Queer isn't it what a little change in the weather or season it takes to make some people knock. Queer too, isn't it how Oregon always makes good; last spring after the big rain in March the knacker got busy, but in spite of his predictions of general disaster Oregon has made good. The orchards are in fine condition and loaded with fancy fruit. The early rains have done their work and every thing looks so nice it makes one glad they are alive and in Oregon. Oregon always makes good, just paste this in your hat and boost.

Would You Like to Own a Producing Orchard in the Rogue River Valley?

You know what others have done, why not you? Why not begin now to develop an orchard property that will yield you an independent income in a few years? We have planted 320 acres of choice land one mile east of Eagle Point, in 10 acre tracts under the name of

Eagle Heights Fruit Farms,

and offer 10 acre tracts for a very moderate payment down, balance Payable \$20 a Month Without Interest.

If payments are met when due. The soil on these tracts is a deep black loam. They are one mile from and on the same kind of soil as one of the best producing orchards in the valley. They are only

One Mile from the Railroad Station of Eagle Point,

from which the trains make two round trips daily to Medford, making this an ideal location as regards railroad and shipping facilities. Remember these are choice tracts of cleared land that was under cultivation last summer and only require plowing to be ready for planting trees. Why not invest some of the money you spend every year on things you do not need in 10 or 20 acres in Eagle Heights Fruit Farms and lay the foundation for your future independence. You wish to better your condition, to increase your income, to store up for the future so you will be assured of a permanent income. You want your money to work for you. You want an investment that will give you absolute security. You expect reasonable profits. These tracts fulfill the three conditions of a good investment.

Safety, Permanence and Profit.

The Plat is recorded in Jacksonville, and an Abstract of Title will be furnished free of charge with each tract. We will arrange for you to inspect these lands free of charge. Why not take a day off and visit Eagle Point and learn more about the Eagle Point district, one of the garden spots of the Rogue River Valley, and inspect these choice tracts of orchard land. Call at our office, where we have photographs and plats on display, and we will give you full particulars.
