The ideal wife never attempts to boss her husband, according to an eastern preacher. That is why she is called the ideal wife—because she has no real existence.

A young man who weighs about 200 pounds and has muscles in proportion is apt to be joyously surprised this year at the ease of the college entrance examinations.

From Tokio comes the news that three naval paymasters have embezzled \$105,000 of government funds. Oh, yes, the Japanese are getting to be just like the rest of us.

A Philadelphia man went right on living for an hour while his heart was out of his body. He did not wake up to the fact that it was gone until the surgeons had put it back again.

An unexpected result of the war just ended is the marriage at Tokio of the Associated Press correspondent there to a woman war correspondent of Leslie's Weekly. Cupid follows the flag.

"There are," says James J. Hill, "plenty of chances for young men to day." This undoubtedly is true. There is hardly a football coach in the country who is not hunting for more good, strong young men.

An eight-year-old son of L. D. Smith, of Coos river, accidentally shot himself while trying to knock some apples from a tree with the butt of his gun on Saturday and died a few hours later.

Twelve carloads of Oregon apples will be shipped from Portland to Oriental markets this fall, a larger quantity than the buyers on the other side have before taken. The fruit will be distributed between the various ports of Japan, China and Manchuria. Most of the apples are of the Ben Davis variety, which are chosen because of their excellent shipping qualities. The Manchurian order of apples began coming in the day the peace treaty was signed, showing the market was ready for the fruit and was only waiting for the resumption of shipping facilities.

Torture of a Preacher.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harperville, N. Y., will interest you. He says: "I suffered agonies because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies without relief, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough and saved me from consumption. A grand cure for diseased conditions of Throat and Lungs. At Chas. Strang, Druggist, price 50c and \$1.00, guaranteed. Trial bottle free.

RHEUMATISM AN INSIDIOUS DISEASE THAT BREAKS DOWN THE STRONGEST

Rheumatism does not come on in a day; the system for years. This insidious disease becomes entrenched in the blood, and some exposure to cold or damp weather, or slight indiscretion brings on an attack. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general sluggish condition of the system are responsible for Rheumatism. Food souring in the stomach poisons the blood, the failure of the kidneys and liver to act properly leaves waste matter and impurities in the system, which, coming in contact with the natural acids of the body, form uric acid. This is absorbed by the blood, and as it penetrates to the muscles, nerves and bones produces the terrible pains and aches and other disagreeable symptoms of Rheumatism. Life is made a torture by its excruciating pains, nerves are shattered, the health undermined, and if the disease is not checked it breaks down the strongest constitution. It will not do to depend on plasters, liniments, etc.; such treatment is helpful in easing the pain and reducing the inflammation, but does not reach the blood where the real trouble is located. S. S. S. cures Rheumatism by purifying and invigorating the thin, acid blood, driving out all impurities and poisons and sending a stream of strong, rich blood to wash out all irritating particles that are causing the pain and inflammation. S. S. S. stimulates the sluggish organs to better action, tones up the stomach and digestion, restores nervous energy and builds up the entire health. S. S. S. cures Rheumatism, whether acute or chronic, and the cure is thorough and lasting. Book on Rheumatism and any medical advice desired without charge.

Klamath County News.

From Klamath Express.

James Tobin has sold his ranch to a man from Columbia county. He received \$8500 cash and 320 acres of dairy and timber land, sixty miles north of Portland, valued at \$3500. Mr. Tobin is well known in Klamath county, having lived here for the past twenty years. He is a genial, generous, warm-hearted Irishman, and no one in distress was ever turned away from his door empty handed. His many friends and neighbors will miss him very much and wish him success in his new home.

Tuesday evening was the nineteenth anniversary of the organization of the order of the A. O. U. W., and the local lodge had a grand blow-out to celebrate the occasion. Ralph Pessing, past grand and deputy district grand master of the order, was present and addressed the assembled Workmen. After the following officers had been elected for the ensuing year, the members gathered around the banquet table and enjoyed the flow of wit and wine: W. O. Smith, M. W.; Roy Hamaker, foreman; Fred Smith, overseer; J. W. Siemens, recorder; A. Martin, financial; C. F. Baldwin, recorder; Frank Wilson, guide; W. Lennon, O. W.; E. Egert, L. W.

It is alleged that the swamp lands bordering the Lower Klamath lake in the county had a narrow escape from being gobbled up by dummies in the interest of the sugar trust just before the state of California ceded these lands to the Federal government.

Some narrow-minded, or interested people, declare that the state lost \$60,000 by being in a hurry to cede these lands to the United States in order that they might be reclaimed and irrigated, but when it is considered that these lands will, in a few years, be opened to actual settlers in eighty acre tracts, the loss of \$60,000 to the state of California will add 750 prosperous families to the population of that part of the state, each on eighty acres of first quality soil under the homestead law at just the cost of reclamation and irrigation, while these lands would have cost the settlers, in addition to reclamation, from \$10 to \$15 an acre, if they had gone into the hands of land-grabbers. It is alleged that the sugar trust was on the point of gobbling up these valuable lands through dummies, when the plans were frustrated by the legislature of California ceding the lands to the United States. It will be remembered that there was some opposition in the legislature to the cession of these lands at the time and it can readily be imagined where sneers of war came from to oppose the cession.

It is stated that the purpose of the sugar trust in acquiring these lands was to rent or sell them to parties who would raise sugar beets to supply an immense factory to be erected on the grounds.

W. F. Arant, superintendent of the Crater Lake National Park, has returned to his home near this city. Mr. Arant says that the water has set in at the park and that the show is several feet deep already.

On Wednesday evening at 6 o'clock, George C. North and Mrs. Maria Mitchell, both of this city, were united in marriage by Rev. J. W. Bryant.

Michael Galanearu, of Spring Lake, and Miss Mary Hahn were married Wednesday afternoon at the American House. Judge George T. Baldwin performed the ceremony.

It. St. Geo. Bishop took his family to Pockama Saturday. From there Mrs. Bishop and daughter will go to Ashland to spend the winter. Mrs. Bishop's health has been poor for some time and it was thought the climate on the other side of the mountains would do her good.

The Klamath County Agriculture Association held its regular annual meeting at the election of directors Saturday afternoon at the office of the county judge in the court house. Two hundred and forty-nine shares out of the total of 110 were represented, either in person or by proxy. The following directors were elected: Geo. T. Baldwin, Alex. Martin, Jr., Louis Geraber, J. V. Houston, John S. Shook, Albert Walker and W. C. Dalton. At the directors meeting the

following officers were elected: Geo. T. Baldwin, president; J. V. Houston, vice-president; Alex. Martin, Jr., treasurer. The office of secretary will be filled later. The report of Secretary Bishop, who was absent, showed the association to have cleared \$295 on the last year and month. This leaves the association only \$200 in debt and is a great encouragement to the stockholders.

Merrill Record.

Howard and Brown will start for the railroad with a bunch of 250 head of cattle about the 10th inst., for the lower markets.

We have it from authority that Merrill is going to have a sash and door factory and an electric light plant. Operations on these new enterprises will commence as soon as the weather will permit in the spring.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running sound or imperfect hearing, and the hearing is gradually lost. Deafness is usually caused by catarrh of the Eustachian Tube. It is a local inflammation of the mucous membrane of the tube. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Farm Notes.

From Oregon Agriculturist:

According to the Lebanon Express Advance, Eugene buyers bought about 1000 turkeys in the vicinity of Lebanon for shipment to Alaska. One farmer received \$84.48 for twenty-nine spring turkeys.

The split-log drag is becoming popular as a road preserver in Oregon as well as in other states. It is undoubtedly a most useful thing for keeping earth roads in good condition and gradually improving them. With good drainage and the continued use of this drag it is possible to develop and maintain good earth roads unless the travel is very heavy.

In New York City Oregon and Washington Newtown Ellipses are quoted to the trade at \$2.50 to \$4 per box; Oregon and Washington Splitzbergers, \$2.50 to \$4; Idaho Jonathons, \$2.50 to \$3; Colorado Roma Beauties, \$2.50 to \$3; Colorado Arkansas Blacks, \$2.75 to \$3; Colorado Jonathons, \$2.25 to \$2.75; For Eastern Splitzbergers, the quoted prices are from \$2.50 to \$5.00 per barrel.

The Fruitman's Guide, New York, November 18th, said: "Some 14,000 boxes of apples went across last week, mostly California Newtowns, and the shipment this week will be just as heavy, if not heavier. There is a slow California Newtowns, and they will mostly all go for export. If any of those Oregon Pippins go over, keep your eye on them, for they differ as much in quality from the California as cheesecloth does from changeable silk."

For the year ending June 30, 1904, the United States imported 23,570, 721 pounds of walnuts, valued at \$1,720,378. France sent us 17,123,083 pounds; Italy, 3,084,089 pounds and Chile, 1,938,322 pounds. During the same year the United States imported 9,838,852 pounds of almonds, valued at \$1,246,474; coconuts to the value of \$971,852, and nuts of varieties not specified to the value of \$1,823,402.

Furious Fighting.

"For seven years," writes Geo. W. Hoffman, of Harper, Wash., "I had a bitter battle with chronic stomach and liver trouble, but at last I won, and cured my diseases by the use of Elettro Bitters. School Notes.

The quarterly examination occurred the last week in November, Wednesday, November 16th.

The seventh and eighth grades gave a Thanksgiving program in the seventh grade room, which was beautifully decorated.

Mr. Cross furnished us with an electrical piano and its operation by electricity proved very interesting to the pupils and visitors. The visitors present were: Mesdames C. I. Hutcheson, York, Perry, Lumsden, Isaacs, Armstrong, M. B. Signs, Fay, Stanley, Carstens, Goodsal, Taylor and daughter, Mrs. Johnson and daughter, Mrs. Mauls, Mrs. Sturgis, Mrs. Irwin, Miss Wilson, Miss Fielder, Mrs. Jones and Mr. Cross.

The seventh and eighth grades displayed some of their fine drawings of the last three months.

The eighth grade received the banner for the best marching during November.

Four new pupils entered the eighth grade in November: Bertha Pierce, Grace Martin and Weldon and Clarence Sage.

The first number of the lecture course November 20th proved very entertaining to the members of the eighth grade, who were fortunate enough to hear it.

DEATH CALLS SENATOR

J. H. MITCHELL OF OREGON DIES FROM HEMORRHAGE FOLLOWING DENTISTRY.

Portland, Ore., Dec. 9.—United States Senator John H. Mitchell died at the Good Samaritan Hospital in this city at 11:40 o'clock yesterday forenoon, death resulting from complications which followed the removal of four teeth at a dental office Wednesday morning.

A hemorrhage of unusual severity followed the removal of the teeth, and, despite the application of the most powerful styptics known to dental science, the flow of blood could not be stayed. Physicians were summoned to the dental office, but the combined scientific knowledge of the dentists and physicians could not stop the flow of blood.

The Senator's condition soon became alarming and it was determined to remove him to the hospital. When the Senator reached the hospital he was in a very weak condition and it became apparent that unless the flow of blood was soon stopped life would pass out.

Senator Mitchell had long been a sufferer from diabetes and other vitiating diseases and in his weakened physical condition rapidly succumbed to the inevitable weakness following such violent hemorrhage and lapsed into a state of semi-consciousness early in the evening.

Work over the Senator at a late hour temporarily stopped the hemorrhage, but the relief was of but short duration and again the blood began to flow intermittently, continuing during the evening and through the night. At an early hour in the morning a severe vomiting spell further weakened the Senator and it became more and more apparent that the end was approaching. All during the night saline solution was injected into the veins to furnish more fluid for the circulatory system and to stimulate the sluggish circulation.

The diabetic coma into which the Senator lapsed became more and more pronounced, despite the frequent use of powerful stimulants and only occasional evidences of returning vitality rewarded the untiring efforts of the physicians and nurses in attendance. Senator Mitchell did not at any time realize the seriousness of his condition. When he visited the dental office he was in a weakened condition owing to the disease which afflicted him, and his request that an anesthetic be administered was declined, the dental operator persuading him that such a course might prove harmful. The first three teeth extracted with little or no trouble, the flow of blood being normal. The extracting of the fourth tooth was a more difficult task and it was following the removal of this that the violent hemorrhage manifested itself.
