There is more catarrh in this section of the country than all other diseases put together, and until the last four years was supposed to be incurable. For a great many years one pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

A fire was started on upper Table Rock, Sunday, which burned over quite an extensive scope of country, adding its share to the already dense smoke that has been hovering over the valley for some time.

Quite a crowd of people from here visited the Ray dam Sunday evening, but all pleasures in the trip were lost sight of by witnessing the recovery of the body of the woman, who is supposed to have lost her life by drowning at that place on Saturday evening.

Teams, heavily loaded with lumber, can be seen upon the roads nearly every hour of the day and still we hear of a scarcity of this commodity. People must be building and fixing up to be ready for that "hard times" story, we hear so much of every presidential campaign.

Last Wednesday evening the Endeavorers gathered, by special invitation, at the home of Mr. and Mrs. E. H. Davis, in honor of their daughter, Ethlyn. There was a large and happy throng in spite of the heat of the evening. Songs and games made the time pass quickly. Ice cream and cake were served at long tables and were more appreciated than on former occasions when the weather had suddenly turned cool. It was a late hour when the guests departed, wishing that Miss Ethlyn's presence might brighten all the gatherings.

Mrs. Frierson and Mrs. Pendleton spent last week with Mr. and Mrs. Gunn, near Medford. On Wednesday they, with Mrs. G. and children spent the day with D. Anderson and family, near Phoenix. Mr. Anderson has had a busy and profitable year at his trade and was preparing to leave on Saturday with his family for a three weeks' outing at Pelican bay, which he considers an ideal spot for a tired man to find restful recreation. Another day was spent in Ashland with the family of J. W. O. Gregory. The presence of Mrs. John Harvey, of Stockton, Calif., added greatly to the pleasure of the day. Ashland can not be called a dull town these days. The work of installing the sewer system makes things lively on the streets, and the eye is at once caught by the number of new buildings going up. The most conspicuous being the beautiful high school building and the brick business blocks on the main street.
