STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of strength to carry on the struggle he turns his store over to another.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women. 'About ten years ago I began to be afflicted with stomach trouble, so often that I write Mr. Wm. Walters, of Antrim, Mo. 'Who warm weather I grew worse, until it would throw me into a cramping chill. 'This troubled me so often that I sometimes thought my end had come. I tried many remedies, but they gave only temporary relief. 'In November, 1899, thought I would try Doctor Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the one left. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer, and the credit all belongs to your 'Golden Medical Discovery'. I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered. 'If any doubt the above statement let them address me, and I will take great pleasure in answering.' 'Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

BLOCKADE WILL BE CALLED OFF

FORT SAN CARLOS REPORTED TO HAVE BEEN BLOWN UP BY GERMANS.

Puerto, Cabell, Jan. 26.—(Special.)—Persons in close touch with the blockading force say that the Germans have captured Fort San Carlos, which commands the entrance to Lake Maracaibo, and that the fort has been blown up. They also report that the German gunboat Panther has been disabled and is being towed by the German cruiser Falke to Willemstad, Curacao.

Washington, Jan. 26.—The state department has come to an agreement with Great Britain in the German Venezuelan crisis by which Germany has been forced to abandon its fight against the Monroe doctrine, and the state department has surrendered to Great Britain the American principle that there was nothing to arbitrate on the question of the Alaskan boundary.

It is by reason of this move of tremendous significance and interest in the international chess board that the state department was enabled to say this morning that Minister Bowen would at an early date be able to solve the grave South American situation.

The intimation is that Minister Bowen has received from Germany an answer to the proposition that the blockade be raised as a condition precedent to the settlement of the dispute between the republic and Germany.

In other words, Germany has backed down for two reasons: First, the crystallized American sentiment in congress that the state department should have an explanation from Germany.

Second, the success of the state department in buying the good offices of Great Britain for the isolation of Germany, the price paid being the surrender to Great Britain and Canada on the Alaska boundary question.

It is now extremely probable that within a short time Great Britain will withdraw her protest, which was filed with that of Germany at the state department, against the inconsistency of the United States' policy of the closed door in the Philippines and the open door in China.

LOCKADE WILL BE RAISED. Rome, Jan. 26.—The Patrie asserts that the Venezuelan blockade will be raised today.

Willemstad, Jan. 26.—President Castro's troops have been defeated by the Venezuelan revolutionists in an important battle about forty miles west of Puerto Cabello. Their commanding general was captured by the revolutionists.

GERMANY FEELS AGGRIEVED. Berlin, Jan. 24.—Foreign office representatives in conversation with a correspondent referred in aggrieved tones to the American press comments upon the bombardment of Fort San Carlos. One official said: 'In view of Commodore Scheder's report, Germany has a just right to feel indignant at the fact that a portion of the American press is aroused over the false statements of what occurred at San Carlos, without awaiting the facts in the case, and thereupon attacking a friendly power.'

The Panther's action, the official report shows, was strictly within the limits of international law. She was proceeding past the fort to enter the lagoon of Maracaibo in order to prevent the importation of contraband articles from Colombia, and in doing so was fired upon. The Panther, of course, answered the fire, as she was entitled to do. The attack was not made by us, but by the Venezuelan fort.

'We are quite unable to see why any neutral should express disapproval because the Panther was forced to reply, or because our vessels afterward leveled the fort, since it was a hindrance to an effective blockade. 'The assumption that we want to prevent a settlement of the matter at Washington and the speedy raising of the blockade is wholly mistaken. We want the blockade to be raised just as soon as the powers have adequate guarantees in hand that their claims will be met. We do not even ask for the immediate payment of money, but only for guarantees. We cannot raise the blockade empty handed, without any form of guarantee.'

An official dispatch from Willemstad, Curacao, dated January 23, says: 'The Vineta arrived in the gulf of Maracaibo, January 21, and approached within 7300 yards of the shore. At 11 o'clock she began a bombardment, which continued with an hour of intermission until 3 p. m. The Panther, which was standing by, observed that forty-four shells took effect.'

VOLCANIC DISTURBANCES ARE REPORTED IN MEXICO. City of Mexico, Jan. 26.—News has been received here by the minister of the interior of earthquake and volcanic disturbances near Urique, state of Chihuahua. Nantanana mountain has been riven in twain and the atmosphere is filled with fine volcanic dust.
