LARGE TRACT OF BEAR CREEK FRUIT LAND TO BE PLATTED AND SUBDIVIDED

TO RAISE FOURTEEN APPLES is the great end in view among the orchard men, and experience has shown that Bear Creek bottom land will produce a larger crop, than any other. The large size, rich coloring and perfect quality of the apples raised in the Sutorius orchard, the Bennett orchard and the Merritt orchard are the things which have contributed to the immense returns from same during the last few years. Forty acres of the best Bear Creek orchard land in the right man's hands is equivalent to a guaranteed fortune in a few years. Bearing this in mind, we have offered and will continue to offer at a reasonable price to purchasers, in tracts to suit. Call and inspect the property. Experts pronounce it equal to anything now in orchard or offered for sale.

160 Acres of the old Watson Holdings on Bear Creek

EAST SUFFERS FROM FLOODS

DISTRICT ABOUT PITTSBURG AND ALLEGHANY IS UNDER MANY FEET OF WATER.

Pittsburg, Pa., March 2.—With every tributary of the Allegheny and Monongahela rivers emptying swirling torrents into the banks of these two streams and rushing down to the point where they converge to form the Ohio, Pittsburg was given a visitation yesterday which forced hundreds of families to either abandon their homes or seek escape from the water in the upper stories while mud and water dispensed destruction and discomfort below. Mills in the lowlying levels throughout the country, numbering between fifty and sixty, were flooded, and 25,500 men are thrown out of work temporarily.

Soon after daylight the water took possession of the point districts in Pittsburg and came up almost to Penn avenue. All of lower Allegheny felt the severest effects of the high water and practically every house between Isabella street and the river, from the Ninth street bridge to the Point, have cellars and first floors flooded.

Louisville, Ky., March 2.—The annual spring freshet which yearly does damage to railroads and crops and at times inflicts loss of life has left this season's impression on many parts of the South, after tremendous rains for two days. Accidents directly attributable to the elements have resulted in the death of nine persons and injury to twenty-nine.

In Middleboro, Ky., every house in the lower section of the place was flooded and every merchant suffered damage to stock. The valley of Yellow Creek was flooded for several hours from mountain to mountain.

Near Anderson, Tenn., a cloudburst carried away a quarter of a mile of track on the Nashville, Chattanooga and St. Louis railroad.

A steamer was blown against the Southern railway drawbridge over the Big Bee river in Alabama, sending part of the structure to the bottom.

Landslides occurred in two tunnels on the City Southern railway near Harrison, Tenn. All streams are bank full, the Alabama river rising nineteen feet at Millstead, near Montgomery, during the night. Flood warnings were sent out by the Montgomery weather bureau.

The Mississippi has passed the danger line at several places, but the levees are holding. The Ohio is rising.

KILLS HIS PARTNER AND THEN SUICIDES

BELIEVED HE WAS SWINDLED OUT OF HIS MONEY.

San Francisco, March 2.—With full deliberation Joseph R. Ritz Saturday evening shot and killed his partner, M. J. Morrison, and himself and wounded in the hip Miss Lou Yarnell, a stenographer. Morrison and Ritz were real estate brokers, and the shooting occurred in their office at room 4, 28 Montgomery street.

The quarrel started on a dispute over a payment of \$10, but this was only a means of provocation or pretext, for Ritz came to the office with a pistol in his pocket, determined to kill Morrison, who he believed had cheated him when he bought into the business not long ago. Two letters written by Ritz before he committed the crime explain his purpose and his reasons therefor. He meant to kill Morrison and perhaps Miss Yarnell.

The shooting occurred shortly before 7 o'clock. Mrs. Morrison was present when Ritz came in and Miss Yarnell was seated at her desk. Mrs. Morrison was accompanied by her little girl.

JEFFRIES MATCHED TO FIGHT CORBETT IN SAN FRANCISCO.

New York, March 2.—James J. Corbett and James J. Jeffries were matched last night to meet in a return match for the world's heavyweight championship. The fight will take place in California some time during June or July, on a date to be selected later. The fighters decided not to sign articles on Sunday, and this detail was put off until next Thursday. The fight will go to the California club offering the best inducements.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered for six months from a frightful running sore on his leg; but writes that Bucklen's Aches and Pains cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cures guaranteed. Only 25 cts. Sold by Chas. Strang, druggist.

THE PRESIDENT STANDS FIRM

REPLIES TO HIS CRITICS—RACE OR CREED NO BAR TO OFFICE.

Atlanta, Ga., March 2.—A letter from President Roosevelt to the editor of the Constitution in reply to a request for an expression concerning the recent letter from Harry Stillwell Edwards of Macon, in which Edwards made a statement of the president's position in the matter of federal appointments in the South, holding that the president had been misunderstood. President Roosevelt says in part:

"In making appointments I have sought to consider the feeling of the people of each locality so far as I could consistently do so, without sacrificing principle. The prime tests I have applied have been those of character, fitness and ability.

"I certainly will not treat mere color as a permanent bar to holding office, any more than I could so treat creed or birthplace—always provided that in other respects the applicant or incumbent is a worthy and well-behaved American citizen. Just as little will I treat it as conferring a right to hold office. I have scant sympathy with the man of mere theory, who refuses to face facts; but do you not think that in the long run it is safer for everybody if we act on the motto, 'All men up' rather than on that of 'Some men down'?

"I have consulted freely with my own senators and congressmen as to the character and capacity of any appointees in Georgia concerning whom there was question.

"I may add that the proportion of colored men among these new appointees is only about one in a hundred.

"In view of all these facts I have been surprised and somewhat pained at what seems to me an incomprehensible outcry in the South about my actions—an outcry apparently started in New York for reasons wholly unconnected with the question nominally at issue. I am not in the least angry, and still less will this attitude have the effect of making me swerve one hair's breadth to one side or the other from the course I have marked out—the course I have consistently followed in the past and shall consistently follow in the future."

MINE INSPECTOR REPORTS BIG LOCATION OF COAL.

Tacoma, March 2.—State Mine Inspector Owens, who has just returned from Tenino, reports the most important coal information received in many a day. Four great veins of the coal lie one over the other, though widely apart, the first a few feet below the surface, and the fourth vein at a depth of 240 feet, and all imbedded in unbroken sandstone similar to that for which Tenino quarries are famous.

MANY PROSPECTORS ARE HEADING FOR NEW DIGGINGS.

Seattle, Wash., March 2.—Telegraphic advices from Dawson City say that the Tanana fever has struck the miners in various creeks in the Klondike. Dominion Gold Run and Sulphur creeks have already contributed a large number of miners to swell the advance army which has left during the past few weeks. The trail to Circle is reported in good shape by Mail Carrier Eli Verriau.

SHAMROCK III IS READY TO BE LAUNCHED.

Glasgow, March 2.—The Shamrock III is now ready for launching. Raring accidents she will be launched March 17. The Countess of Shaftesbury breaking the traditional bottle of champagne on the challenger's brow. The yacht's lines and workmanship are the admiration of all privileged to see the challenger.

The bulk of the defender's trials will be sailed off the Isle of Wight. The King will aid in at least one.

WHOLESALE CASE OF POISONING IN PASADENA.

Pasadena, Cal., March 2.—A wholesale case of ptomaine poisoning occurred at the home of J. S. Cravens a few days ago and caused considerable excitement. Mrs. Cravens gave a dinner in which a number of society people were bidden. During the last course half a dozen of the ladies were taken seriously ill and had to be carried to beds. A doctor and a number of trained nurses were summoned, and it was only with the utmost difficulty that their lives were saved.

Well Again.

The many friends of John Blout will be pleased to learn that he has entirely recovered from his attack of rheumatism. Chamberlain's Pain Balm cured him after the best doctors in the town (Monon, Ind.) had failed to give relief. The prompt relief from pain which this liniment affords is alone worth any times its cost. For sale by Chas. Strang.

Ferryboats in Collision.

New York—There was a collision in the North river Saturday between the ferryboats New Jersey and Ridgewood, in which two passengers were badly hurt. The Ridgewood was crowded with passengers and a number of women became hysterical.

Would Accept Joint Statehood.

Phoenix, A. T.—The upper house of the territorial legislature of Arizona has adopted joint resolutions in favor of accepting joint statehood with New Mexico if it should prove that it is the purpose and intent of congress to refuse them admission as separate states.

HELD AT BAY BY A WOMAN

SHERIFF'S WIFE SECURES REVOLVER AND RUSHES TO JAIL, PREVENTING OUTBREAK.

Olympia, Wash., March 2.—Christ Benson, a grand larceny prisoner in the county jail, yesterday afternoon killed Jailer David Morrell and made his escape. Benson left open the inner and outer doors of the jail. Mrs. Jessie Mills, wife of the sheriff, arrived on the scene with a revolver in time to prevent several prisoners from gaining their liberty.

Benson, who was considered a quiet prisoner, was placed in an anteroom off the main entrance of the jail. In the night Benson wrenched loose a piece of lead drain pipe and concealed it in his clothing. About 2 o'clock yesterday afternoon the prisoners were given their midday meal in the main corridor and then Jailer Morrell started to lock all but Benson and a trusty named Kahla into the steel tank. He had his back to Benson and was locking the door when Benson struck him on the head.

The door of the corridor was open and Benson ran out into the main entrance with the jailer in pursuit. Benson failed to get the outer door open and the two men clinched in the main entrance. It is supposed that Morrell drew his revolver and that Benson succeeded in getting it away.

There was a desperate fight, in which Morrell was struck on the head four times with the pipe, shot in the body twice and through the head once and left lying dead on the floor. Benson got the outer door open and covered with blood, ran up one of the main residence streets of the town and disappeared in the brush.

Kahla, who had been scared into hiding, ran to the sheriff's home near by, but found only the sheriff's wife, Mrs. Mills, however, secured a revolver and reached the jail in time to intercept the tank prisoners on the doorstep, where they were held by her until an officer appeared.

THE PRINCESS OF SAXONY IS WITH HER MOTHER

Vienna, March 2.—Former Crown Princess of Saxony has arrived at Linz, where she met her mother. She will stay at her mother's chateau at Linz, until after the birth of her child.

Colds Are Dangerous.

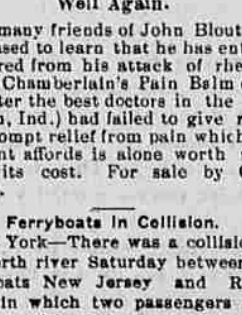

How often we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency toward pneumonia. It always cures and is pleasant to take. Sold by Chas. Strang.
