CAVALRY RAIDS BY RUSSIANS

Desperate Attempt to Intercept Nogi's Movement of Troops.

Tokio, Jan. 14.—The bodies of Rusdan cavalry raiders actively operat-ng southwest of Liao Yang are eviiently desirous of harassing aliroad communication and interrup-ing the transportation of General togl's army to reinforce Field Mar-

Nogis army to reinforce Field Mar-shal Oyama at Limo Yang. The Jupanese army headquarters, eporting Thursiny, says: "Wednosday at 10 in the morning Japanese cavalry detachment en-tountered four companies of Russian avairy west of Tangmasas, south-vest of Liao Yang, and fercely en-raged them. At 2:30 in the afternoon ne Ruseians were repulsed with leavy losses. Subsequently the were reinforced by several companies of cavairy and eight guns. The Jap-tesse drew the Russians to Livech, tnese drew the Russians to Liverh oas and engaged and pursued them. On Wednesday night a small body of Russian cavalry reached the railroad ine and tore up the tracks between Anshantien and Halcheng and Tatch-okiao and Yinkow. They were imme-liately repaired and the line was respened to traffic.

Wednesday afternoon 2000 Russian evalry, with guns, attacked Nuchwang. The Japanese were orced to retire temporarily, but were einforced, attacked the Russians and

The Russians also attacked Niu-

thiatun, but were repulsed."

Tokio, Jan. 14.—In military circles sere it is not anticipated that there will be any further difficulty with Licutenant General Mistchenki's Cossacks raiders. It is believed raiding troops were probably limto those which attacked Niuthwang atid Niuchtatum. There is no syldence to indicate that the Cos-sacks were atrongly supported. Steps were taken to block their retreat, but hey evidently found it necessary to etire as swiftly as they came in or-ier to avoid being captured.

it is believed here that the Cos-sacks planned a dash on the railroad for the purpose of intercepting Gensral Nogi' big guns, which are on the way to the Shakhe river, and also to spact Field Marshal Oyama's trans-

Tokio, Jan. 14.—A report received from Field Marshal Oyama's head-quarters yesterday says that the Rus-dans who have been conducting active saiding operations southwest of Liac fang evidently belong to Lieutenant Beneral Mischenko's Cossicks. The report says that the Cossicks, with the Russian second infantry regiment of railroad guards and tweive guns, surrounded the Japanese post at Niu-thiatun, north of Yinkow, on the line

ommunications, and assentiated from the direction of Sanchiatas. The Russians were repulsed, with a loss of at least eighty.

Paris, Jan. 14.—The Associated Frees learns authorisatively that Russia's note addressed to the powers relative to China's breaking neutrality with Russia claims to be above. what Russia claims to be abs hate proof of Chinese breaches. The haree main complaints are:

First, that the Islands of Miaotao a the straits of Pechili, opposite Port Arthur, have been constantly used by the Japanese without Chinese inter-ference as a stragetical base and as a sarbor for Japanese torpedo boats. Second, that the Chinese army on the border has accepted the command

of the Japanese officers. Third, that Chinese firms have been sonstantly working in behalf of the Japanese, supplying them with provisions, military accourrements and general war stores

The note lengthily sets forth the details and complains that China has not given satisfactory explanation of the breaches of neutrality and that, therefore, Russia advises the powers that she intends to use complete liberty of action in regard to future abuse of neutrality. St. Petersburg, Jan. 14.—There is

an unconfirmed report that Emperor Nicholas accepted Interior Minister Sviatopolk-Mirsky's resignation yes-terday, and at 11 o'clock last night appointed M. Witte, president of the committee of ministers, to succeed

him.
According to another version of the report, Prince Obolensky, governous general of Finland, will succeed Prince Sviatopolk-Mireky.

POLITICAL AFFAIRS IN UTAH.

Lawyer Testifies No Effort Made Restrict Political Liberties.

Washington, Jan. 14.-J. Whitecotton, an attorney of Pro-Utah, resumed his review of poliaffairs in Utah when the sente heaopened yesterday in the Smoot inve gation. No effort was made by church, he said, to restrict the t

any individuals, but it marked tight to receive time and energies of men who have been elected to impor-tant church offices. The deduction he drew was that the church did not try to prevent its members from engaging in politics without the consent of the church, but that when certain mem-bers accepted important church offices the church had a right to prevent such members from accepting other offices which would take their time. Mr Whitecotton said he never had seen any difference in business between Mormon and Gentile, but he thought the Mormon voters adhered more closely than the Gentiles to their party affiliations.

It was shown by the witness tha Gentiles had always held the most important state offices, and that Gentile judges who had been active in sen tending Mormons for polygamous co-habitation received as large a vote as-other candidates when they came up for re-election.

"I think the decided sentiment of the Mormon people in Utah is hostile to polygamy," said Mr. Whitecotton.

Concerning the sentiment in the state in regard to the prosecutions for polygamy, Mr. Whitecotton said there had been a great deal said of an under standing that there should be no pros-ecutions, but that he had never heart of such a thing, and did not believe it

CHURCH WRANGLE STILL ON. Dr. Irvine Hay Succeeded in Stirring Up a Hornet's Nest

Reading, Pa., Jan. 14.—Something of a sensation has been created by the publication of the letter from Rev Dr. Ingram N. W. Irvine to the board of inquiry named by Bishop Tuttle to consider the presentment filed against Sishop Taibot of the diocese of cen-tral Pennsylvania. None of the mem-bers of the board saw the letter until they read it in the newspapers.

one of the men who are charged Dr. Irvine with being prejudiced against him would discuss his letter for publication. Their friends, how-ever, declare the attack upon them to

be entirely unjustifiable.
William Butler, one of the members

of the boad, said: "Dr. Irvine's proposition to waive the canonical requirement and have a public meeting of the board of inquiry is absurd. Neither he, the board nor Bishop Tuttie would have authority to do this. The canon re-quires that the board must meet in executive session and the only thing for the board to do is to obey the canon. Personally, I can only reiter ate what I said last Tuesday—namely, that I am opposed to anything that savors of a 'star chamber' proceeding —and if I had my way even the meet ings of the house of bishops would be

Captain P. R. Stetson, treasurer of diocese of central Pennsylvania said yesterday:

"When I said that Dr. Irvine has cost the diocese too much money meant just what I said. I have never met the gentieman personally and know nothing of him except what I have read and heard. But in the trials in which he has already partie ipated the diocese of central Pennsyl vania has had to foot the bills. That is my grievance against him and wish the whole matter was ended."

One of the Ways In Which Indians
Duel to the Beath,

Among the Indian tribes the method of fighting duels differs. There are some tribes where a challenge to a duel means inevitably that both men musdle. When an Indian feels accreteved he demands a combat. The day for the same is fixed far in advance and is made the occasion of a little celebration. The entire tribe assembles

tion. The entire tribe assembles. The braves sit in a civile, behind them their squaws and the young bucks.

The offended man is armed with a rifle or a shorgun. The challenged principal is unarmed. At a word both men arise and face each other, the unarmed man baring his breast to the builet of his adversary. With eyes riveted on the little round hole at the end of the barrie pointed at him, the doomed man must face the protracted ordeal of expecting death at any instant without the loast sign of weaks. stant without the least sign of weak ening. The executioner may hold his gun as long as he pleases in order to try to break down his enemy. He may raise it and lower it or hold it steadily on the man under the frightful strain, but not even with an eyelid must the unfortunate betway his anxiety. At last the gun cracks, and the bullet speeds its way and the victim lies dy ing. The slayer hands the weapon to relative or a friend of the deceased and is put through the same ordeal.

BUILDINGS IN MINIATURE.

Architects Often Make Clay Models

of Important Structures Although the architect is still the most important person in the planning of any big public or private building, he often depends on the model maker and not the draftsman to show his patron just how the structure will look when completed. The model maker, in other words, takes the architect's drawings and makes an exact counterpart of the building on a small scale in clay. When a theater is to be constructed, for example, such a model is made with

the greatest minuteness, and every de-tail is looked at from the point of view of the stage, thus avoiding the possi-bility that when it is too late some of the seats will be found quite out of range of the performance. In other buildings architectural details that ap-pear excellent on paper are thus some times discovered to be inharmonious with the character of the structure as a whole and can be changed before the actual process of their construction has started. By the use of models, in fact nothing is left to chance and every body can express his objections before the work is too far advanced to make the necessary changes seriously expen sive.

Catherine told Dimedale that if bad symptoms displayed themselves he was not to remain to look after them, but to By for his life without delay or com-punction. She well knew that he would not be safe if she or the helr of Russia died in his hunds. She gave him an order of the most

urgent kind from herself to the suc-cessive postmasters not to delay him for a minute on any pretext. Dimsdale received a fee of about \$50,000 from the empress and other gifts beside

Wenrers of Cockndes

Cockades were formerly worn only by soldlers, which gave rise to the phrase, common both in England and France, "to mount the cockade" meaning to become a soldier. The black cockade worn on the hats of officers' servants was introduced into Britain by George I. from his German dominions. The real right to use it belongs not only to naval and military officers, but also to the holders of certain of-fices under the crown, such as privy councilors, cabinet ministers and judges, though many people who can-not claim to be classed under any of these categories display it on their servants' hats.—Loudon Times.
