Rheumatism KING,

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is rightly called "The King of Pain."

All do not sufferalike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn as under. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time. An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your aches and pains. External applications, the use of liminents and plasters, do much toward temporary relief, but such treatment does not reach the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy. If you have Rheumatism, write us, and our physiclans will furnish witheut charge any information desired, and we will mail free our book on Rheumatism.

THE SWIFT SPECIFIC CO., ATLANIA, GA.

Rheumatism THE SWIFT SPECIFIC CO., ATLANTA, GA.

CHAPTER Izola L

Copperight, 1998, by T. C. McClure

Half way between the Crescent ranch and the schoolhouse lay the western border of the Black Hawk range, Don Easton happened to ride to the ridge of low, ragged buttes above the little valley trail he could catch a glimpse of the new schoolteacher's bat with the violets on it when little Sammle Trent took her to and fro in the buckboard from the ranch to the achool.

One day Sammie rode out on the range on his own pinto. Buckeye, and told Don the news.

"We've got the new teacher at our place, Don. Ske's a Jim Dandy too. Pop let me go to school with the rest of the kids just because she said I was wasting my talent hoeing round. am't a real teacher either. She's study ing us folks. Jumping Moses, Don, you ought to hear her talk. And she's going to study you pretty soon. You're chap ter 5-on herders.

"Is she homely, Sammie?" Don asked gently.

Sammle shut one eye and clucked

his tongue hungrily,
"Gimme two crackers and a dried
herring and I'll tell," he said.
Don bargained and handed over two
crackers with the herring laid be-

tween. Sammie munched contentedly

tween. Sammie munched contentedly. It was a long way from the ranch.
"Her hair's kind of pretty. It don't curl up exactly, but It kinks a little when the wind blows. And it's brown, kind of. And she smiles sweet as atything, and her eyes are blue, kind of, and she's awful gritty. She's learning to ride, and she fell off once and never yowled a bit."

A week after this the buckboard was discarded, and Don saw Sammle ride by on the plate, while the schoolteach er was on a small lightweight black and white pony. Sometimes she went by glone, as the days passed and her by atone, as the days passed and her confidence grew. Don would leave the sheep with the dogs and watch for her at stunet, lying face downward in the soft, thick grass on the edge of the buttes. He could see her from the time she passed the cottonwoods that fringed the divide until she turned the corner of Big Butte far down the valley, and beyond the way was clear to ley, and beyond the way was clear to the ranch.

There was a secret satisfaction to him in this self imposed sentinel duty over her lonely ride. It was a welcome break in the monotony of his life, and he dreaded the time when the grass and water would give out and be would have to move farther on to new range.

When the spring days came and the When the spring days came and the wild dowers lay like a royal curpet for the feet of the black and white pony the schoolteacher would dismount and gather them on her way through the valley. Then came a day when the sentiuel saw from his poet that she was in trouble. The black and white pony had wandered ahead of her, crophing the grass and new clover, when plug the grass and new clover, whee suddenly he pitched forward, one fort sacrificed."

What will Canada do about it if the ward goes against her? is asked.

The reply is, Canada can do nothing

The runkie was sprained, and she limp award goes against her? is asked.

The reply is, Canada can do nothing ed badly. Plushing beneath his tan, be had told the schoolteacher who had told offered her his horse to ride an all-Canadian railway had bad offered her his horse to ride to ride on. She had accepted thankfully, home on. She had accepted thankfully and Samule was sent after the lampony the next day.
"Ain't she a thoroughbred, though?"

"All't she a thorougnored, though: he asked, chewing on a bit of flag root he had found down near the creek. "Her name's Marjorie Allam." "When is she coming to study chap-ter 5?" asked Ion carclessiy.

"Guess she hasn't got that far yet," returned Sammle seriously, "She's studying flowers and bees and birds and things now.

"Sammile"—the berder's voice was gentle and persuasive "don't you want a job herding sheep along about sun-

"What you got that's better than her-rings?" asked Sammie in mild interest.
"A whole nickel a day."
"Til come tomorrow," said Sammie.
The new arrangement lasted a month.
Every afternoon at samest Sammie herded faithfully, while ben and the schoolteacher rode slowly from the
cottonwoods to Big Rutte. Then one

day Don fold him he need not come any more, and his face was grim and hopeless. Sammle looked at him shrewdly while he cracked a switch at a few mosquitoes that were feasting on the pinto's mottled hide.

"She's just a girl, even if she did come from Kansas City and writes books and things," he said pleasantly. "Did she throw you down, Don?"

The herder was silent.

"Cause you're just a herder?"
"Go home," said the other gently

"'Cause you're just a herder?"
"Go home," said the other gently without looking at him, but Sammite saw the clinched hands and he rode away whistling.

Three weeks lafer there came newe to the ranch. The herder on the Black Hawk had moved his sheep eight miles northward toward the Big Horn country, and there were growlings among the cattlemen up there over his encroaching on their territory.

encroaching on their territory.

"But isn't the range free?" asked the schoolteacher when Sammle explained matters to her. "You dassent say so nowndays less 'n

you've got a gun to back it up," said Sammle. "Pop thinks Don will get all the trouble he's looking for." Miss Allan looked at him, her blue

eyes grave and anxious.
"What will they do to him?"
"Chase him off and scatter the sheep.

Maybe let a little daylight into him if

"Are we far from him?"
"He's about four or five miles northeast I guess. We could see the smoke if they fired the grass or bis wagon," he added encouragingly.

Miss Allan was silent, and Sammie

Miss Allan was silent, and Sammle smiled at the pinto's ears. She was getting to chapter 5, he decided, on herders. And his saw, too, that she rode out of her way every day to get a view of the range. And every night at the ranch she asked if news had come from the cattlemen.

But all was quiet until one day the schoolteacher had remained later than usual. Sammle did not question when

soni. Sammle did not question when she turned away from the home path and rode up the hill until they reached a spot where the range lay before them. Far to the northeast a faint line of smoke trailed luzily up to the clouds, and she held her breath as she watched

"Samule," she cried, her hands grip-

ping the pony's bridle tightly, her face paling, "Sammie, what is 11?" "Just smoke," said Sammle shortly, knowing what lay behind the appeal.

knowing what lay behind the appeal.

I guess we can make it in an hour.
Less in they've fixed him already."

But she rode on beside him fearlessiy until they had passed scattered, frightened groups of what sheep were left, and haired beside the smoking ruins of the herder's wagon. It was she who found him first, lying unconscious a dozen yards from the wagon. There was a wound in his forchead. There was a wound in his forebead. While Sammie stood with wide, scared While Sammile stood with wide, scared eyes, she told him to run to the creek and bring water, then to ride on to the ranch for help.

With the water Sammile had brought

her she bathed the wound and kept his parched lips moist, and the black and white pony moved up and down like a restless shadow between her and

the charred wagon.

Once he opened his eyes and stared up at her in wonder, and she laid her hand lightly on his hot forehead.

"I am sorry." she said softly, and the pony moved out of hearing as he an-swered her.

A little after moon rise there came the

thud of hoofs on the ground and the one vigil was ended. Next morning sammie's freekled face looked cautously in the open window of the com at the ranch where the herder

ay.
"Hello, Don," he said cheerfully.
"Ain't she got grit, though? Ain't she

Don smiled at him in proud assent, and moved his bandaged head in a half nod. "How's chapter 5—on herders?"

asked Sammle in a whisper.
"All done," said Don, his eyes bright with happiness. "Next one's on weddings, but there's a herder in it, too, and she's going to take the leading

Stomach Trouble!

"I have been troubled with my stomach for the past four years," says D. L. Beach of Clovor Nook Farm, Greenfeld, Mass. "A few days ago I was introduced to buy a box of Chamberlaio's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these Tablets. You are certain to be pleased with the result. Price 25 cents, For sale by Chas. Straog.
