CITY HAPPENINGS.

—According to reports which floated this way, the Norris & Rowe circus train had troubles of its own at Dunsuir and Sisson Sunday. The circus showed at Sisson Sunday and it is said that a circus show on Sunday is contrary to the unwritten law and ethics of such companies. This extra day's work by employes is alleged to have been the cause of the trouble. A negro roustabout took it upon himself to get even for the griefs imposed upon him and his companions. While the heavy train of twenty-two cars was climbing the steep grade between Dunsuir and Sisson this man kicked open the air plug, which brought the train to a stop, and this operation was repeated three or four times before it was discovered who was making the trouble. Conductor Hilty, who was in charge of the train, found the negro and called him down, when it is said the latter pulled a razor. The train was backed to Dunsuir, where repairs were made, but the circus was three hours late at Sisson, and the customary parade was omitted. The negro is in jail at Sisson.

—Dr. Goble's office is in Butler's jewelry store, where he may be found every Saturday.

—The Medford Exposition building will be completed, with the exception of some of the electric fixtures, which have not yet arrived, by the latter part of the week. The large, plate glass windows are all in position, the inside finishing was completed Thursday evening and the painters will

have finished their part of the work by Saturday evening. Next week the electric fixtures will be in place and the formal opening of the building will occur. The building will be the first of its kind in Oregon. It is intended to contain a permanent exhibit of the resources of Rogue river valley, and is the result of the enterprise of Hon. John D. Olwell, Gordon Voorhies, H. C. Lewis, J. W. Perkins, E. E. Hopkins, Condor Water & Power Co., Iowa Lumber & Box Co., Jackson County Bank, Medford Bank. It is the intention to make a display of roses on the 12th of May—the day of the Farmers' Institute—and to that end the ladies of Medford are requested to contribute some of the many beautiful roses which adorn the residence portions of the city.

—Messrs. C. I. Hutchison, G. L. Davis, L. Bundy and J. M. Keene are well pleased with the development of their cinnabar prospect in the Meadows district. They have run a crosscut on the ledge fifty feet in length and the whole length of the cut prospects well and some of it is exceedingly rich. On a recent visit they brought to Medford some twenty-five pounds of pure quicksilver and a number of very rich specimens of ore. In some of it, even the layman can see the quicksilver without the aid of a glass. The owners believe that they have an exceedingly valuable quicksilver mine, which only needs development and expert handling to become one of the famous mines of the coast. The specimens above mentioned will be placed in the exposition building, as soon as the latter is completed.

—W. S. Barnum, of the Rogue River Valley Railroad, was arrested last Friday by Chief of Police Angle for obstructing the crossing on Seventh

street, by allowing his train to stand there longer than the law allows. There have been previous complaints of obstructions of the crossing by this train and Mr. Barnum had been warned by the chief of police to desist from such practice. In this connection a suggestion might be in order that Mr. Barnum leave his engine further down the track, by the depot of the R. R. V. R. Co., instead of allowing it to stand close to the sidewalk by the crossing, where teams are always likely to be frightened by it. Recorder Toft fined Mr. Barnum \$5 for the offense for which he was arrested.

—A new time card will go in effect on the Southern Pacific south of Portland May 3d. The present schedule went into effect about three months ago when it became necessary to dock the Southern Pacific ferryboat, operating between Port Costa and Benecia, Calif., for repairs, necessitating a revision of the time card. Repairs on the ferry are about completed and on May 5th, it will be ready for reoperation. It is not likely that the forthcoming new schedule will affect the southbound trains. The principal change will occur in the time of the northbound overland train No. 12, which will arrive in Medford on its old time, 4:45 a. m. The time of train No. 16 will be unchanged. There will be no change in the arrival and departure of trains Nos. 11 and 15.

The custom is an ancient one and one that does not seem to die out. The pleasure comes both to the giver and to the recipient.
