Eagle Point Eagle.

BY A. C. HOWLETT.

Fred Law went to Big Butte last
week to visit relatives.

Messrs. Harnish, Sr., Gartin and
Harnish, Jr. were the guests of J.
P. Mooman the latter part of last
week.

Mrs. Caroline Fronk, of Central
Point, passed through here last
week en route to Elk creek to visit
relatives.

Mr. Morton is preparing to flume
water from the Fryer ditch across
the creek to irrigate his place in
Sunnyside district.

Prof. A. Bish is spending his vaca-
tion in the mountains near Mt.
Pitt. He is the guest of Prof. A. H.
Peachey and family.

H. I. Appel is doing so well in
his barbering business that he has
enlarged his room and put in a
stock of nuts, candy, etc.

The following committee has been
appointed on arrangement for the
Young Peoples' meeting: Wilford
Jack, Austin Green, Amery Lon-
gan and Hattie Howlett.

Bert Peachey and Robt. Jonas
took a trip to Klamath County last
week, the former going after a bunch
of horses his father had out there,
and the latter to see the country
and the beautiful scenery.

Eli Ellis and son, Henry, went
to the Willamette valley on the 2d
and returned on the 8th. They re-
port that it did not rain but five
days while they were gone. They
left Monday for northern California
to be gone about a month.

Hon. and Mrs. Chaney Nye came
down from Prospect last week. Mr.
Nye went to Medford on Saturday.

A very painful affair; but notice the
expression of triumph on the old mam-
my's face. She knows from many
such experiences that

where he was joined by a relative
of his, Miss Myra Brown. On Mon-
day the three left for Prospect,
where Miss Brown will spend the
summer.

Dr. Officer has moved the build-
ing formerly occupied by S. B.
Holmes as a postoffice, and Mr.
Holmes has fitted it up for a mill-
ner store for Mrs. Holmes. Dr. Of-
ficer has moved his stock of drugs
from the old Daley building to the
house formerly occupied by John
Williscroft. Harry Carlton has
purchased a half interest in the
stock of goods.

Last Sunday a few of our citizens
went to Jackson's ford, on Rogue
river, for a picnic. A sumptuous
dinner was spread at noon to which
all did justice. In the afternoon
the young folks spent the time very
pleasantly in boat riding, while the
older ones enjoyed themselves un-
der the cool shade trees in social
converse. Those who enjoyed the
day were Mr. and Mrs. J. J. Fryer
and daughter, Mrs. Green and her
son, Austin, Mr. and Mrs. A. J.
Daley and grandson, Harry Simon,
Mr. and Mrs. H. L. Appel, Jerry
Heckathorn and Mr. and Mrs. A.
C. Howlett and family. Fred Barne-
burg and son in law and daughter,
Mr. and Mrs. W. H. Stewart and
Mr. and Mrs. Wm. Bennett, of
Medford, were also there.

Poisoning the System.

It is through the bowels that the body is cleansed
of impurities. Constipation keeps these
poisons in the system, causing headache, dull
ness and melancholia at first, then unsightly
eruptions and finally serious illness unless a
remedy is applied. DeWitt's Little Early
Risers prevent this trouble by stimulating the
liver and promote easy, healthy action of the
bowels. These little pills do not act violently
but by strengthening the bowels enable them
to perform their own work. Never gripe or
distress. Chas. Strang.

Beagle Items.

Mrs. S. H. Glass and son, Theo-
dore, were trading in Central Point
Tuesday.

The common grasshopper is very
numerous in parts of this section
and are doing some damage.

Jan. Amrick has returned home
from Sisson, Calif., where he has
been employed falling timber.

Young calves in this section are
selling at fabulous prices. Some
have sold as high as \$14 each.

Glass Bros. are first in the field
with their header. They began
cutting Saturday on the home
place.

G. W. Stacy took Mrs. Stacy to
Medford Monday to consult a doctor.
Her health is not of the best we are
sorry to say.

Mr. and Mrs. J. G. Martin and
son, Carl, accompanied by Mrs.
Nottie Glass, were trading in Med-
ford Monday.

Pankey & Pankey, the success-
ful fishermen, are now located on
the east side of the upper Table
Rock on Rogue river.

John Gregerson, one of the solid
farmers of Beagle, was in Central
Point Friday. He returned with a
new reaper from the implement
house of W. J. Freeman.

Our good friend and neighbor,
Wm. Davis, had the misfortune to
fall through his barn floor last
Thursday, fracturing one rib and
bruising his stomach and breast
quite severely.

Rev. Holcroft and son came out
from Medford Saturday in company
with Mr. Richardson and sister.
He preached at the Antioch school
house Sunday morning and evening
to a good sized audience.

Thos. Bailey, the pioneer road
supervisor, has received his certifi-
cate of election and has taken the
oath. He names as bondsmen
Wm. Davis and E. D. Wilkite, both
of Beagle. T. C. Brown did not ap-
pear in the contest as supervisor
against Mr. Bailey.

The neighbors of this peaceable
community are completely shocked
to know that some person or per-
sons exist in their midst who take
advantage of their neighbors by
shooting and crippling their stock.
Be very careful, brothers, you are
treading on dangerous grounds.

S. B. Catarrh Cure

Is taken internally, acting directly on
the blood and mucous surfaces of the
system, cleansing it from all impurities,
carrying them through the natural
channels, and removing the cause of
disease. It is the greatest blood puri-
fier known and is the only positive in-
ternal cure for catarrh on the market
that does all that is claimed for it, and
never fails to cure when taken accord-
ing to directions. One bottle will con-

The Best Linctant for Strains.

Mr. F. H. Well, the merchant at
Deer Park, Long Island, N. Y., says:
"I always recommend Chamberlain's
Pain Balm as the best linctant for
strains. I used it last winter for a se-
vere lameness in the side, resulting
from a strain and was greatly pleased
with the quick relief and cure it ef-
fected." For sale by Chas. Strang.

THE VANISHING LOBSTER.

In Spite of All Efforts to Keep Up
the Supply, the Scarcity Increases
from Year to Year.

The annual report of a dearth in
lobster fisheries has made its ap-
pearance in January, reinforced by
the United States fish commissioner
who reports that each year it becomes
more difficult to obtain lobster eggs
along the New England coast. This de-
crease is most noticeable south of Cape
Cod. Measures for the protection or
ostensibly designed for the protection
of lobster fisheries are an established
feature of annual legislation on the
North Atlantic seaboard, says the New
York Sun. In 1899 the Maine legisla-
ture reduced the penalty for the tak-
ing of "short lobsters" from five dol-
lars to one dollar and New York dimin-
ished the penalty in the same year. In
1900 Massachusetts adopted a law pro-
hibiting lobsters from being caught
in the waters within or adjacent to
that state by anyone not having been
a resident of it for one year, and the
same legislature made it unlawful to
sell, or to have on hand, a lobster of
less than 10 1/2 inches long. Virginia
adopted a law authorizing the board
of fisheries, on petition of 50 citizens,
to lay off shoals or rocks for crabbing
grounds, and South Carolina adopted
a statute for regulating the catch, sale,
export and canning of clams, oysters
and lobsters. The two states which
have adopted the most comprehensive
and stringent methods for the regula-
tion of deep-water fisheries are Mary-
land and New Jersey. Massachusetts
and Virginia have followed, while New
York and Connecticut have fewer,
though New York is the great lobster-
consuming constituency of the United
States and probably of the world.

Although 60,000,000 lobster eggs were
planted in New England water, the
lobster dearth still continues in con-
sequence of a constantly enlarging de-
mand. High prices are the rule and re-
course has been had to the waters of
the Pacific coast as a source of addi-
tional supply and the propagation of
lobsters there is said to have been at-
tended thus far with great success.

Errors of the Eye.

The average woman cannot judge
how much a foot is within several
inches, but she can estimate a yard
very closely, while with the average
man the case is reversed. If some one
asked you which was the longer, a
horse's head from the tip of his ears to
the end of his nose, or an ordinary
four barrel, you would naturally say
the barrel, though the horse's head is
the longer, says St. Nicholas. The eye
is very easily deceived if it is called on
to pass judgment on something that
has not been brought home to it by
experience.

CANCEROUS ULCERS

Are in many respects like other ulcers or
sores, and this resemblance often proves fatal.
Valuable time is lost in fruitless efforts to heal
the sore with washes and salves, because the germs of Cancer that are multi-
plying in the blood and the new Cancer cells which are constantly develop-
ing keep up the irritation and discharge, and at last sharp shooting pains
announce the approach of the eating and sloughing stage, and a hideous,
sickening cancerous sore begins its
destructive work.

No ulcer or sore can exist with-
out some predisposing internal cause
that has poisoned the blood, and the
open discharging ulcer, or the festering
sore on the lip, cheek or other
part of the body will continue to
spread and eat deeper into the flesh unless the blood is purified and the
Cancer germs or morbid matter eliminated from the circulation.

S. S. S. cleanses the blood of all decaying effete matter. It has great
antidotal and purifying properties that soon destroy the germs and poisons
and restore the blood to its natural condition. And when pure blood is
carried to the ulcer or sore the healing process
begins, the discharge ceases and the place heals
over and new skin forms. S. S. S. is a strictly veg-
etable blood purifier containing no mercury or
minerals of any description.

• If you have an ulcer or chronic sore of any kind, write us about it, medi-
cal advice will cost you nothing. Books on Cancer and other diseases of
the blood will be sent free.

A Forgotten Craft.

It was probably known to nearly
every Roman citizen how the mortar
which cemented the stones of their
buildings was made—just as it is
known to the majority of people that
the principal ingredient of English
mortar is street scrapings, says a Lon-
don newspaper. But, the knowledge
being general, nobody wrote it down,
and in time, as the Romans shifted
their building upon slaves and foreigners,
the recipe of their mortar was lost.
So far it has not been discovered,
though the secret of it would be im-
mensely valuable, for the cement out-
lasts the very stones which it joins.
