

# EXCLUSION LAW WAS THE TOPIC

## PRESIDENT ROOSEVELT AND CABINET HAVE SERIOUS DISCUSSION OF QUESTION.

Seems to be More Trouble Over the Administration of the Law Than in the Law Itself.

Washington, June 24.—Chinese immigration to this country and the execution of the Chinese exclusion laws constituted the principal topic of discussion at yesterday's meeting of the cabinet. It was the last meeting of the cabinet to be held before President Roosevelt shall leave Washington for the summer.

The situation is regarded both by the president and the members of his cabinet as serious. As Secretary Taft phrased it, there seems to be more trouble over the administration of the law than in the law itself. In fact, he expressed the belief that too much time was spent in developing evidence against Chinese who presumably were entitled to enter the country.

The president made it clear at the meeting that he was determined the Chinese should have fair treatment under the law, whenever they applied for admission to this country at any port. He believed this was not only in the interest of American manufacturers and business men, but no more than just to the Chinese.

While no definite decision was reached at the meeting, it was the generally expressed opinion that the amicable diplomatic and trade relations which this country has always maintained with China should be continued if possible. To this end Secretary Hay will take action on behalf of this country.

The report that the commercial guilds of China have entered into a hard and fast agreement to boycott American-made goods has had a disturbing effect on American producers interested in the China trade. It will be the effort of this government to endeavor to correct any misrepresentation that may exist in China as to the too harsh enforcement of the Chinese exclusion laws. There is no disposition to exclude from the country any of the classes of Chinese who are exempt from the operation of the exclusion law.

Secretary Metcalf of the department of commerce and labor, who has direct supervision of the immigration bureau, does not believe that unnecessary harshness is used in the enforcement of the law, but is investigating the subject with a view to correcting any evils of administration that may be developed. He pointed out at the cabinet meeting that the United States trade with China in cotton goods alone for the ten months of the present fiscal year had aggregated \$21,000,000 as against \$3,000,000 for the previous fiscal year. He hoped this trade would not be disturbed through any misunderstanding and expressed the belief that it would not be. All the members of the cabinet were present at the meeting. It was the last cabinet meeting probably which Secretary Morton will attend as he expects formally to sever his connection with the administration on the 30th instant.

### Acute Rheumatism.

Deep tearing or wrenching pains, occasioned by getting wet through, worse when at rest, or on first moving the limbs or in cold or damp weather, is cured quickly by Ballard's Snow Liniment. ## A FOOLISH PLAN

It's a joy to eat—I welcome my dinner hour! Because I rout indigestion with August Flower!

Constipation is the result of indigestion, biliousness, flatulency, loss of appetite, self-poisoning, anemia, emaciation, uric acid, neuralgia in various parts of the system, catarrhal inflammation of the intestinal canal and numerous other ailments that rob life of its pleasures if they do not finally rob you of life itself.

"I'm bound in the bowels," is a common expression of people who look miserable and are miserable—yet who persist in "letting nature take its course."

What a foolish plan, when nature could be aided by the use of Green's August Flower, which is nature's own remedy for constipation and all stomach ills.

August Flower gives new life to the liver and insures healthy stools.

Two sizes, 25c and 75c. All druggists.

## NEARING THE BREAKING POINT.

### France Adopting Firmer Stand in Attitude Toward Germany.

New York, June 24.—A special to the Sun from London says: It is significant of the acuteness of the crisis still existing between France and Germany that the French government yesterday refused to transmit a telegram from the Sun correspondent at Paris in which it was stated that Premier Rouvier was adopting a firmer attitude toward Germany, based upon the promise of English support. The statement is quite true, and already has had the effect of making the situation more critical than ever.

This is the first time since Paul de Rouleux's plot against the republic on the day of the funeral of President Faure, that the government has interfered with telegrams.

## WORKMEN AND TROOPS BATTLE.

### Mob Fights Behind Entrenchments and Many Are Killed.

The mob sacked a number of liquor stores and broke the street lamps. Street railroads were interrupted.

### Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know that this disease is not that ordinary remedy has little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy however, that can always be depended upon as will be seen from the following certificate from Mrs. Minnie Jacobs, of Houston Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Chas. Strang.

### Guardians of Minors Must Advertise for Bids.

Chicago, June 24.—A dispatch to the Tribune from Motaw, I. The order, it is said, will block the leasing of 50,000 acres of land and make void seventy-five leases covering 7000 acres. Under the provisions of the decision such time will be consumed in the lease that only persons of large means can compete.

# DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

## FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc.

If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

**How to Find Out.**  
You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

**G. B. Burhans Testifies After Four Years.**  
G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Two Sizes, 50 Cents and \$1.00.

## UNCLE SAM RAISING HORSES.

### Secretary Wilson Starts a Breeding Farm at Fort Collins.

Washington, June 24.—The government has undertaken the interesting task of developing a new breed of horses. Secretary Wilson has given the matter his special study for two years past and has secured ample financial support from congress to carry out his ideas. The aim is to produce a distinctly American type of coach horse.

Secretary Wilson does not mean to have it understood that he is trying to create a fancy animal intended only for show purposes before the carriages of the rich, but rather, a strong, solid, handsome, yet headed horse, able to pull a plow, haul milk to the station or toss the road behind him to a surry or hackboard.

The secretary has chosen Fort Collins, Colo., as the best place to start the government breeding farm and has selected Dr. George M. Rommel, the department's expert in animal husbandry, to get together the animals required for foundation stock. The care of the plant will be trusted to W. C. Carlisle, the noted expert formerly associated with Professor Henry at the University of Wisconsin.

Horsemen all over the country are manifesting great interest in the government experiment and looking forward to the highest order of results from it.

For the first time in the history of the United States a government stud book will be established as a result of the experiment. It is expected that if the undertaking succeeds congress will authorize other experiments of a similar character in cattle and sheep breeding.

He will leave here on June 28 for Washington to discuss the matter of his retirement from the governorship. He has been in cable correspondence with the president regarding it and has received permission to go to the capitol for a personal interview.

Governor Carter says that he has urged President Roosevelt to accept his resignation and appoint a successor. His decision, it is declared, was not due to the election of A. M. Brown as high sheriff, but had been under consideration for some time. It was first written out on June 5, but was held on the advice of friends, who asked him not to send it to Washington.

## MARKED TURTLE RECOVERED

### Tattooed by Detroit Veteran in 1863, is Again Found.

Lee of this city was with the union army at Tarrytown, Pa., eleven miles south of Gettysburg, where he was stationed with his command, Company B of the United States engineering corps, he picked up a common land turtle and on the hard shell back he carved the United States flag, a castle, which is the insignia of the engineering corps, and his name and his regiment and the year.

Four weeks ago Captain H. H. Mertz of Gettysburg picked up a live turtle which had on its back the United States flag, the castle and Mr. Lee's name, together with the year. Mr. Lee expects to have the turtle sent to him at Detroit, and he will take it to army reunions as a relic of the fighting days.

## They "Never Have Time."

Here and there and everywhere are to be found the man and the woman who "never have time."

If you are one of those who "never have time," change your ways. Try this: Make up each day a schedule of what you shall do at each hour and do not budge from the schedule. It will surprise you to find how readily you can dispose of a task within a certain time if you convince yourself that you have it. It is the feeling that you must that will force you to do it. Let each item on the schedule be regarded as an inviolate engagement with yourself and do not let the business of one item cut into the time set for the next. These definite engagements with yourself will enable you to have time for work, reading, writing, calling, church-going and recreation.

Do not stop to think it over. You will forget about it if you delay. Try the plan at once.—Louisville Courier-Journal.

## "Isabella Color."

"Isabella color" has been described as a dingy whitish yellow. The origin of the term is certainly an odd one, if either of the generally given explanations is correct. According to one story, Isabella, daughter of Philip II, and wife of the Archduke Albert, vowed not to change her linen till Ostend was taken. Most unfortunately for the royal lady the siege lasted for three years. The supposed color of the archduchess's linen at the end of this trying ordeal is said to have become the fashion. The other explanation is a similar one, but the story is made to relate to Queen Isabella of Spain and the siege of Granada. When we consider the length of time pentagonal hair shirts were worn in the middle ages, the legend is not so wildly improbable as would at first appear.—London Tit-Bits.

## HITCH IN CHICAGO STRIKE.

### Teamsters Joint Council Making No Headway in Matter.

Chicago, June 24.—Three concrete problems confronted the Teamsters' joint council strike settlement committee, in session yesterday with the executive board of the International Brotherhood of Teamsters. Upon the decision of the leaders to adopt any of these seemed to depend the strike. The first plan considered was to surrender, give in to the employers' terms, abandon the union button and get back whatever places may be had. The more belligerent members favored the calling of a general strike of teamsters to carry the point that the union button is to the teamsters what the flag is to patriots in battle. The only other alternative was to let the strike continue on the present lines.

# LITTLE CHILDREN FARMED OUT

## MOST ALARMING STATE OF AFFAIRS DISCOVERED IN CHICAGO AMONG CHILDREN.

### Woman Arrested for Taking Little Ones Out of Orphanage and Putting Them to Work.

Chicago, June 24.—A system of virtual child slavery in which children under 14 years of age are "farmed out" into households in an attempt to solve the "servant girl problem" is a state of affairs that has been brought to the attention of the department of compulsory education following startling revelations in various justice courts of Chicago in the last three weeks.

That such a system exists to an alarming degree is the declaration of Superintendent W. L. Bodine, who has secured the conviction of Mrs. Ottilie Krosdick in Justice Prindville's court on the charge of violating the compulsory education law.

"This is the tenth case of its kind that I have had in the last three weeks," said Mr. Bodine. "Judging from the testimony of various witnesses at the trials of these cases, I am convinced there are hundreds of children from institutions who are drugging as servants in many households of the city without being sent to school."

Mrs. Krosdick was fined \$20 and costs, the limit in such cases. The two children under her charge were Adelaide Walby, 13 years old, and Edward Rinder, 10 years of age. The woman said she had taken the girl from a sectarian orphan asylum in the city eight years ago. This child was found hard at work over the wash tub and was testified at the trial that she had been ill treated and compelled to work at the hardest kind of drudgery an average of twelve hours a day. She could hardly read or write.

The boy was taken from the Home for Friendless when he was 3 years old and the testimony showed that he had been kept at work instead of being sent to school.

Warrants have been secured for several persons, many of whom are said to have taken children from institutions and forced them to do work far beyond their strength.

## THINK OYAMA BLUFFING.

### Russians Regard His Offensive as a Diplomatic Maneuver.

Gunshu Pass, Manchuria, June 24.—The Japanese are no longer pressing the Russians south, and doubt is now entertained as to whether the weak offensive is the precursor of a big battle or a diplomatic maneuver.

Belief in the prompt conclusion of peace is weakening.

The heat is intolerable. Even the nights afford little relief.

St. Petersburg, June 24.—According to the latest news from the front, the Japanese after driving in the Russian advance posts have paused, and doubts seem to exist at the Russian headquarters as to whether Field Marshal Oyama has yet gotten his columns in position to strike or is assuming a false offensive to affect the peace negotiations.

## Gladstone and Disraeli.

An odd scene in the home of common sense between Disraeli and his great opponent, Gladstone, is recorded in the diary of Sir M. E. Grant Duff, who relates the story as he heard it.

Gladstone was on his way away to Disraeli's proceedings and said, "This, sir—this has been the course of the night honorable gentleman and his satellites." He appeared then quite to lose the thread of what he had been saying. He looked at some papers and then seemed to appeal to Goschen, but for a time he was quite lost.

Disraeli looked over a great paper he had in his hand and said very quietly, "You got to satellites," as if he were speaking to a child who was saying his lesson.

At last Gladstone appeared to recover himself and said:

"Oh! I am very much obliged to the right honorable gentleman. We will leave the satellites and go on to something else."
