H. C. Garnett—"Medford coal looks good to me and its getting prettier every day—because of the fact that the quality is improving; but I am telling you that its no joke getting it here. The roads are very bad and it is almost impossible for teams to haul anywhere near a load. Well, it is just like this:—The price at which wood is held and the scarcity of it leave coal the only available fuel. This scarcity of wood is going to work a hardship on a great many people, even on those who might feel that they would like to burn coal, because of the fact that they will have to equip themselves with coal burning stoves. Oh, there is no longer any question as to the burning and heating qualities of the coal. It is now a long way past the experimental stages.

There were about fifty present and a very pleasant evening was spent in having a good time in various ways. After the regular lodge work was over a very entertaining program was rendered, which here follows: Piano solo, Venita Hamilton; vocal solo, Marie Eifert; violin duet, Zola White and Irene Flynn; piano solo, Janes Butler; vocal solo, Edna Hamilton. This was followed by a peanut hunt and stereoscopic view of pictures on canvas. The manner in which participants were selected for supper was unique and created no small amount of amusement. By the aid of the stereoscopic light was thrown on a canvas when some one of the ladies would step into the light and the gentlemen would bid on her for a partner. This was continued until all the ladies had been "auctioned off" and all the men had secured partners. Delicious refreshments of sandwiches, cake, salads, ice cream and coffee were served. This was the first social night for this lodge and it was a very pleasant one. The committee in charge of affairs was Miss Edna Eifert, Mr. and Mrs. J. H.
