$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Crawford Shoes

The bashful Standish doth not dare
To ask a maid his lot to share.
In fight he fears no foe nor hurt
Yet trembles when he sees a skirt.
So dapper Alden, by his wiles,
Presents the loud ha-ha to Myles.
For girls must ever choose a man
Whose dress is close to fashion's plan.
Poor Standish groans,
"My girl I lose
Because I don't wear
Crawford Shoes."

Table Rocks Items.

BY J. C. P.

Mr. and Mrs. E. H. Davis spent Monday in Medford, visiting and shopping.

Roy Nichols came up from Gold Ray Saturday night to visit his father and mother for a day.

N. C. Gunn and family drove to Willow Springs to spend Sunday with their friends, Mr. and Mrs. Robert Ashworth.

Arthur Shields and family have moved to Tolo and will have charge of the Ray farm there, formerly owned by Jap O'Hara.

T. H. Pendleton came up from Grants Pass last Wednesday and spent a week with relatives here, returning Friday.

This end of the valley came in for a goodly share of the medals at the Lewis and Clark fair, and it is a pleasure to producers to know that their efforts were appreciated.

Saturday afternoon Mrs. Pendleton received a genuine surprise party. Eight ladies with eight babies came to spend the afternoon. The ladies were all young and charming and the babies a most wonderful eight, as they never once cried or in any way disturbed the conversation or the amusements indulged in by their "mothers," all of which can be better understood when it is known that the ages of these "mothers" ranged from four to twelve years. The quaint, grown up costumes, the piled up curls surmounted by piquant bows, made this company of midgets a picture worth gazing upon, and their enjoyment at the complete surprise added spice to the occasion.

Toothbrushes.

"In the straight toothbrush one thigh bone of a beef twelve inches long and four in diameter will cut four perfect blanks. The same bone will cut only two of these fancy curved pieces. That's one thing that makes the difference in cost between plain and fancy," said a manufacturer. "When the bone is cut to length and shaped, bristles are hand drawn by wire or thread through the brush part, each group of bristles having its own leader. Then they are securely fastened, and the work is finished. When the bristles first go in they are fully three inches long. After being firmly secured they are cut down to the size required. What bristle is best? Well, in some respects that's a matter of taste. It is all hog bristle, but whether soft or hard depends on the user."

A Little Tale From Fairyland.

"Just by way of experiment," said the first fairy, "I appeared to ten men at random and asked them to make a wish, and seven of them wanted to know how to play the races."

"Ah!" said the other elf. "Only seven? But, I presume, the others thought they knew."—Punch.

His Weak Point.

A man was killed by a circular saw, and in his obituary notice it was stated that he was "a good citizen, an upright man, and an ardent patriot, but of limited information regarding circular saws."
