Ladies' Furnishers

the actions of deer and other wild animals, whose instinct is usually reliable. The animals are extraordinarily fat and have come down out of the high mountains much earlier than ordinarily. Deer are numerous in the foot hills, where they are hardly ever found until much later in the season. The deer in this country are migratory, going back to the highest summits in the summer, and coming out with the first storm in the fall. The usual September storm did not come this year, but the deer are coming out just the same and are much lower down than usual. Bear are fat and are low down also, feasting on the abundant acorn mast, which is regarded as another sign of a severe winter.

—Mules for sale:—I have a span of mules, four years old next spring; good size; match well in color, which I wish to dispose of. Address W. T. Kenney, Lake Creek. 41-tf

—At a meeting of the Gold Ray Rod and Gun Club, held at Gold Ray on Sunday a permanent organization was effected. The officers of the temporary organization were made permanent officers of the club, viz—A. E. Reames, president, J. L. Hammersly, secretary. The hundred shares of the capital stock have been subscribed for. An assessment of \$10 per share was levied for the purpose of building a clubhouse, and making other improvements. The following board of directors was elected: A. E. Reames, C. R. Ray, Alex Orme, J. Court Hall, Roy Bartlett, A. S. Hammond and A. O. Hough.

—Lost—Saturday night, October 3d, near Mr. Judy's place on Griffin creek, a Waltham open face watch, E. D. Elwood's name on face. Finder suitably rewarded by leaving same at the MAIL office. 41-tf

—Death visited the home of Mr. and Mrs. H. M. Coss on Saturday morning of last week and took away their baby daughter, Howarda. Sympathy for the bereaved parents is tempered with the thought that being taken away before a knowledge of the bitterness or sweetness of life had been reached, the spirit of the little girl is saved many of the sorrows and troubles of existence on earth, and has gone back to the hand which gave it—to the sphere where sorrow ceases and troubles are at an end.

—Indian Bead Weaving.—The fad of the year. Learn to make your own necklace, belt, girdle, collar, etc. Looms for making them and a full assortment of beads at H. A. Medynski & Co.

—J. A. Whitman came in from Steve's fork mines on Monday to attend to some business matters, but will return Sunday. The company has been somewhat handicapped by lack of lumber for flumes, but Mr. Whitman says that difficulty will be overcome this week, and by the latter part of next week they will be ready to commence piling. Nearly 20,000 feet of lumber is required for the flumes, and the mill has not heretofore been working as well as it might, hence the delay.

—Fall Millinery.—Come and see our hats, ready-to-wear, ready to sell—now. H. A. Medynski & Co.

—The benefit ball to be given at Gold Ray on Saturday evening promises to be one of the most largely attended social events that has taken place in Southern Oregon for a long time. Special arrangements have been made for the accommodation of the guests, and every one is assured an enjoyable time. The dancing floor will be the floor of the club house now under construction by the Gold Ray Rod and Gun Club. This is 40x50 feet in size and will be in complete readiness for the dancers by Saturday. The Grants Pass orchestra will furnish music for the occasion.

—Seed grain.—Go to J. A. Perry's warehouse, Medford, and buy all kinds of seed grain and grass seeds at wholesale prices.

—I. A. Merriman is not only a grower of luscious melons and other garden truck, but is as well a producer of big Irish potatoes. He brought four to Medford Tuesday morning that weighed 10 1/2 pounds, but these were not big compared with three that he kept at home which turned the scales at nine pounds. Mr. Merriman also does some very clever stunts as a dairyman. During the month of September his seven cows netted him an even \$10 each. Most of his cream was sold to the Medford creamery.

—For Sale—Good, No. 1 shakes. D. T. Lawton, Medford. 35-tf

—One of those social hops, which have become so popular of late, will be given at Wilson's opera house next Thursday evening, October 15th, under the management of E. W. Caryer. These events have been very much enjoyed by the dancers of the city of late, on account of the good order prevailing and the good music which is always furnished for the occasions. Every body is invited and a good time is assured you all.

—We take orders for ladies' tailor suits. H. B. Nye & Co.

J. Merley conducted the services at the Baptist church.

—The Southern Pacific trains, Nos. 15 and 16, which have been running in two

sections between Roseburg and Dunsmuir for the past several months, will hereafter run in one section between those places. The position of train agent, created several months ago, has been abolished and these officials made their last runs on Monday. The position of traveling conductor is also reported to have been cut out.

—Saw filing done at the Russ mill.

—Friday morning a carload of lumber attached to the eastbound R. R. V. R. train jumped the track at the sharp curve on Eighth street, near the depot. The train was running slowly and no damage was done beyond the breaking of a few ties and bringing the axle in one of the trucks of the derailed car. This is the second time within a year that an accident has happened at this point.

—Fine line of linoleums, matting, shades and curtain fixtures. WERKS & BAKER.

—E. J. DeHart has received returns from a carload of very fine Buerre de Anjou pears, which were recently shipped to Chicago. The pears were sold outright at \$1.50 per box, and the compliments as to method of packing and quality of fruit were thrown at Mr. DeHart with a lavish hand—and the firm wants all the fruit he has to sell next year.

—D. B. Russell, the popular confectionery man, has recently added a new line to his already quite complete stock, it being that of school stationery. Also stationery for those other than students—such as tablets of all descriptions and pencils, pens and inks. He is asking for a share of your trade in this line.

—W. J. Mahoney, day operator at the S. P. depot, was absent from duty for several days lately on account of sickness, and a shifting around of the telegraphic force ensued. —W. O. Carter was killed at Welch's sawmill at The Meadows on Saturday last by a log rolling over him. Details of the accident are not at hand, but it seems that Carter was hauling logs for the mill, and the chain holding the logs on the wagon broke, allowing the load to fall off, one of the logs crushing him so badly that death ensued in a short time.

—Blue prints of township maps, showing all vacant land, fifty cents each. For reliable information concerning Government land write to Frank E. Alley, Abstractor, Roseburg, Oregon.

—The report of the auditor of the postoffice department shows an increase during the past year of receipts at the Medford postoffice from \$4,740 to \$5,046. Nearly every presidential postoffice in the Northwest shows an increase in receipts, an indication of the prosperous conditions throughout this region.

—W. L. Orr has leased the N. B. Bradbury planing mills and has taken possession of the same. The lease is for six months with an option for a longer term if he should want it. Mr. Orr has already purchased 12,000 feet of first quality sugar pine and will at once commence manufacturing it into lumber for finishing work.

—Guaranteed Forest Reserve scrip for sale, in large or small quantities, by Frank E. Alley, upstairs over Land Office, Roseburg, Oregon. Will place same for non-resident purchasers.

—There is a considerable amount of sickness in the city from throat troubles. Merchant and Mrs. H. U. Lumden have but just recovered from a severe siege of tonsillitis, or quinsy, and both their children are now ill with the same trouble. Major Andrus' family is also similarly afflicted.
