FROM COUNTY EXCHANGES

Gold Hill News:

Last Sunday afternoon a party of three young gentlemen and two ladies from Grants Pass, were passing through Gold Hill en route to Elk creek, upon a pleasure trip, and as they reached the Rogue river bridge a gun was discharged accidentally, the bullet passing through the right hand of one of the ladies, inflicting a painful wound. The party returned to town and Dr Kelsey was called to dress the wounded hand The bullet passed through the palm of the right hand and lodged in the thumb After the hand had been dressed they continued their journey They refused to give their names, as they wished to avoid any publicity in the matter.

The Vroman saw mill, on Morrison creek, was destroyed by fire Wednesday noon, together with seven or eight thousand shingles that had been made up during the present spring. The fire occurred at noon, while the employees were at dinner. It had been the habit of the workmen to burn the refuse sawdust and shavings near the mill, and during the prevailing wind that day a fire had been started and it is supposed to have started while they were at the boarding house. When it was discovered the flames had got beyond all control. There was no insurance and every thing was a total loss, amounting to about $8,000. Dr. Vroman, of this city had recently purchased the mill from W. L. McClure and had been at an enormous expense getting ready for the seasons run. It will not be rebuilt.

Jacksonville Post:

Messrs. Nye and Crouch are working on the cyanide plant at the Opp mine. The plant when completed will separate all the gold from the tailings, which runs about $2 per ton. Experiments made with the plant prove it to be a success. Mr. Nye is a Denver man and Mr. Crouch is an Oregon man, both experienced in this particular branch of the mining industry.

It is reported that the Blue Ledge is to open up soon This comes from good authority. When this mine resumes work it will employ in the neighborhood of 200 men. This is good news for Jacksonville because all the supplies will come from here. Although it is not definitely known, the company is trying to lease property adjoining their present holdings. The company will probably build a smelter this spring and railroad to connect with the R. R. V. R. R. at this point. This is one of the richest mines in Southern Oregon. The mine temporarily closed down about a month ago, after spending several hundred thousand dollars in development work.

Ashland Tidings:

The city council at its regular meeting Tuesday evening rejected the two bids that were submitted for bitulithic street paving and also laid on the table an array of petitions from citizens and taxpayers which asked for a re-advertisement of the project and the including of proposals for any and all kinds of hard pavement. This probably will be the end of hard pavement on Ashland streets for this year at least for the council practically said so when it adopted a motion by Shoudy upon the matter.

Billousness and Constipation.

For years I was troubled with billousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cent sizes for sale by Chas. One day recently was the most blessed and remarkable in ten years of New York City. There was no public event, no parade, no notable happening whatsoever. But, a writer in the New York Evening Post happened to discover, for twenty-four hour there had been reported not a single death by violence in the entire great city—a white-letter day in a place where all other days are red-lettered.
