CITY HAPPENINGS.

—Medford lost to Ashland Sunday by a game that was so full of errors that it would make a Swiss cheese look like a solid block of marble. The Medford team is, of course, badly demoralized, but that isn't the fault of the players, but that of the alleged fans of the town. We had a winning team last year and played some games that made every lover of the national sport "sit up and take notice." In spite of that the team quit lower in the gate receipts and the players played "for fun." This year a couple of the best of them—Isaac and Purdy—had offers from a live ball town and took the offer up. Two others also of the best—Rothermel and King—refused to play and all we have left out side of the school boys are Miles and Houseman. You can't blame the boys for not practicing enough to put up a decent game of ball when they don't have the time to do it, nor can you expect them to "play their heads off" on a quarter-filled grand stand when half the crowd is rooting against their own team. Still there are some promising players among the youngsters, who might in time fill up the ranks. Swagerty, at first was not bad for a beginner. Strang, if he wouldn't "fight the call" and would develop a little more speed in moving, would cover the second station in fair shape. Lane at third wants to cut out that one hand business—and "squeeze the ball." "Splice" Wait was behind the bat Sunday and

when Houseman put the smoke on it almost lifted the little fellow off his feet. He was game, though, and even after having his fingers split played the balance of the game.

—When you go on that picnic take ice cream with you. We are ready to supply you at the Rogue River Creamery.

—A fair sized audience greeted J. D. Matlock, mayor of Eugene at the opera house on Monday evening and listened to his address on the liquor question. Mr. Matlock, as mayor of a "dry" city, had much of interest to say to his audience and his remarks were listened to with more than passing interest. He sketched the history of Eugene and the conditions existing there both under a "dry" and a "wet" regime. He stated positively that Eugene was much better off under present conditions than it had ever been before prohibition went into effect. He was frank in his statements on both sides of the question and showed where money was lost to the city but he showed also where conditions were bettered. He concluded his remarks by expressing the desire on his part that the residents of Jackson county vote the county "dry" on June 1.

—Edward Hartman was fined \$50 by Recorder Collins on last Saturday for being drunk and disorderly and resisting a police officer. Hartman seems to be a very hard character and when Chief Turpin attempted to arrest him he fought viciously. He told about town previous to his arrest that he had been out of the penitentiary but a few weeks. This is one of the heaviest fines imposed by Recorder Collins for some time.

—The Helman Baths, at Ashland, are to be opened for the season Saturday, April 25.

—The local Medical Association met on last Friday evening and discussed the establishment of a hospital for this city. The association directed their secretary to write to the Catho-

lic Sisters and tell them of the needs of a hospital in this section and what inducements were offered such an institution. It is reported that the Sisters will establish a hospital here if they are convinced that such an institution can be maintained.

—The Norris & Bove circus was accompanied by a number of fresh young men, who made themselves rather obnoxious by annoying young girls and women—without provocation. If one or two irate citizens had succeeded in locating certain members of this bunch, the circus would likely have been shy an employe or two the next morning.

Of the numerous cars in the valley at present there are 62 that are owned by people residing within the corporate limits of Medford.

—Nothing "just as good" as Golden Wets. 17-2t

—The report that one of the working men of the Western Orchard Company was stricken with small pox caused a number of men employed in the orchards to leave during the past week. Dr. Hargrave, health officer, made an investigation and found that the man was suffering from a minor complaint and not from smallpox.

—If you want a nice, mild cup of coffee, try Golden West, Miller & Ewbank. 17-2t

—The plans for the new school house have arrived and the local contractors are busily engaged in figuring upon them. There is some talk of building the school building out of sandstone instead of brick, however this matter is not as yet settled. It is expected that the school board will soon advertise for bids.

—Not the cheapest, but the best is the motto of L. E. Hoover, agent for the Washington Nursery Co. Every tree sold is guaranteed to be first class in every respect.

—The two cylinder Buick runabout belonging to the Hodson Auto Company made a record for itself the other evening. On the high gear it climbed the Jacksonville hill that leads to the Applegate country in six minutes and thirty seconds, a distance of two miles. This is certainly "going some."

School Notes.

Eighth grade examination occurs May 11, and 15.

All the high school teachers who applied were retained for next year. The science position remains to be filled since Mr. Logan contemplates other work next year.

There is a strong probability that a teacher on Manual training will be engaged to take that work and the drawing work next year.

Hobson has left Washington on his lecture tour and will be in Medford Monday evening, May 4th, at the opera house. Seats will go on sale Wednesday.

Applications for the entrance of pupils in school come in almost daily. It seems inadvisable to enter pupils in some grades at this time of the year, since the pupils are beginning reviews for the examinations, and owing to the crowded condition of several rooms.
