Chicago Packers Housing Man Con-

trary to Law. Chicago, Aug. 20.— Corporation Counsel Tolman has given to Mayor Harrison an opinion declaring that the packers at the stock yards have no legal right to house men in their pack-ing houses. The opinion was given in response to the request of the mayor, who was informed by the Chicago Federation of Labor that the packers

were boarding men contrary to law.
The opinion declares that the packers are not violating any provision of the ordinance regulating lodging bouses for the reason that they are not letting lodgings for hire. The opinion does hold, however, that the regulations calling for are escapes and exits in buildings where large num-bers of people are housed have not been complied with and suggests that the packers be given a period of thredays to commence the alterations in their buildings or to find new quar rs for the men. The mayor, after receiving the opin

ion, sent it to Chief of Police O'Neceased to house women strike break ers within the stock yards. The other firms continue.

Mrs. Bush is now in perfect health because she took Wine of Cardui for menetrual disorders, bearing down pains and blinding heataches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wins of Cardui in her home. The first bottle convinces the patient she is on the road to health.

Beauty and the Beast, There was as much truth as boasting in the statement of John Wilkes, the famous London alderman, "Ugly as I am, if I can have but a quarter of an hour's start I will get the better of any man, however good looking, in the

Of Wilkes' abnormal ugliness there was never any question. "The children in the street ran away affrighted at the sight of him."

Late reports from Nanalmo state that the treatles carrying the city's water mains are again on fire, and it is greatly feared that the water supply is thus being cut off. If this ocurs the destruction of the coal city will be inevitable.

A Troublesome Ant

In the state of Colombia there is a large aut (Atta cophulotes) which causes a great deal of injury to planta tions. It attacks and carries of indis-criminately all kinds of foliage, and no sort of vegetation seems to come amiss to it. The quantity of foliage carried to it. The quantity of foliage carried off by these ants is immense. A naturalist recently investigated the uses to which the ants put this mass of vegetable matter, and he ascertained that they employ it to make botheds upon which their eggs are deposited to be batched by the heat produced by the fermentation of the leaves. The auts do not eat these portions for food, and the hervie are fed upon a carefully selected diet. Once the brood is hatched the gais clear away the hotbed, carrying out of their nest all the decomposed vegetable matter. This is thrown out in hears, apart, and in the large and hills these heaps will contain bushels and upward.

The First English Slave Trader. Sir John Hawkins was the first Eng-lish slave trader. He formed a com-pany composed of the leading men of London and fitted out three small ships, which sailed in 1562. Later Queen Elizabeth lent Hawkins Jesus, a large ship of her own of 700 tons, and took shares in the second African company She not only equipped the ship, but put 100 soldiers on board to provide for contingencies. On the second voyage contingencies. On the second voyage Hawkins bought 400 negroes and had a narrow escape from losing them owing to the lack of water when he was near the equator. But, as he piously recorded in his log. "The Almighty Good would not suffer his elect to perish and sent a breeze which carried them safe to Dominiea." This was the beginning of the slave trade, which lasted for more than two centuries before it was finally suppressed.

"Dear Mas Pinkham:—There are but few wives and mothers who have not at times endured agonies and such pain as only women know. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable.

"I have seen many cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."
