A. E. Voorhies, publisher of the Grants Pass Courier, was in Medford Tuesday. He is a great novelty fellow and his latest notion is a motor bicycle, one of which he has purchased and which he rode to Medford on Tuesday—at the rate of twenty miles an hour—until his tire went to pieces, near Central Point—and he pushed the machine to Medford—at a four-mile pace—for repairs.

J. E. Bodge, Judge M. Pardin and "Billie" Isaacs were down at Rogue river Sunday having a good time catching fish. Mr. Isaacs, the acknowledged king fisherman of the Rogue river valley, is said to have outdone all previous records upon this occasion, having caught a thirteen pound chinook salmon with a six and a half ounce rod, a number eight fly and a very light line. The time required in landing the fish was just one hour and twenty minutes and it required all of "Billie's" skill to do it in that time.

Mr. and Mrs. J. S. Weeks and two children and Mr. and Mrs. E. S. Smith and two children, of Portland, returned last week from a trip to Crater Lake. They were also loud in their declarations that Medford is the proper and only correct starting point for the lake, and having been over the two routes they are qualified to speak intelligently regarding the matter.

Mrs. C. R. Ray, of Gold Hill, was in the city this week. The lady informs us that the doctor and the whole family have moved from Gold Hill to the dam, near Toio, where they will reside, for a time at least. Mrs. Ray is desirous of renting residence property in Medford for occupancy for herself and children during the next school year. Their oldest daughter will attend school at St. Helen's Hall, Portland, and the three younger children will attend the Medford high school.

Dr. and Mrs. E. E. Emmerson returned Tuesday from their summer's stay at their homestead, on the north fork of Big Butte. The doctor has erected a house and barn and has about one and a half acres of land cleared and ready for the plow and expects to soon plant a good part of it to strawberries. That fruit, he says, grows finely in that altitude and of a superior flavor and size. These people will remain in Medford for some months and the doctor will practice his profession, that of optician and eye specialist.

Dr. Edward H. Angle, of St. Louis, Mo., arrived in Medford Saturday for a few days' visit with his uncle, Wm. Angle, and family. The doctor is making a tour of the coast country. He is very favorably impressed with this particular part of the coast, more so than any other he had seen. He visited several of our most prominent orchards and took a great many views of them. The doctor is a splendid fellow to meet and one whom we naturally presume has gathered unto himself much and many of the chattels of earth. When he has done with pills and night calls he can find no better place to invent his fruits of toil than right here in the great Rogue river valley, with a climate prepared especially for a good, healthy time, 365 days in every year.

Foreign Mission Services.

The members of the German Lutheran churches and Sunday schools of Medford and Lake creek will join in foreign mission services in the Neldermeyer grove, on Bear creek, two miles north of Medford on Sunday afternoon, Aug. 31st at 2 o'clock.

The services will be conducted in the grove by Rev. B. Merz, of Cleveland, Douglas County, assisted by Rev. F. Sack. The sermon will be by Rev. Merz and will be in German, but if there be any number of people present who do not understand German the reverend gentleman will talk to them in English. There will also be singing by sixty Sunday school children, and declaiming by several of them. The exercises will close with a dialogue between Martha Schultz, Mary Demmer and Augusta Peck. These sermons have promise of being very interesting and it is expected there will be a large attendance. An invitation is extended to all to be present.

The Source of Complexion.

According to Dr. York, offspring always takes the complexion from the father; hence, if a father of a negro baby has any white blood in his veins, the child at birth will be nearly as white as a Caucasian. On the other hand, the child of a white mother and a black father will, after a month's time, be nearly as black as the full blooded negro.—London Standard.

How Like a Man?

Mrs. Nocknoodle—Oh, Norris, if you would always be as good and gentle and kind as you are at this moment, how happy we might be!

Mr. Nocknoodle (losing his temper instantly and bellowing at the top of his voice)—Do you mean to say, madam, that I am not always as good and kind as I am at this moment?—Chicago Tribune.

Hope For the Future.

"Come, come!" cried the candidate's friend, "don't be disheartened so easily."

The first shipment of wheat from Chicago via the lakes was made in 1838. The shipment consisted of seventy-eight bushels.

The greatest rest comes from freedom of mind. We can keep our minds free if we will but learn how. Let them take up one thing at a time and be content.

A GOOD MILLER,

that selects his wheat from the fine sheaves that are cut, must make good flour, and good flour for your daily bread is the staff of life. There is no flour on the market that is ground from better wheat or by a better process than the Medford. It makes white, light and deliciously flavored bread, and is the favorite with housewives everywhere.
