaints, nervous diseases, constipation, dyspepsia, and malaria. Vigorous health and strength always follow their use. Only 50c, guaranteed by Chas. Strang, druggist.

Sculptor Rupert Schmid has filed an other suit against Mrs. Jane L. Stanford, this time to recover \$1500, which he declares is due him for work on three busts.

Mrs. H. Faithful and her daughter, 10 years of age, were left bleeding and unconscious on the county road near Sonoma Friday by a driver who had guided his team into collision with theirs.

Judge L. L. Boons of San Diego, who returned from the east recently on rail road business, brings information that that county is to receive the first bone fits from the irrigation bill passed by the last congress.

United States Senator Thomas R. Bard, who has returned from Washington, says he does not oppose the admission of Arizona as a state, as he has been intimated in newspaper telegrams from Washington.

After journeying nearly 5000 miles police Captain Adelbert Wilson has returned to Oakland from Chicago with Edward R. Clayton as his prisoner charged with felony embezzlement by Mrs. Janet G. Putzer of Oakland.

The new town of Terminus, eight teen miles north of Stockton, at the head of navigation on the Mokelumne river, has been sold for \$16,000. The new town has attracted considerable attention recently on account of its rapid growth.

During the past several weeks many complaints have been made by the mail carriers of Oakland of being attacked by vicious dogs while delivering mail. One carrier was so severely bitten that he will be laid up for several weeks.

The real reason for James J. Corbett's refusal to go to San Francisco for the Fitzsimmons-Jeffries fight has become known. It is said that he had had to undergo an operation for a cancerous growth on his tongue caused by excessive smoking.

The amalgamation of the Santa Fe Pacific and San Joaquin railway lines has been completed. The combined mileage of the two roads is now known as the Atchison, Topeka and Santa Fe Railway company coast lines, with headquarters in Los Angeles.

The syndicate which recently purchased a large tract of land in the New River country, on the Mexican side of the line, near San Diego, has let a contract for the clearing of 5000 acres for fall seeding. The land is below the level of the Imperial ditches and will be irrigated.

Secretary of State C. F. Curry has refused to file or issue a certificate of incorporation to the United Labor Party of the United States of America. Curry says the incorporation of a political party is without precedent against public morals and the fundamental principles of government.

The state board of health has sent a notification to the city board of health of Sacramento to the effect that it must enforce quarantine regulations on all cases of smallpox in that city or the state board of health will assume charge of the matter itself.

According to J. Ross Clark of Los Angeles, who has sole charge of the California interests of his brother United States Senator Clark, it is still an open question whether it will be the Rock Island system or the Gould system that will connect at Salt Lake with the San Pedro, Los Angeles and Salt Lake road to make the Clark road the western outlet for a transcontinental system of railroads.

Warned in a Dream. On the occasion of a fatal accident to a lift in Paris—I think at the Grand hotel—a number of years ago a lady who was just going up in it started back, saying, "Oh, there is that dreadful man again!" and tried to induce her husband to come off of it too, but he refused and was among the killed.

The "dreadful man" to whom she referred she had seen in a dream, which the niece of the friend who told me the story had heard her relate a day or two before the accident. It was of a funeral drawn up at her door, so pompous as to produce a great impression on her, presided over by a big, dark man in a strange sombrero hat. This man she saw, or believed she saw, in the lift, and the coincidence terrified her from going up in it.—Notes and Queries.

KING STILL FAR FROM WELL.

It is Reported That He May Be an Invalid for Years.

London, July 14.—Reynolds newspaper says that strenuous efforts are being made by detectives to find out the sources from which the newspapers obtain information about the king's health. The servants at Buckingham palace are being constantly shadowed to ascertain if they are talking outside.

It is now asserted that it was only after the members of the cabinet had pressed the doctors guardedly that the doctors agreed upon a date for the coronation. The wound shows no signs of rapid healing, according to this paper and it is feared that the physical clans have somewhat yielded their better judgment to allay public anxiety. The king cannot sit up, even with assistance, without very great pain, and the torture cannot be imagined if his majesty should travel on the railway, in order to please his subjects.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing, Iowa, Journal. For sale by Chas. Strang.

Alameda Bride Dies in England.

Oakland, July 14.—Sad news has reached here from Liverpool of the death of Mrs. J. A. McNear, formerly Miss Julia Noy, one of the most popular and accomplished society girls of Alameda. Mrs. McNear was married to the son of the California grain king in the early part of last year and the young couple went to Liverpool on their honeymoon.

The Same Old Story.

J. A. Kelley relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and retold by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelley is a well known citizen of Henderson, N. C. For sale by Chas. Strang, druggist.

Lives With a Broken Neck.

San Francisco, July 14.—Swimmers at the Sutro baths were startled yesterday afternoon when John Oscar Erickson, a seaman, made a dive from a ladder leading to the sliding board into shallow water about three and a half feet deep. He went down with terrific force. His scalp was terribly cut, while other symptoms warranted the conclusion that he had been fatally hurt. An examination at the hospital, where he was immediately removed, showed that the man's upper extremities were paralyzed, the result of a broken neck. He was conscious and talked lucidly to the physicians, but his recovery is considered impossible.

Acts Immediately.

Colds are sometimes more troublesome in summer than in winter. It's so hard to keep from adding to them while cooling off after exercise. One Minute Cough Cure cuts at once. Acts lustily safe. Acts immediately. Sure cure for coughs, colds, croup, throat and lung trouble. Chas. Strang.

Lovers' Quarrel Results in Suicide.

San Francisco, July 14.—Miss Fannie L. Warren, a beautiful girl, 15 years of age, committed suicide last night at her home in this city by drinking carbonic acid after having quarreled. It is said, with Dr. Charles L. McPike, a young dentist of this city, to whom, it is asserted, she was engaged to be married.

MOTHERHOOD

The greatest ambition of American men and women is to have homes blessed with children. The woman afflicted with female disease is constantly menaced with becoming a childless wife. No medicine can restore dead organs, but Wine of Cardui does regulate derangements that prevent conception; does prevent miscarriage; does restore weak functions and shatters nerves and does bring babies to homes barren and desolate for years. Wine of Cardui gives women the health and strength to bear healthy children. You can get a dollar bottle of Wine of Cardui from your dealer.

WINE OF CARDUI

113 Market Street, Memphis, Tenn., April 24, 1901. In February, 1901, I took one bottle of Wine of Cardui and one package of 'Thornton's Blood-Draught'. I had never married fifteen years and had never given birth to a child until I took Wine of Cardui. Now I am mother of a fine baby girl, which was born March 21, 1901. The baby weighs fourteen pounds and I feel as well as any person could feel. Now my home is happy and I never will be without Wine of Cardui in my home again. Mrs. J. W. G. SMITH.

The Electrical Review, a high authority, states that there are now more than 2,278,000 telephones in use in the United States.

They serve for a yearly total of probably 5,000,000,000 calls, at a very moderate estimate. The saving in time and labor which is implied by these figures is incalculable. Making due allowance for the vast number of calls which are of a social nature and for those additional millions which might be dispensed with at small cost, if any, in business, the letter writing, running of errands, use of vehicles and the waste of time in fruitless journeys which the telephone service renders needless can hardly be imagined. It is impossible to measure such stupendous facts in statistics. What every one understands is that to strike the telephone out of modern life would be an enormous loss. It would be such a setback as the civilized world has not experienced in modern times. In addition to all the annoyance, labor and trouble implied in doing without the privilege of talking through wires, at all ordinary distances, the actual loss in money would be many times the cost of the telephone service, enormous though the revenues of the telephone companies are. The progress of the world is many-sided, and its leaders are found in a great number of fields of endeavor, but the inventor and the scientific discoverer hold a high place among the very foremost benefactors of humanity.

Dasher's Report.

Dasher came to tea and mentioned a brilliant report made by himself. He had been lecturing on the church's seasons and how to observe them, when a crude man in the audience asked what was the best way of observing All Souls' day. Dasher replied: "It should be spent in self-examination," and the gainsayer was silenced. After Dasher was gone, my wife said she thought she had heard this story before, though with a different tounure. I have often noticed that the same stories are told by different persons as having happened in their own experience. The instance struck me as so curious that I made a note of it for my Psychological society.—Cornhill.

Sure Shot Salve

Cures felons, boils, cuts, old sores in one day. Price 25c. Money back if you want it. Electric Salve Co., Redding, Cal.

'SURE SHOT' Salve cures Copper poison, snake bites, eczema and scalds

No one claims to sell its equal.

ASHLAND, OR., March 29, 1902. THE ELECTRIC SALVE CO., Redding, Cal. Gentlemen: The box of Sure Shot Salve I ordered of you came last night. I put some on a gathering on my neck; put it on three times. It drew out about a tablespoonful of pus and I think will take more out. I think it is the best salve I ever used. Yours truly, WALTER MAUZY.
