

# A LITTLE OF EVERYTHING

There are some people just mean enough to hope that John D. Rockefeller will be so terribly seasick on their way to Europe that he will never care to make the return trip.

At any rate Michael Davitt lived to see the beginning of the reforms in Ireland for which he labored fifty years and spent three terms in jail.

Senator Stone has decided that President Roosevelt is a working, but he will have to produce proofs to convince the packers who have had their corners torn off in the struggle.

From the published descriptions of Castro's fortunes, running a South American republic must be more lucrative than operating a get-rich quick game.

Miss Krupp, daughter of the gun manufacturer, draws an annual income of over \$5,000,000, all of which goes to show that the universal disarmament idea is not making much material headway.

The anti-past law, which was adopted by the people at the late election by such a large majority of the votes, is void on account of the omission of the enacting clause. It is likely the courts will be called to pass on it in a short time.

The metal occurring as black irregular nuggets in the placers of Western Josephine county, Oregon, also in some of the placers in Northern California, has been identified by the chemists of the U. S. geological survey as natural alloy of nickel and iron, containing 23.36 per cent of iron and 60.47 per cent of nickel. It differs from meteoric iron in containing no phosphorus. The nuggets range in size from that of a grain of sand to a goose egg. They are found particularly along the serpentine belt in Josephine county, Or., and in Del Norte county, Cal. This is the only district in the world where this strange alloy is known to exist. It has been called Josephinite.—Mining and Scientific Press.

## Cures Old Sores.

Westmoreland, Kans., May 5, 1902. Ballard, Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allenville, Miller Co., Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle. Sold by Chas. Strang, Medford; Central Point Pharmacy.

## Klamath County News.

Work on the electric street railway continues and a large crew of men is still employed. The Klamath Development Company received twenty-four tons of steel rails and one and a half tons of spikes Tuesday night. Other large consignments will arrive shortly. The California Northeastern now has six crews at work on the railroad. Contractors Erikson & Peterson are now working eight miles from Mt. Hebron and will be within thirty-five miles of Klamath Falls in a few days. The big cut at Grass Lake, one of the most difficult pieces of work in the line has been entirely completed. Work is now in progress on twenty miles of the line and with this large force at work the railroad officials are confident that the road to Klamath Falls will be completed by this fall.

The members of the Klamath county bar have made arrangements for a visit to the historic lava beds. The excursion will be at the conclusion of the present term of the circuit court and will be in honor of Judge Geo. H. Burnett, of Salem, who is the presiding judge at this term of court. The party will be chaperoned by Captain O. C. Applegate, who is familiar with all the historic and interesting points connected with the Modoc war.

At a meeting of the school trustees of Klamath Falls Monday afternoon at the court house W. T. Sanderson was elected a trustee for three years. J. W. Slemmons was re-elected clerk. As there are no funds available, nor any way to get them, two of our public-spirited citizens, namely Abel Ady and C. R. Delap, offered to advance the necessary amount, \$500, and run the chance of being rein used in the future.

A. B. Trilwood, who has been confined in jail here for some months, having been arrested by Sheriff Oberlin on his release from the penitentiary, where he served a term for a murderous assault on J. Frank Adams in this county in 1898, was adjudged insane by County Judge Baldwin last Wednesday. Dr. Cartwright and Maryman conducting the examination of the prisoner. In answer to Dr. Cartwright, Trilwood stated that his name

was A. B. Trilwood and that he had gone under the name of Newton Ritter; that his residence was Medford and that he was born in Northwestern Indiana.

Republican:

100,000 feet of lumber were landed at the dock on the upper lake yesterday for use in the Buena Vista addition. This lumber from the Odesa mill, the entire cut of which has been purchased in order to insure an ample supply of building material for building purposes for those erecting homes on this beautiful tract this year. Through the agency of the real estate firm of J. F. Nowlin & Co., the Charles Baird tract of land on Lost River, consisting of 708 acres, was sold this week to F. E. Wilcox, of Milton, Oregon. The price paid was \$10,000. The ranch consists of both lowland and hill land, and is well adapted for grain growing and is well irrigated. About 300 acres is under the government irrigating system. Mr. Wilcox certainly got value received for his money.

The Indian appropriation bill which finally passed both houses of congress, Monday, ratifies the McLaughlin agreement with the Klamath Indians, whereby the Indians cede to the government 321,024 acres of their reservation and are paid therefor \$637,307. Twenty-five thousand in cash is to be paid pro rata to each man, woman and child belonging to the tribes on the Klamath reservation with 150 days and \$350,000 is to be deposited in the treasury to draw interest at five per cent to be paid annually to the Indians on a per capita basis. The balance of the fund after paying the fees of attorneys having approved contracts with the Indians is to be expended for the benefit of the Indians by the secretary of the interior in drainage and irrigation of land, purchase of livestock, etc.

A new industry is springing up in this city and one that bids fair to grow to considerable proportions. It is that of boat building. A year ago Telford & Son started in a small way the construction of row boats. It was not the original intention to follow it as a business, but only as a sideline to their other work. The demand, however, was immediate and large, and today finds them engaged solely in the manufacture of row, sail and house boats and launches. They have in course of construction two two-horse power, sixteen foot launches, two complete one eight-hundred foot, three-horse power launch and expect to begin construction of one twenty-two foot, six-horse power launch this week. One of the sixteen footers is for J. F. Goeller and the twenty-two footer for L. Alva Lewis. The launches comfortably accommodate from five to ten people and make from six to ten miles per hour. The cost for a sixteen-footer is \$100 and an eighteen-footer \$250. They are made of native timber, scrub oak, red fir and pine entering into their construction. The boats are guaranteed by their makers and are sold at prices below what they can be purchased for elsewhere.

Merrill Record: A gain of thirty-two pupils in the Merrill school district over that of one year ago is one of the best evidences that this city is rapidly settling up. When S. E. Martin finished taking the census for the 1900-7 school term he found that he lacked just one name of having a round hundred. This was against sixty-seven a year ago and is a very good showing indeed.

## Have You a Cough.

A dose of Ballard's Horehound Syrup will relieve it. Have you a cold? Try it. It is whooping cough or asthma, for consumption, for bronchitis. Mrs. Joe McGrath, 327 E. 1st Street, Hutchinson, Kans., writes: "I have used Ballard's Horehound Syrup in my family for 5 years and find the most palatable medicine I ever used." Sold by Chas. Strang, Medford; Central Point Pharmacy.

## Carrier Pigeon Lands.

A remarkable incident occurred at L. P. Kippel's ranch, in Summer Lake, last Thursday evening. A carrier pigeon flew into the house. It was tired and worn out from long flight. A silver band encircled each of its legs. On one of the bands was "No. 115, 1905" and on the other was "M. D. C. M." The pigeon was left to rest in the house and the cat spoiled it, and attempted to make a meal on the bird. Some one of the household happened to discover the cat in time to save the pigeon, and, although it was injured somewhat, the bird is still alive and will be all right in a short time. The pigeon will be given its freedom to travel whenever it is able to fly, in order that it may finish its journey. There is no telling from where it came or where it is going, but undoubtedly it bears important news to some one who can make out the meaning of the figures and letters.—Lakeview Examiner.

Constipation makes the cold drag along. Get it out of you. Take Kennedy's Laxative Honey and Tar cough syrup. Contains no opiates. Chas. Strang, Medford; Mary Mee, Central Point.

## REAL INDEPENDENCE DAY.

July 3 Has a Valid Claim to Being Celebrated.

On the 3d of July, 1776, says Paul Leland Haworth in Harper's Magazine, John Adams, then one of the representatives of Massachusetts in the Continental congress, wrote to his wife Abigail:

"Yesterday the greatest question was decided which was ever debated in America, and a greater, perhaps, never was nor will be decided among men."

In a second letter, written the same day, he said: "But the day is past. The 2d of July will be the most memorable epoch in the history of America. I am apt to believe that it will be celebrated by succeeding generations as the great anniversary festival. It ought to be commemorated as the day of deliverance by solemn acts of devotion to God Almighty; it ought to be solemnized with pomp and parade, with shows, games, sports, guns, bells, bonfires and illuminations from one end of this continent to the other from this time forward forevermore."

When the resolution was taken up on the 2d, all the states except New York voted to accept it. Thus on the 2d day of July, 1776, the independence of the thirteen United Colonies from the throne of Great Britain was definitely decided upon. The 2d, and not the 4th, may be called the true date of the separation.

## Our Unexampled Republic.

The world has but one republic that has illustrated constitutional freedom in all its beneficence, power and grandeur, and that is our own priceless inheritance. As a government our republic has alone been capable of and faithful to representative free institutions, with equal rights, equal justice and equal laws for every condition of our fellows. All the nations of the past furnish no history that can logically represent itself in our advancement or decline. Created through the severest trials and sacrifices, maintained through foreign and civil war with unexampled devotion, faithful to law as the offspring and safety of liberty, progressive in all that ennobles our peaceful industry and cherishing enlightened and liberal Christian civilization as the trust and pride of our citizens, for our government of the people, none but itself can be its parallel.—Colonel A. K. McClure.

## How Firecrackers Are Made.

In former times all the crackers used on the Fourth of July came from China. Now nearly all of them are made right here in America. The work is very simple. Strips of soft pasteboard are saturated with some explosive material and rolled closely around a bit of "composition"—that is, powder mixed with sulphur so as to burn slowly with hissing noise, which is terminated with the sharp crack from which the "cracker" gets its name. A "primer," or a cord soaked with saltpeter, is included in the rolling process, a red cover is added, and the joy of the boy and the misery of the dog is ready for use.

## An Alarming Situation.

Frequently results from neglect of clogged bowels and torpid liver, until constipation becomes chronic. This condition is unknown to those who use Dr. King's New Life Pills; the best and gentlest regulators of stomach and bowels. Guaranteed by Chas. Strang, druggist. Price 25c.

## Her Claims to Patronage.

When Mrs. Lombard offered to recommend Miss Simpson to her friends as a dressmaker she was honest in her wish to help the little woman, but her efforts bore more evidence of honesty than of tact.

"I wish you would try Dora Simpson," she said earnestly to three of her friends who were calling upon her one day. "She's such a good little body and so unfortunate! Her old customers have dropped off one by one till there's scarcely a person in the neighborhood who employs her now."

"As I often say to my husband," continued Mrs. Lombard, with haste, as she saw signs of inquiry on the faces of her friends, "suppose she doesn't fit very well. That doesn't alter the fact that she has an invalid brother to support and that she tried everything else, from stonography to cooking, and only took up sewing as a last resort and just hates every stitch she takes and always has. Now, do try her, some of you. She's been with me for the last four days making a jacket for my Jim. Dora is just as patient about it as can be, though we've had it all to pieces three times."—Youth's Companion.
