## LARGE TRACT OF BEAR CREEK FRUIT LAND TO BE PLATTED AND SUBDIVIDED

TO RAISE FOUR-TIER APPLES is the great end in view among the orchardmen, and experience has shown that Bear Creek bottom land will produce a larger proportion than any other. The large size, rich coloring and perfect quality of the apples raised in the Norcross orchard, the Bennett orchard and the Merritt orchard are the things which have contributed to the immense returns from same during the last few years. Forty acres of the Best Bear Creek Orchard Land in the right man's hands is equivalent to a guaranteed fortune in a few years. Bearing this in mind, we have bonded and will subdivide

160 Acres of the old Watson Holdings on Bear Creek which we will offer at a reasonable price to purchasers, in tracts to suit. Call and inspect the property. Experts' pronouncement is equal to anything now in orchard or offered for sale.

HOLMES BROS. CENTRAL POINT

## THE FARMER WITH AN EYE FOR BUSINESS

### PURCHASES

the McCormick whenever he wants a binder, reaper, mower, rake, corn binder, husker and shredder, or other harvesting machine, because he prefers machines that meet his requirements—machines that give him satisfaction—machines that are worth every dollar that he pays for them.

It will help your farming business to read the McCormick book, "A MODEL MACHINE," which is mailed free.

## A LITTLE OF EVERYTHING.

Big guns cost about \$900 per ton to construct.

The world uses 180,000 millions of matches a year.

Man is said to be subject to 1,212 different diseases.

Only one man in 203 is more than 6 feet in height.

Canada has 100,000 Indians; the United States 270,000.

A silk thread is three times as strong as a flaxen one of the same thickness.

The first shock of earthquake recorded in America was in New York in 1868.

There are fewer suicides in Ireland than in any other country and most in Saxony.

A woman will buy something she doesn't need and then economize by putting more hot water in her husband's coffee.

The 850,000,000 eggs produced yearly in America would, if laid end to end, girdle the earth twelve times at the equator.

The largest geyser in the world is at Rotomahana, in New Zealand. Its area is just an acre, and its spouts rise to 300 feet.

You can never tell how a girl looks at the breakfast table by the way she looks when she sits in the porch in the evening.

Beautifully clean streets and clear air have been obtained at Mandalay by sprinkling the roads with oil instead of water.

The rush for the arctic gold fields is well on. Three steamers, carrying a thousand gold seekers, left Seattle Monday night for Nome.

The average young woman who goes aneling for a husband can't tell the difference between a nibble and a bite, hence so many breach of promise suits.

Chinese coffins are made of timber 8 inches thick. It is calculated, therefore, that over 8,000,000 feet of timber are utilized yearly for coffins in China.

A wine trust has been formed in Spain for the purpose of exploiting the United States Market. Evidently we pounded more ideas than one into the Spaniard.

The time was when everybody in Minnesota said it would never be a hog estate. St. Paul is now packing more hogs than Cincinnati, once known as Porkopolis.

This western hemisphere has plenty of fire vents. North America has twenty volcanoes, Central America twenty five and South America thirty-seven.

Clement, the assistant executioner in Paris, has just died. He was a curious character and was greatly indignant at the increasing number of reprieves in recent years.

A Boston man has been sent to jail for six months for trying to beat a street car company out of a nickel. If he had succeeded, he would probably have received a death sentence.

John B. McGhee, in jail at Rome, Georgia, charged with the murder of F. L. Miller, a confederate veteran, killed himself in his cell, literally cutting his throat with a shoestring.

If the Windy City objects to the name Chicago because the word is Indian for skunk why not call itself "Chio-hog-o," which does not mean skunk, but is appropriate, nevertheless.

The word "garotte," the name of the Spanish instrument of execution, simply means stick. This is because originally the cord round the neck was twisted by means of a stick.

China, according to the census just completed, has a population of

428,000,000. The inhabitants of Manchuria, Mongolia, Thibet and Turkestan were not counted, but their number was estimated.

In the recent automobile race between Paris and Bordeaux, M. Renault broke the record, covering the 343 miles in 8 hours and 27 minutes. On one stretch he ran his machine eighty-eight miles in one hour.

An examining physician of a boy's reform school in Maryland says if you cannot close your eyes and touch the tip of your nose with your finger quickly you are crazy or weak-minded. Thank heaven! We have just made the trial and have discovered our sanity.

The terrible extent of the recent Missouri River flood may be realized from the statement that it spread over seventeen square miles of Kansas City and its suburbs. Then the water reached a height of thirty feet and seven inches, four feet higher than before known.

A big Canadian banking institution has failed with liabilities placed at ten million dollars. The firm has given out the statement that all creditors will be paid in full. This statement with ten million dollars in debt is not very encouraging to the many depositors of the institution.

General Funston has submitted a preliminary report of the condition of the Eskimos of Alaska, who were reported to be in a starving condition. He states that he will immediately take steps to ascertain through army officers in Alaska the extent of the destitution prevailing. He contemplates visiting Alaska himself, where he will make a further inquiry into the matter.

He recommends a special agent of the government, to be placed in general control of the Eskimos, to hold a relation similar to that of the Indian agents to the Indians in the United States.

Mrs. Grant W. Chamberlain, of Arizona, is a wonderful horsewoman and very skillful in the round-up. She can handle a lariat as good as a man. Using a 50-foot rope, Mrs. Chamberlain can capture a racing broncho with astounding certainty and ease. In a stampede she is as cool as the best, and few are quicker and surer with the rope than she.

She dresses for her work in a blouse and bloomers, and rides astride. Born in Michigan, Mrs. Chamberlain has spent the last eight years in the West. Her husband has been coaching her for years, but some of the most remarkable swings she invented herself.

Here is a story that General Miles once told on himself: "It was during our pursuit of Chief Joseph," said the General. "One exceedingly stormy night we encountered on our march in the Bearpaw mountains a few woodchoppers' cabins. The woodsmen were not inclined to be very hospitable, but we finally induced them to share with us the protection their huts afforded. They consented, however, only upon condition that they should not under any circumstances be compelled to give up their beds. It fell to my lot to share the bunk of the boss, a very stern Irishman, who was not delighted with his guest. Hoping to establish an entente cordiale, I said, banteringly, as we were preparing to retire: 'Come now, Patrick; you know you'd be a long time in Ireland before you'd get a chance to sleep with a general.' 'And it's Oi that am thinking,' he instantly retorted, 'that you'd be a long time in Ireland before you'd ever be made a general.'"

Chamberlain's Colic, Cholera and Diarrhoea Remedy

Is everywhere recognized as the one remedy that can always be depended upon and that is pleasant to take. It is especially valuable for summer diarrhoea in children and is undoubtedly the means of saving the lives of a great many children each year. For sale by Chas. Straub.

## Klamath County News.

From the Klamath Falls Express.

Richard S. Smith, of Klamath Falls, will graduate from the Columbia Law School in 1904. He is a captain of the Columbia foot ball team, and is very popular in the University. Claud Fountain, of the same university, is assistant professor in the department of physics, and is in line of promotion to a chair in that department.

Klamath Falls was visited by a heavy thunder shower Saturday evening. A strong south wind was blowing and the storm commenced with the falling of large hail stones, which lasted some ten minutes, being followed by rain. It quickly passed over and left behind a refreshed atmosphere and dust-settled streets. Three boating parties which were on Lake Ewauna during the time received a benefit. The approach of the storm up the lake was a very pretty sight.

A thirteen-mile ditch leading from Clover creek, a tributary of Spencer creek, to the farm lands at Keno, is a project which Hon. R. A. Emmitt is seriously contemplating. The ditch, if put through, would afford ample water for all the farm lands between Keno and Klamath Falls north of the river and much of the hill lands besides, as it could be brought along the mountain side at an elevation of 150 feet above the valley. Mr. Emmitt has been over the ground with a surveyor's instrument and says the ditch is easy of construction. No flume work will be required, and he thinks that at last he sees his way clear for water for his 1000-acre farm.

It is rumored that the big Hartory Ranch has been sold. We were unable to obtain any particulars. The ranch is a very valuable property and is situated about four miles below Merrill. It contains about 3000 acres and is very near all under the little Klamath irrigation ditch.

The people of Alkali valley near Dairy believe that they can irrigate their land from artesian wells. They are getting up a subscription among the ranchers to procure necessary funds to bore one well to demonstrate what can be done. Chas. McCumber has headed the list with \$100. Klamath county is certainly wide awake and is coming to the front fast.

Miss Alice A. Applegate has just received a letter from E. B. Bryan, General Superintendent of Education for the Philippine Islands, dated Manila, P. I., April 22, 1903, appointing her a teacher in the public schools of the Philippine Islands, subject to assignment of General Superintendent. Appointees are required to serve the Bureau of Education for a period of at least two years from date of their arrival in Manila unless released by the General Superintendent on account of sickness or other cause. If Miss Applegate accepts the position she will have to leave San Francisco early in July. Miss Applegate is a native of Klamath county, the daughter of Mr. and Mrs. Ivan D. Applegate. She has an enviable record as an instructor. Graduating from Monmouth College, she served as critic teacher in the Ashland Normal and as principal for one year of the Klamath Falls schools. The past year she has taught at Lakeview. We all can feel a just pride in the honor shown Miss Applegate, yet we are selfish enough to feel regret at the loss to our town of one of its brightest teachers. Morey Applegate, a brother of Miss Alice, is now in the Philippines collecting an exhibit for the St. Louis Fair.
