J. G. VAN DYKE & CO.

J. H. Butler, Funeral Director, with Medford Furniture Co., House-furnishers and Undertakers. Day Phone Main 353. Night Phone Main 251

CITY HAPPENINGS.

—J. T. Healy, a gentleman who came to Medford a couple of months ago, is making extensive preparations for the establishing of a first-class sawmill plant up Rogue river way. He has secured a mill site on the David Pence place, one and a half miles up Elk creek from where that creek empties into Rogue river. There is said to be a large body of good timber in that locality which is of easy access to the mill. This being the case there is no good reason why a mill there located should not be a money making investment. Mr. Healy now has timber for the foundation cut for the foundation and frame work of the mill. The mill will be operated by steam power. The mill machinery has been purchased and as soon as it can be gotten on the ground and placed the saw will commence doing business, which will probably be about the middle of July. This mill will be about thirty miles distance from Medford, and if so be that the Medford-Jacksonville shortline railroad should be extended to Eagle Point, as has been intimated it would be, it is not improbable that an effort will be made to extend it to this timber. Mr. Healy is seemingly a man of good business capacity and THE MAIL feels positive that he will succeed in the project he has undertaken. If he does it will not only be good for the people owning land in the vicinity of the mill but it will be good for Medford as it is more than probable manufacturing establishments will be built here to handle the products of the mill.

—We will pay highest market price for wool and mohair. WHITE & TROWBRIDGE, Real Estate Agents, Medford, Oregon.

—Monday the baseball fans of Medford were a remarkably hoarse lot of people, due to the exercise they gave their vocal organs at Jacksonville the day before. It was a great game and Medford won it by a score of 8 to 9. Jacksonville went to the bat first but couldn't find Hutton's curves and Medford got one man over the plate in their half. The second inning it commenced to look bad for Medford. D. Donegan hit the ball on the trade mark and sent it over the left field fence with two men on bases. Three scores resulted from this. In the fourth Whalen did the same thing, but there was nobody on bases. In the sixth Jacksonville got a couple of more runs. Medford had annexed one in the second and one in the sixth, the score at the end of the sixth inning being 6 to 3 in Jacksonville's favor. Jacksonville got another score in the seventh and Medford took a batting rally in their half and three men made the circuit. The eighth was barren of runs for either side. In their half of the ninth Jacksonville negotiated a run and the score was 8 to 6. It didn't look too good to Medford, but the boys fell onto Donegan's curves and swatted them for a total of three scores, winning the game. When Rothermal came around with that winning run there was noise enough for four times as big a crowd, and right there was where the Medford fans cracked their vocal organs.

—W. L. Orr & Co. have just received a shipment of summer shoes, including a complete line of ladies', children's and gents' cloth shoes—just the thing for warm weather. Call and examine them. "Our prices are right and we will treat you white." W. L. Orr & Co.

—J. S. Barnett, of Central Point, was in Medford Tuesday upon business. Mr. Barnett, together with his brother, E. H. Barnett, has established a nursery, one and a quarter miles east and north of Central Point. They have about six acres planted to nursery stock—in all about 60,000 trees. They are of the standard varieties, such as Newton, Spitzenburg and Bennet's Seedling apples, (the latter variety trade marked) and in pears they have the Comice, Beurre Bosc, Winter Nellis and Bartlett. Aside from these varieties they

have others suitable for a family orchard. All their trees are year-old tops on three-year roots. Mr. J. S. Barnett is a practical nurseryman, formerly engaged in the business in Oklahoma, and he is promising the fruit growers of this Valley the very best stock procurable.

—For sale—Two good telephone instruments and about one half mile of wire. These telephones are in first-class working order. Would be just the thing for a couple of farmers to put up who wish to be in quick communication with each other. Inquire at THE MAIL office. 21-4t.

—Medford's barbershops are nothing if not enterprising, besides this they watch each other closely, and if one shop installs something new the other fellows try to get the same thing or a little better. The consequence is that customers find convenience and service in Medford's barber parlors equal to anything they find in the city. This is much to the good of the customers and the barbers seem to enjoy it. Last week Bates Bros put in a fine plate glass mirror the full length of the shop upon which they are priding themselves considerably. This mirror has been in contemplation ever since they moved to their new quarters, but only lately arrived. On the other hand Fred Luy has put in a fourth chair to accommodate his growing trade, and parties who have kept track of these various improvements are wondering what the next move will be.

—Wanted—Competent man to attend to garden and flowers, also the chores. Inquire at E. J. DE HART, Oakdale Avenue, Medford. Also a girl to do second girl's work. No cooking. 1-4

—The ladies of the Women's club, of Grants Pass, are preparing an elaborate art exhibit for the carnival at that place on June 17th, 18th and 19th, and the superintendent of the art department, Mrs. W. C. Hale, has written a friend in Medford asking that Medford ladies help them out in this exhibit. This aid would undoubtedly be readily forthcoming if some lady from among the people here, in whom all have confidence, could be put in charge of the exhibit from this place, but it could hardly be expected that they would want their highly treasured art collections to be placed in the hands of strangers, even though it be but for a short time. Many Medford ladies have expressed a willingness to assist our neighbor town in this matter, and they no doubt would do so could the arrangement outlined above be carried out.

—For rent—A large room in the White-Thomas building, 2d floor, suitable for lodges, or manufacturing establishment. Call on J. F. White, or P. Rittner, at the Business College.

—J. H. Wrisley came down from the Olson mills last week. He reports that Mr. Olson has on the yards fully 300,000 feet of as good lumber as was ever turned out of any mill in Southern Oregon. Mr. Olson runs his sawmill during the day time and his planer at night. Mr. Wrisley also reports that Wm. Linsley got one of his hands quite seriously mixed up with an edging saw in the Olson mill recently, and as a result he has been laid up for several days. Rattlesnakes, says Mr. Wrisley, are plentiful in that locality and the warm days are causing them to be alarmingly noticeable—says they are, seemingly, more numerous than ever before.

—Wells & Shearer have the best equipped outfit for draying and household moving in Medford. All kinds of wood for sale—full measure and prompt delivery.

—The people of Trail are making preparations to celebrate the 4th of July in proper style, at a point on Rogue river three miles above that point. There will be a grand parade in

the forenoon with Simpson Wilson as Marshal of the Day, assisted by J. L. Ragsdale, and led by Pence's string band. At the grounds the Decoration of Independence will be read by Miss Broad and Supt. P. H. Dailey will deliver the oration. In the afternoon there will be horse races, foot races and various other sports. At 3 o'clock dancing will commence and continue until every one has enough.

—Four thousand rolls of wall paper—the very latest patterns—and at prices that are within reach of all—received this week by Weeks & Baker, the West Side furniture dealers.

—Prof. Boffa's musical concert on Friday evening last was a musical event which deserved a much larger attendance than it received. The program rendered was a treat to those musically inclined. In little Bertina Boffa Medford has a child violinist, who can be surpassed nowhere. She plays with a depth of feeling and execution which violinists of much larger experience and reputation might well be glad to do. Mme. Boffa's singing also was worth the price of admission. She has a clear, ringing, highly cultivated voice, which she controls perfectly.

—Girl Wanted—For general household work; good wages; steady work. Inquire at THE MAIL office.

—The rock crusher, recently purchased by the county, has been put to work on the edge of the desert, to the north of that sticky strip of road east and north of Medford. Some few years ago a rock road was built for a distance of fully a mile and a half out that way, but it has never been used because of the fact that it was too rough to drive over. It is the intention now to cover this piece of road with crushed rock—which ought to make this one of the best thoroughfares in the county.

—All kinds of New Home, Domestic, Wheeler & Wilson and Davis sewing machines at White's sewing machine store, West Side, Medford. Prices the lowest.

—Young Earl Armstrong, whose disappearance from home last week, created some excitement, went as far as Steinman, where he secured a position, and then notified his parents of his whereabouts. He returned home with his father on Saturday evening, after some extra clothes, and has since gone back to work. The boy had no reason for leaving home, but simply took a notion to strike out for himself.

—For Sale—A span of black horses; well matched; seven years old; weight, 1100 pounds each; good drivers and workers. Inquire of J. C. PENDLETON, Table Rock.

—In spite of counter attractions in the way of election day and the visit of the German agriculturists, the attendance at the Queen Carnival Ball on Monday night was very good. The total receipts were \$33, and the expenses \$23 leaving a balance of \$10, which was duly invested in votes for Miss Constance Rothermal, Medford's candidate for Queen of the Woodmen Carnival.

MEDFORD, OREGON

—G. L. Epps, who has been assistant electrician and engineer with the Medford Water and Light Company, has severed his relations with this company and will leave the latter part of this week or the first of next for St. Johns, Oregon, where he will have charge of an electric plant which is being put in to operate a large sawmill. St. Johns is one of Portland's suburban towns. Mr. Epps is a first-class workman and will have little trouble in "holding down" his new job.

—For sale—Beurre Bosc pear cuttings, for grafting. Inquire at the Clay-Meader orchards, or address them at Phoenix.

—Miss Kendall, by invitation, rendered the German Lutheran church people valuable services last Sunday, by officiating as organist. None of the members of the German congregation are musicians and Miss Kendall has consented to assist them until some of the young ladies of the church shall have been taught to play the organ. Rev. Sack and his people are feeling very grateful to Miss Kendall for her kindness.

—Pair of farm horses for sale, or to trade for cows. Apply to W. H. BEAL, Central Point.

—J. B. Smith, a recent arrival from Thomas City, Oklahoma, has purchased the James Helms property in Talent, also some Bear creek farm lands, near that place. Mr. Smith has commenced the work of remodeling the buildings on his town property, and as soon as he gets it in good shape for occupancy he will be good for his family. Mr. Smith is a hustler and is seemingly made up of the material which always succeeds in his land of opportunities.

—Just received a carload of sash and doors, and screen doors. J. H. CHAMBERS, Medford.

—A MAIL reporter was informed Tuesday by a gentleman, who had but lately returned from Klamath county, that it was reported on the streets of Klamath Falls, that the Pelican Bay lodge at the head of Klamath lake had been sold for \$6,000. The inference drawn from this sale was that the party buying it knew that the railroad now building from Lairds station, California, would go up on the west side of Klamath lake, in which event, Pelican would be a town of good size.

—For sale or rent—Good residence, two lots, house nearly new, six rooms. W. T. YORK, Medford.

—Hubbard Bros. received a carload of mowers and rakes Wednesday. This is the second car they have received within the past two months. Last year they shipped in three carloads of these implements, but the prospect of a light hay crop makes the demand some what slow this year.

—Why not buy your kodak supplies where you can get instructions for using them? The Elite Studio.

—H. A. Perkins, of Tolo, who put a notice in the MAIL a couple of weeks ago, that he had a hay baler for sale, came in Wednesday and ordered the baler to a gentleman from the Applegate country. Mr. Perkins thinks that he has served his time at baling hay and will give some one else a chance.

—There is great need of rain in Southern Oregon. The grain and hay crops are bound to short, even if rain should come within the next few days. This especially applies to the uplands. On the bottom lands along Bear creek and Rogue river the crops are fairly good and will undoubtedly mature fairly well, but a little rain would prove beneficial even to them. This is an off year everywhere as to weather. In Montana recent blizzards have killed thousands of sheep; in Kansas and Missouri the rain and floods are destroying property and many lives are being lost, and in many other localities there are all kinds of weather manouvers.

—For trade—Nearly new organ for good, heavy back, or light wagon. O. B. GAY.

—The Sunday school of the Christian church, of this place, will unite with the Ashland Sunday school in a picnic to be held at Rose's grove near Phoenix, on Friday of this week. A good time is expected. A meeting of the Jackson County Christian Corporation will also occur at that time. Parents of the children are also invited to attend.

—Fine line of linoleums, matting, shades and curtain fixtures. WEEKS & BAKER.

—Robert A. Nevin, an elderly gentleman, who has been stopping in Medford since last fall, was taken suddenly ill on the street last Saturday, since which time he has been very low, but he is now somewhat improved. Dr. Cameron is in attendance.

—Window glass, Building paper, felt paper and carpet lining. WEEKS & BAKER.

—L. E. Stone, a well known miner of Southern Oregon, and Mrs. Diana Loudon (nee Wolf) were married at Jacksonville on Tuesday, and took the north bound train that evening for a short honeymoon trip.

—Horses for sale. Inquire of CLARE MOREY, Medford.

—On next Saturday evening June, 8th, Medford lodge No. 421, F. U. of A., will elect officers. All members are requested to be present.

—Rev. Sack will hold services in the Lake Creek school house next Sunday, at the usual hour.
