The Glass Bros. threshing machine has come and gone, at least to some of us, and if weather continues favorable there will be little work left in this neighborhood by Saturday night. They have an up-to-date outfit this year and are doing work to suit the farmers. Grain is turning out rather better than many expected, after hearing the discouraging reports from some sections of the county. One small piece of wheat went over forty bushels to the acre.

Lake Creek Items.

W. T. KINNEY David Wilkins made a business trip to Medford not long ago.

Frank Farlow is building Charles Tyroll, of Brownsboro, a nice dwelling.

Geo. Brown, of Brownsboro, erected a water-power threshing machine this season, threshed a nice lot of grain for himself and did some custom work. Some said it wouldn't work, out it did.

Riding for beef has begun on the famous stock range on Dead Indian and Grisley sections. The beef will be purchased by Mitchell, of San Francisco. The beef is good in these parts.

John Miller and his brother, Frank, the expert bridge builders and general mechanics, are erecting a bridge across Lick creek, near Brownsboro. A long wished for and a much needed improvement on our roads.

The Kinney, Hart & Wilkins saw mill will be humming in a few days. We will have lumber to let. Your bills solicited. Located on J. G. McAllister's place. A first-class article will be put out a reasonable price.

Charles Randles and Roy Stamba are expert teamsters, having driven six horses loaded to their limit over the McAllister soda springs road not long ago and delivered the boiler and engine for the Kinney, Hart & Wilkins Co.'s saw mill, without a hitch on the trip.

The berry patch in the vicinity of Fish lake was visited by a goodly number this season. Among them were: T. L. Farlow, C. R. Moore, Dick Slinger, Charles Sealfield, Amel Peck and their families. An exceptionally good time was the current report. The harvest of berries was great. T. L. Farlow killed a nice, big buck for camp meat. The animal came right on the grounds of their camp to meet his fate from the crack shot. Others who enjoyed the outing at the noted resort were: Tom Steinson, Charles Wilkinson, John Smith, Frank Centers, the latter named hauling from the big sticky section.

Ontion harvesting is under way in the onion belt, on Little Butte, which is the best onion belt in Rogue river valley. Not only onions, but all other crops which are adapted to this section, grow to perfection. Stock of all kinds are grown successfully on the adjacent hills, which affords the best grazing of any section in the county and is for sale at reasonable prices. Eagle Point, the metropolis, is a flourishing little town, with brilliant prospects, being on the Medford and Crater Lake railroad, which brings all the little creeks in close touch with the commercial centers, offering a greater inducement for the growing of the various crops and the development of the timber resources, which are practically inexhaustible. The visitor to this prosperous section will also see Brownsboro, a very wide-awake place, with an unlimited future. Lake creek is the last mail

station on Little Butte. The varied resorts for hunting and fishing, mineral springs—the best in the land—affords the pleasure-seeker and the residents also a recompense in health and strength of inestimable value. Come and see and be convinced. Better roads are being built than ever before. No other sections of the country affords a better inducement for the investment of capital, as property values are bound to advance. In a broader sense of the word Oregon and more especially Jackson county is the most prosperous and productive section of the northwest.

SPECIAL.

Additional Local.

—Messrs. J. G. Van Dyke & Co. have leased, for a term of years, the new brick building, which is being put up by J. F. Kelly, just two doors west from their present location. The new room will be larger, better lighted and more modern than the one they now occupy and will give them a better opportunity to properly handle and display the large stock of goods which they carry. These people have built up a splendid business in Medford—by handling honest, up-to-date goods and by the honest and straight up business methods they have adopted, and now that they are going to move to better and pleasanter quarters, all their friends will rejoice with them, because of their success in business and because of the greater conveniences which will surround them. Even their competitors in business will congratulate them.

—Dr. G. H. Carter, dentist, offices over Van Dyke's store; 'phone 681. 37-1.

—Mr. and Mrs. Leon Haskins arrived in Medford Sunday and are now residing in their pretty little home, on North B street, which Mr. Haskins had fitted up and furnished for the reception of his bride prior to their marriage, which took place in Berkeley last week, as announced in these columns. The many friends of both the bride and groom—friends who have been such since they were little tots, will be pleased to know that they are so nicely situated in our town and that they are always—presumably—to be residents.

—J. M. Alnutt has opened a cigar factory in West Medford. Mr. Alnutt is a gentleman who has had years of experience as a cigarmaker and when he gets squarely on his feet and down to actual business he promises that he will put up a cigar which our people will want—because they will find it first-class in every particular.

—Recorder J. E. Teft is confined to his bed with a severe attack of illness, and has been unable to perform his regular duties for the past several days. J. W. Lawton has been sworn in as recorder pro tem, to serve during Mr. Teft's illness.

—H. D. Angle, whose resignation as chief of police was accepted last week by the city council, has been re-appointed to the position by Mayor Pickel.

—The second story of the Karnes & Ritter-Kelly building is being finished this week, and the structure will soon be ready for the plasterer.

—Married—At the home of Mr. and Mrs. Geo. Mackey, on North C street, Mr. H. Sergeant and Miss Sarah Fruit, Rev. Adams officiating.

—Frank Caldwell, who is employed in the Wortman & Gore market, as cutter, is quite sick at this writing. Dr. Cameron is in attendance.

—Married—In Jacksonville, Wednesday, Sept. 13, 1905, by G. W. Dunn, county judge, T. Miller and Miss Maude Bauer, both of Ashland.

—The atmosphere is still filled with smoke from forest fires, which are doing quite a considerable amount of damage in some localities.

—Married—At Jacksonville, September 12, 1905, by Rev. H. C. Brown, Dexter Hale and Mrs. Mollie Hale, both of Medford.

—Orin Davis, who has been quite ill for the past couple of weeks, is now very much improved and is able to be about again.

—Mrs. Jennie Gison has been granted a divorce from David H. Gison and also the custody of their child.

Not a Convention.

On September 1st, Chairman F. C. Baker addressed a letter to the various members of the state central committee, as follows:

"You are respectfully requested to meet the other members of the Republican State Committee in Portland, Thursday, the 12th of next month; and you will please invite a goodly number of representative Republicans of your county to come and take part in the reunion; and should there be in your county aspirants for state or district office, invite them also to be in attendance and participate."

Comments were made by the opposition press, implying that the call was for the purpose of holding a quasi convention, settling the preliminaries, as it were, in regard to candidates for office, and in fact that it was an attempt to defeat the direct primary law.

Mr. Baker answers an inquiry from one of the committeemen on this point through the columns of the Oregonian and specifically denies that such was the intention of the meeting. In part Mr. Baker says:

"No, sir; there is no likelihood that any member of the committee will even move for a convention. What we have in mind is to have a reunion of the committee and other leading Republicans from all over the state with a view of a united Republican party in Oregon. In my letter file are many letters urging that steps be taken toward harmony and emphasizing the justice of it; and in deference to their views and the expressed opinion of Republican papers in the state I decided to request the committee to meet here at the above date and to bring long representative Republicans and who here to discuss whatever may be discussable. In short the reunion will be a peace conference—an open door to the Republicans who favor party harmony."

The direct primary law was enacted by the people and for the people—it is the off-spring of the people themselves; and no attempt shall be made to nullify in any degree its letter or spirit; but, my dear sir, the Republican party—the party of Abraham Lincoln and McKinley and Roosevelt—the party of protection and progress—still lives! And here in Oregon if the same zeal displayed last November in getting voters to the polls is displayed next year by leaders and officials of the Republican party, every nominee of our party for state and district office will be elected by pluralities approaching the unprecedented vote cast for Roosevelt and Fairbanks on that auspicious occasion."

Short Peach Crop at Ashland. The Tidings says there is about one-fourth of an average fruit crop in the vicinity of the granite city this year, and that the Fruit Association has sent out but eight carloads of peaches and that small shipments by express would bring the total up to about ten. The crop has been damaged considerably by worms and fungus growth, so that choice, fancy stock was scarce. The Tidings further states that growers of loganberries have done well this season and express the opinion that loganberries at 75 cents a crate are more profitable than strawberries at \$1.50.

To My Patrons.
