—M. F. Parker—"I acquired this swelled protuberance in the ordinary course of business. No, the other fellow don't look any worse than I do, fact is, there wasn't any other fellow. I was helping a man but up some rafters on a building—just helping him for fun, you know—and had walked out on the plate to steady a pair of rafters we were putting up. In sitting down on the plate I placed my hand on a rafter already in position, to steady myself, and the timber broke in two under my hand. Naturally I pitched forward and went head first to the ground—about ten feet. My nose, being fairly good sized, struck the earth first, and sustained the principal part of the damage. I don't mind it very much; but it does make me mad to see you fellows grin in that sarcastic way when I tell you how I did it."

—Manuel Robles, the little Filipino mascot of the 24 Oregon regiment, will delight you with his native songs and dances at the Indian Hand Concert, June 26th. Don't miss it.

—These columns last week printed an item regarding the new rock crusher, which the county has recently purchased. The figures we gave were all right, but we should have said that the amount of rock crushed was for an hour's run and not a day's run, as printed. W. M. Smith, the road supervisor in the district in which the crusher is working, states that on Monday the machine crushed between sixty and

seventy tons of rock, and that it has crushed not less than fifty tons a day since it has been running. Mr. Smith weighed a ton of rock Monday and it required just nine minutes to put it through the crusher. He considers the crusher the best investment the county ever made.

—W. L. Orr & Co. have a full and up-to-date stock of shoes, for men, women, or children. All kinds and all prices. From \$1.25 to \$5.00. Call and examine our stock, whether you make a purchase or not, and be satisfied that we can save you money on shoes as well as groceries. W. L. Orr & Co.

—The changes in the Rogue River Creamery have been completed, and it now is about as convenient a butter making establishment as there is anywhere. The amount of cream brought in would surprise any one, who knew anything of the conditions of things in regard to milk and butter in this section a year and a half ago. The output has at least trebled and will continue to grow. While a MAIL reporter was at the creamery on Wednesday for a few minutes over one hundred pounds of cream was brought in, and that was at a slack time of day. About two hundred pounds of butter had been churned that morning and the receiving vat was filling up rapidly for another run.

—Wm. Hoyer, agent for "Our Standard Remedy," a guaranteed cure for all blood, liver and kidney troubles, has left a few boxes of the remedy at Orr & Co's grocery store, where parties wishing to secure it can do so. 25-8t

Besides this Mr. Gray is making a number of other alterations and improvements on the premises. Hereafter Mr. Gray and his family will keep themselves informed of current events by reading THE MAIL.

—C. W. Palm had a narrow escape from a serious injury on Monday from the discharge of a toy pistol in the hands of H. W. Jackson. Jackson was examining the pistol which belonged to a small boy and supposed it was simply one of the kind which explodes a paper cap, when in fact it used a blank cartridge of 22-caliber. He raised the weapon and discharged it and part of the powder struck Palm in the left eye, fortunately not injuring the eye ball, but burning him pretty severely.

—Wells & Shearer have the best equipped outfit for draying and household moving in Medford. All kinds of wood for sale—full measure and prompt delivery.

—G. W. Priddy!—"I am working in foot two now. Am putting up a 50x50 foot two story brick building for Mrs. Ganlard. This building is being put up on the site of the one recently burned. There are two other smaller buildings being built. No, I haven't the contract—am simply working as foreman on the job, at \$5 a day. That beats digging post holes and filling them up again, just for exercise. I like President Roosevelt's idea of doing some things. Mr. Gurnea, who was burned out in Ashland recently, is selling goods in a tent."

—For Sale—A span of black horses; well matched; seven years old; weight, 1100 pounds each; good drivers and workers. Inquire of J. C. FENDLETON, Table Rock.

—Mrs. O. Gilbert—"I had a letter this week from my daughter, Mrs. Anderson, who is at Lamoino, Calif., telling that her husband, Walter, was recovering rapidly from the injuries he

sustained a few weeks ago. He was working in a lumber camp, as foreman of a logging crew, when a wire cable broke and struck him. One leg was badly cut, one arm and hip badly mashed and one rib broken. For several hours it was thought he could not live, but he is now getting along alright."

—During the thunder storm of last week, Wednesday a large pine tree on the Clay-Meador place, south of Medford, was struck by lightning and splintered into kindling wood. Three employees on the farm were at the time standing under another tree, about ten rods distant, and one of them was knocked to the ground, but soon recovered from the shock and the three immediately hunted shelter elsewhere.

**Fatal Accident at Phoenix**

A sad accident occurred on the farm of R. R. Moore, of Phoenix, Wednesday, by which Gus. Moore, aged about twenty-two years lost his life and Will Roberts was quite seriously injured. They were employed in raising the timbers for a barn, and were engaged in putting the last bent in place, when the stakes holding the derrick ropes pulled out and let the heavy timbers fall back upon the two young men. The plate struck young Moore across the body, inflicting internal injuries. Roberts was badly bruised about the legs and body, but no bones were broken.

The accident occurred about 9 o'clock in the forenoon, and Moore lived until 3 o'clock in the afternoon, suffering intensely, in spite of all that could be done for him.
