

A PORCH PARTY

June is the time for out-door festivities. One of the pleasantest forms of amusement possible at this time is the lawn or porch party. Special Electric Illumination adds materially to the beauty and delight of such a jollification. A few Electric Lamps hung in Japanese lanterns go a long way. Get your home wired for Electricity at once and it will be very little trouble to string temporary lights for special occasions. Send for the Estimate Man.

ADDITIONAL LOCAL.

Last Sunday evening Children's day exercises were held at the Methodist Episcopal church in this city. The church was beautifully decorated with potted plants, cut flowers and evergreens, while over the pulpit was a large arch of evergreens and flowers, and this illuminated with colored electric lights. The program was very interesting and every part especially well handled, especially pretty and well rendered was the flower drill, made up of the little queen and sixteen little girl attendants. These were drilled by Miss Minnie Corey, whose efforts are deserving of credit. The program closed with a "fishing" performance, by Rev. Reuter. This was applied morally and spiritually and in it Mr. Reuter showed how, even in biblical days, the devil went fishing with all kinds of bait, and that he was successful to a limited degree in catching the unwary, as he is this day and date, and he pictured, also, the awful fate of those who were so weak as to be tempted by the devil's deceptions and snares. The evening's program was very entertaining and was fully appreciated by the large crowd in attendance.
