Free transportation both ways provided for all those people coming by way of Grants Pass. Address J. N. Gotcher, Williams, Oregon.

A LITTLE OF EVERYTHING

The supreme court of the state of Washington has decided that a man is not damaged by losing his wife.

The Russians say the Japanese soldiers want peace, and the way they have been fighting for it gives color to the rumor.

Nine hundred new variable stars have been discovered. They are not theatrical stars, although the latter are extremely variable.

Edward Atkinson says that a man who could live on $300 a year always has gumption enough to get more. Russell Sage, for instance.

The would-be midshipman who increased his heighth by the use of a stretching machine might be rejected on the ground that he stretched the truth.

Not much has been said recently concerning radium. But how could it be expected to keep on creating excitement with meat at the present price?

A Scotch scientist is hunting for a rumored herd of stripped horses in Mexico, heedless of the fact that there is a "pub" on almost every corner at home in Edinborough.

The Detroit man who has secured a judgment of $2,000 against a secret order for injuries sustained while he was being initiated into the organization must have been butted furiously by the goat.

The English language must be approaching bankruptcy when the newspapers find it necessary to use the word "mischievous" to describe the boy who put a lighted cannon cracker in a comrade's pocket.

It has been said that some men will do anything for money. No doubt the Cincinnati man who has agreed to keep sober for three years for $50,000 feels that he has illustrated again the truth of his cynicism.

Down in New Hampshire a man swam a mile for the purpose of being on time at his wedding. Even at that he probably had to wait for the bride to put the finishing touches on her primping.

"It is," says the Florence (Ga.) Times, "much more comfortable, both to yourself and the rest of the world, to be a pleasant ass than an unpleasant bear." But why be either an ass or a bear?

Virginia courts still take the lead. Judge Harrison, of Winchister, has just decided that rich wives who employ their poverty stricken husbands on a farm must allow them enough salary to enable them to pay their honest debts.

The daughter of a Pittsburg millionaire has just been married to an Englishman whose title at presen tis merely that of captain. But he is the son of a lord who in the natural course of events, and provided he is decent about it, will die.

General Linievitch is said to be preparing for a "demonstration" in Manchuria, in order to influence the peace conference. The best "demonstration" he can make is that of keeping quiet. The Russian army is more terrible just before a battle than afterward.

Mr. Stepanoff, who stepped off this mortal coil at the age of ninety, at at Yarinsk, Russia, a few days ago, left his fortune to found a "school of beauty for aged gentlemen," and cut off his only son with a mere bequest of his 365 sets of false teeth. Yet the son should not regard himself as disinherited. If he cares to use the legacy he will have one change of teeth for every day in the year. The only sad thing about it is that once in every four years—on the extra 29th of February—the son will have to forget his father.

Gossip is a humming bird with eagle wings and a voice like a fog horn, says an exchange. It can be heard from Dan to Bersheeba and has caused more trouble than all the bedbugs, teks, flees, mosquitoes, coyotes, grass-hoppers, rattlesnakes, cinch bugs, sharks, sore toes, cyclones, yellow fever, gout and indigestion that this great republic has known or will know when the universe shuts up shop and begins the final invoice. In other words, it has got war and hell backed up in a corner and yelling for ice water.

Dear Gus:—I have solved the mother-in-law problem, just give her regularly Hollister's Rocky Mountain Tea. It will make her healthy, happy and docile as a lamb. 35 cents. Tea or tablets. Dr. Wicke's drug store, Central Point.

SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poisonous condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming of Spring and Summer, when the blood is reacting and making extra efforts to expel all morbid and poisonous matter, they make their appearance. External remedies cannot cure; they soothe and give temporary relief, but often clog the pores and glands, and the poison causing the trouble is thus shut up in the system to break out afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin diseases by going down into the circulation, driving out all poisons and waste matters, strengthening the blood, leaving the skin soft and smooth, and building up the entire system by its tonic effect. S. S. S. cures Nettle Rash, Poison Oak and all skin diseases that enter the system through the pores and glands, as well as those that have their origin in the blood. Book on Skin Diseases and any advice needed without charge.

In 1896 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. I was convinced I was afflicted with a type of Eczema. I consulted several physicians, and used several external applications, receiving but slight temporary relief. I decided to try S. S. S., and soon I found myself entirely cured.
Station A., Kansas City, Mo. W. P. BRUSH.

SSS

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Klamath County News.

Klamath Falls Express.

A stack of hay fell on a team and wagon on C. C. Lewis' place on Lost river last Friday and killed the horses. The stack contained about 100 tons. Vernie Cliff was in the wagon when the hay fell and Mr. Lewis was on the stack, but neither of them were injured.

The Catholics commenced the erection of their church building Tuesday on their property near the cemetery. The building will be 28x60 feet, the auditorium of the church being 28x48 feet. A parlor, priest's room and sacristy will occupy the rear of the structure.

J. M. McKinney, of Washington, D. C., an examiner of the reclamation service, is here, looking up the organization of the Water Users' Association. He says our association is in excellent shape and everything more systematized than any association he has investigated.

J. F. Kelly, vice-president of the Booth-Kelly Lumber Co., was in the city over Saturday, on his way to the Klamath reservation to look over the timber lands included in the military road grant, which the company have purchased, and upon which the attorney general has said the taxes must be paid.

A fire started in the woods Monday noon a Teeter's landing, resulting in 300 cords of wood belonging to Frank Adams and 400 cords owned by the Klamath Lake Navigation Company being destroyed. The Navigation Company sent a number of men down to the landing on the launch Ewauna Monday afternoon to stop the fire. Adams has 1500 cords of wood at the landing and the Navigation Company 500 cords.

W. G. Wight, the county superintendent, is closing his annual report of the schools of the county to the state superintendent. He has been worried recently because the clerks for several of the districts have failed to make the returns so that he could close up his reports. As far as known there has been a very agreeable increase in the number of pupils reported over former years in all the districts of the county.

Some time ago government officials requested the Ankeny and Adams canal companies to furnish abstracts of title to their properties in order that the same might be examined by the U. S. district attorney. These abstracts have now been examined and approved by U. S. District Attorney Banks and have been forwarded to Washington, D. C., for the examination and approval of the U. S. district attorney for the interior department. When the titles to these properties have been declared good by this official the money will be paid and the properties acquired by the government. We may, therefore, expect to hear in a few days that the government has actually purchased these two important canal systems, and the actual purchase of these canals by the Federal government means absolutely that the Klamath project will be constructed by the government.

There has been considerable complaint about the amount of water furnished consumers by the water company. Officials of the company state that it is impossible for them to supply more water at present with the present power plant and keep enough water in the reservoir in case of fire. The present pump can barely supply one fire stream of 125 gallons a minute, while the new pump the company is ready to put in will easily supply four fire streams. The representatives of the water company also state that if their plans had not been interferred with they would now be supplying 300,000 gallons of water to the town each twenty-four hours insead of about 150,000 gallons as at present. It is necessary to work the old pump twenty-four hours to supply 150,000 gallons, while the new one will supply double that amount in eight hours. Part of the new plant is here and part of it has been at Pokegama or three months.

Klamath Falls Republican.

The new steamer "Klamath" of the Klamath Lake Navigation Company, will enter the waters of Lake Ewauna Saturday morning at 8 o'clock. In order to avoid delay it has been decided not to have a christening. All are invited to attend the launching.

A number of friends were delightfully entertained by Mr. and Mrs. E. B. Henry at their residence, on Tuesday evening. The evening was pleasantly spent in social games and music and in the discussion of a dainty lunch. The affair was given in honor of Mrs. Harshbarger and Mrs. Calif. of San Francisco, and D. H. Worthington, of Beloit, Wis., who are at present visiting in the city.

A house in West Klamath Falls, belonging to Kirk White and Alfred Catsel, was burned to the ground at about the noon hour yesterday. The house was a miniature affair and had beenc onstructed by these young boys as a play house. They had it equipped with a stove and furniture. It is not known how the fire originated, but it is supposed that it caught from fire in a stove. It was a small affair, but might have proven a serious matter, and but for the changing of the wind might have resulted in the destruction of several residences.

One hundred and sixty-nine dollars and fifty cents was taken in by the Chamber of Commerce on the excursion to the Agency Landing Sunday. Although the day was very warm the big crowd thoroughly enjoyed themselves on the lake. The boat arrived at the landing shortly before 1 o'clock where the excursionists disembarked and ate their lunches which they had brought along with them. The scarcity of water was the only thing to mar the pleasure of the dinner, but some were thoughtful enough to bring along a substitute.

A Warning To Mothers.

Too much care cannot be used with small children during the hot weatner of the summer months to guard against bowel troubles. As a rule it is only necessary to give the children a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in case of cholera infantum. For sale by Charles Strang.

FOLEY'S HONEY AND TAR
Cures Coughs, Colds

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says—"I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

He Succeeded.

"Stop!" With a desperate gesture the man forced his way into the room where the two women were engaged in a discussion.

The woman who was speaking kept on as if nothing had occurred.

"Stop!" cried the man again excitedly. "This thing has gone far enough. I forbid you to do this thing you contemplate. My rights shall not be so downtrodden."

His wife regarded him in exasperating silence for a moment, and the maid looked bored.

"I command you to desist," he thundered.

"Well, have it your own way then," remarked she who bore his name, and together the two women left the room.

The man drew a long, quivering sigh and wiped his pallid brow, but victory was his.

He had saved his favorite shirt from becoming a dust rag.

Fooled.

A regiment of soldiers was drawn up for church parade in the barrack square, but the church was being repaired and could only hold half of them.

"Sergeant-major," shouted the colonel, "tell all the men who don't want to go to church to fall out on the reverse flank."

Of course a large number quickly and gladly availed themselves of the privilege.

"Now, sergeant-major," said the colonel, "dismiss all the men who did not fall out and march the others to church; they need it most."—London Standard.

"DIAMOND EDGE" TOOLS

Are the favorite tools of good workmen. Their all around goodness has made them so, and all who ever use them swear by them. You can't use any other kind if you want to do the best work!
