The Battle Ground of the Azores.
In 1580 the Azores came under the power of Spain, and in the history of the next twenty years their name is frequent as the favorite battle ground of the English and Spanish fleets. The partiality was indeed mainly on the side of the former and for a good reason. These islands lay right in the track of all vessels sailing to and from that enchanted region known to all men as the Spanish main.
On the highest peak of Terceira, whence in clear weather the sea could be scanned for leagues around, were raised two columns, and by them a man watched night and day. When he saw any sails approaching from the west he set a flag upon the western column—one for each sail. If they came from the east a similar sign was set on the eastern column.
Hither in those days came up out of the mysterious western seas the great argosies laden with gold and silver and jewels, with silks and spices and rare woods, wrung at the cost of thousands of harmless lives and countless unspendable from the fair lands which lie between the waters of the Caribbean sea and the giant wall of the Andes. And hither, when England, too, began to turn her eyes to El Dorado, came the great war galleons of Spain and Portugal to meet these precious cargoes and convey them safe into Lisbon or Cadiz before those terrible English sea wolves could get scent of the prize.—Macmillan's Magazine.

Mazole's Artistic Bent.
Mazole's father was a poet, her mother a painter, and everybody said that Mazle was sure to be a genius. It was her fate by inheritance. No one predicted the direction in which she would eventually turn, but when she was eight her Aunt Mirabel was sure she would be a great singer. What her uncles thought is of no importance. They had little or no imagination.
About the time that her aunt had settled Mazle's career Grandpapa Wilkie said he had hopes of the child. "She'll turn out just like anybody," he chuckled. "See 't she don't!"
It seemed that first summer night on the farm as if grandpapa had struck the right note. There had been a wonderful sunset. Mazle's mother, with half shut eyes, had compared it to Claude Lorraine's paintings. Mazle's father had looked lyrics, and the lay members of the family also expressed their delight in the scene. Mazle looked depressed.
"See her!" whispered Aunt Mirabel. "What exquisite feeling in her face!"
Mazole's parents looked, but it was the grandfather who spoke.
"What's wrong with you?" he asked.
"Nothing," pouted Mazle, "only everybody's so taken up with the sunset, and I wanted to see the pigs fed!"

The Lone Star State.
Down in Texas at Yoakum, is a big dry goods firm of which Mr. J. M. Haller is the head. For the "dark brown" taste, headache and that logy feeling De Witt's Little Early Risers are the best pills to use. Sold by CHAS. STRANG, druggist.

Can Dogs Laugh?
The celebrated French physiologist Gratiolet admitted that dogs have what he called "the smile of the eyes." "The smile of the mouth," however, he regarded as peculiar to man. Scotch collies certainly seem at times to smile at sights which are comical, and on occasions at their masters.
Many instances have been advanced to prove their quick appreciation of a joke. One of these intelligent dogs used to look with a knowing air at his master when he saw a traveling bear and his lips were drawn back at the corners and his eyes twinkled with quite a conscious smile.
Darwin recognized this sense of humor in a dog, and refers to its sportively play when a stick is thrown, which it picks up and almost allows you to recover before it darts away with it.
Mr. Lloyd Morgan tells of a retriever, a "jolly dog," which showed its sense of fun upon the sands, where it would bury a number of small crabs in bark with delight when, after waiting and watching, it saw a leg or claw emerge.

A Belisk Correspondence.
Mrs. Lamson was saying an affectionate and tender farewell to her husband as she was about to start for a month's visit to her old home.
"Now, my dear," said Mr. Lamson in a pleasant but firm tone, "I wish you would try not to ask me for money every time you write."
"Well, I will try not to," said Mrs. Lamson, wiping her eyes, "but you— you know, Henry, that means I shall have to write even oftener than usual!"

Sick Blood
Feed pale girls on Scott's Emulsion.
We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.
The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.
Scott's Emulsion presents Cod Liver Oil at its best, fullest in strength, least in taste.
Young women in their "teens" are permanently cured of the peculiar disease of the blood which shows itself in paleness, weakness and nervousness, by regular treatment with Scott's Emulsion.
It is a true blood food and is naturally adapted to the cure of the blood sickness from which so many young women suffer.
