FROM COUNTY. EXCHANGES

(Central Point Herald.)
The 2-year-old son of E. C. Welch upset a vessel of hot water yesterday and was pretty badly scalded. Dr. A. W. Swendenburg is in attendance.
Road Supervisor Hard is at work with his road crew in the Pruel lane and on the road leading to Medford adjoining the Hopkins orchard. Both those sections of the county highway have been in need of repairs for some time.

Veda, youngest daughter of Mrs. Margery Magruder, died at the family home in this city last Friday morning of pneumonia, aged 16 years, 10 months and 5 days, after an illness of but a few days. The funeral was held from the home Sunday afternoon, interment being in the family plot at the Central Point cemetery.
This is the third death in the family within a few months from the same disease, and the sorrowing mother, sisters and brother have the heartfelt sympathy of the entire community in their sad affliction.

A burglar or burglars robbed the safe in J. E. Young's grocery some time Friday night, and secured coin to the amount of about \$100. Entrance was secured through a window in the brick store building on east Main street. The safe was not locked at the time of the burglary. There is as yet no clue to the robbery.

Normal Summer Course.

The Southern Oregon State Normal school will conduct a six weeks' summer course, beginning June 18, and ending July 31, 1908. The course is as follows:

Course 1—Primary methods, including first three grades; one session of two weeks (12 days). Mrs. Katherine E. Sloan.
Course 2—Advanced Methods, including grades 4 to 8. Miss Armeta Kaiser.
Course 3—High School Methods and School Management and Supervision. Prof. A. L. Briggs, president Drain Normal school.
Course 4—Regular Normal Subjects and Review for County, State and Life Papers. President of School and Professor W. T. Van Scoy, Professor A. C. Joy, Miss Armeta Kaiser, Professor A. L. Briggs.

For further particulars address President Normal School, Ashland, Or.

Injured by Blast.

(Klamath Express.)
Dr. R. R. Hamilton was called to camp A of the reclamation service Saturday afternoon because of the premature explosion of a blast which resulted in the serious injury of Capt. Foreman Edwards. The blast went off while Edwards was tamping it in and that he was not instantly killed is a wonder. As it is, a finger was torn off the left hand and his face is badly lacerated by fragments of rock. Both eyes are injured, the left one most seriously, and while the sight of the right will not be permanently injured, the doctor says the left is doubtful, though he may possibly be able to save it.

S. L. Leonard—I am a newcomer in your locality and I am from Garden City, Kan. Kansas, as you know, is a prohibition state—has been for a great number of years—and Garden City is one of the many flourishing cities of that state. I have nine sons, and I want to say to you that I thought long and well before I decided to move from Kansas, but my good friend and old-time neighbor in Garden City, Ber. Anderson, who has been in Medford several months and has bought property here, gave me such almost positive assurance that Medford and Jackson county would vote for prohibition this year that I decided to invest here and I have bought a farm for which I paid \$20,000. Other of my friends here have made me this assurance. My oldest son is 18 years old and he has never seen the inside of a saloon—and I don't want him ever to see one, nor do I want any one of the other eight sons to. These whisky pictures you see posted on signboards and in saloon windows telling of the vacant buildings in Kansas City, Kan., are misleading. I know, because I have lived near there for years.

Rose Festival.

Tickets for the Rose Festival will be on sale June 1st and 3rd and only on those two days, those who intend going and wish sleeper reservation should, leave word at the depot as soon as possible in order to give the company time to secure the necessary cars.
Round trip fare \$18.20.

- 1 4-drill air compressor.
- 1 double 6x8 hoisting engine.
- 1 3-side matcher and planer, 8x24, nearly new.
- 1 10-horse power horizontal boiler, Atlas.
- 1 12-horse power steam engine.
- 1 10 horse power standard gas engine, E. G. TROWBRIDGE, Manager Medford Iron Works.

LOCAL HAPPENINGS

Charles Turpin was a visitor in Medford Saturday.
Truo Cox is over at Weed, Cal., looking after his 320-acre hay farm. C. P. Buck, supervisor of forestry, is out of town for a few days—over at Butte Falls on business.
J. A. Jonas, one of Eagle Point's best citizens, was in Medford yesterday.

Frank Brown, of the firm of Geo. Brown & Sons, Eagle Point, was in Medford Friday.

Mr. and Mrs. R. S. Wood of Marshfield, Or., are here with the expectation of locating.

George H. Franklin of Weas'chee arrived in Medford yesterday and expects to locate here.
Elwood Packard, of Southern Michigan, has purchased a six-room cottage and two lots in the Ross Addition, from Miss Beale Shepard.

The daughter of Thomas Riley has been quite ill during the past few days. Dr. Seelye is in attendance. She is reported as much better.

Colonel Frank H. Ray is expected to arrive in Medford soon on a business trip. The colonel is at present in San Francisco.

W. W. Parker of Butte Falls was in Medford Friday. He tells that everybody up that way is very much excited over the prospects for a railroad into that section.

Z. Cameron, accompanied by his brother, William Cameron, were visitors from the Applegate country yesterday. Mr. Cameron reports everything as doing nicely on the Applegate.

The Swastika club gave a most enjoyable dance at the Opera House on Thursday evening. The ladies in charge were Mrs. A. Eisenhart, Mrs. E. D. Elwood and Mrs. H. C. Kuntner. Over 60 couples were present.
F. E. Wells and wife of this city have left for Seattle, Wash., where they will make their home. Mr. Wells has been an operator at the Western Union office for the past six months. He was succeeded by H. E. Kennedy, of Drain, Or.

Councilman F. E. Merrick is putting up a fine ten-room dwelling in East Medford. It is being built just east from the Speas place, on property purchased from Mr. Parsons some months ago. L. M. Lyons is doing the carpenter work and the cost will be from \$4000 to \$5000.

Stephen A. Lowell delivered an address at Angle's Opera House on last Thursday evening on the leading issues of the campaign from a republican standpoint. A goodly number gathered to hear him. Mr. Lowell is a splendid speaker and his address was listened to with much interest.

J. P. Ditsworth was in from Derby Friday, having brought John Walden to the county poor farm. Mr. Walden has lived in that part of the country for 19 years and is now over 80 years of age. He has been living on the homestead upon which a man by the name of Shirley made final proof several years ago.

The Medford postoffice employees are being worked several days above their normal capacity these times. Some of this is occasioned by the amount of election literature which is being sent out, and to this is added all the school commencement literature. However, there is a glimmer of sunshine ahead of the help in the office—there is to be one, and perhaps two, clerks added in the force after July 1.

C. W. Fraley has sold his farm on Griffin creek to M. A. Dickerson of Hood River. There are 55 1/2 acres in the tract, eight acres of which is an orchard of four-year-old trees. The price paid was \$4500. Mr. Dickerson is here with his family and will at once take possession of his recent possessions.

Commissioner Patterson is arranging to move the road-grading outfit to south and west from Medford. That "sticky" road north of the old Reid place is to be graded, as is also the road running south past the old Fordyce place. From here the graders will go over on to the Jacksonville road and then the new Ross road, past the Wilbur Jones place, will be tackled.

The old depot of the Rogue River Valley Railroad, which has stood for 18 years near the Southern Pacific tracks on Sixth street, has been moved to a lot on North D street, which is owned by President Barnum, of the road. The depot has long been a familiar landmark in the city, and for some time that part of the city will look rather queer to those who were accustomed to see it. The new depot of the road has been completed and is a credit to the town.

G. W. Taylor, the county fruit inspector, reports the fruit conditions throughout the valley better than an average. There seems to be a serpentine strip through near the center of the valley in which there is not quite the average crop, but this strip is not wide. In all other localities the crop is so heavy that much thinning will be necessary. The condition of the trees in all the orchards is good and are being well taken care of.

The Medford Brick company commenced laying brick Monday on the new building which J. C. Hall is building, on North Front street. The building will be 50 by 75 feet in size. There will be two 25 by 75 foot rooms, one of which will be occupied by a moving-picture show, and the other by a restaurant. Mr. Hall expects to take out the front to the adjoining billiard hall and put in one similar to the fronts which will be put in for the new rooms.

A Narrow Escape.

Owing to the happy caprice of that indescribable something that watches over mankind and is named, for want of something definite, "luck," John B. Williams, from Eagle Point, yesterday narrowly escaped death. The team which he was driving became frightened near the intersection of East Seventh and the Eagle Point road, and ran away in the direction of Eagle Point. As the team reached the Queen Anne addition they swerved into the open field, struck a pile of rocks and demolished the carriage. Mr. Williams was hurled to the ground, but he fortunately fell between two stone piles upon soft ground and escaped uninjured. Had he fell three feet to either side or five feet beyond he would have been seriously injured and probably killed.

The team took fright at an automobile driven by two young men, whose identity is unknown, and before Mr. Williams could control them they got away.
John McCarthy, a laboring man, who was working upon a building near, rushed to Mr. Williams' assistance and succeeded in turning the team into a nearby fence, where they were stopped. He then turned to Mr. Williams, who, beyond a few bruises, was uninjured.

Mr. Williams obtained a carriage from a local livery stable and left for Eagle Point.

The spring wagon in which Mr. Williams was riding was completely demolished as far as the bed was concerned, but the running gear was not badly damaged. Williams gathered up the remains of the wreck as well as he could and, trailing the wrecked outfit, left for home.

Whooping Cough.

"In February our daughter had the whooping cough," Mr. Lane, of Harland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by Chas. Strang.

County Expenses.

The county expenses, exclusive of the expenses for roads and highways, have been as follows for the past seven years. The expenses for the year 1905 were about 3000 higher on account of the expenses occasioned by the county exhibit maintained at the Lewis and Clark fair.

1901	\$27,366.57
1902	29,440.56
1903	27,597.55
1904	31,075.82
1905	32,138.45
1906	29,862.01
1907	30,927.69

These are the expenses certified to by the county clerk to the state treasurer and on which Jackson county's proportion of state taxes will be based when there is another basis figured. These figures will compare very favorably with other counties and insures us that our proportion of the state tax will be held down to a small percentage of the whole amount of state taxes to be paid.

The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. In many cases the relief from pain which this liniment affords is almost worth many times its cost. 25 and 50 cent sizes for sale by Chas. Strang.

W. T. Greive in Accident.

On Friday evening, W. T. Greive, the republican candidate for county assessor, had the misfortune to have his carriage upset. His wife and child were in the carriage at the time, but escaped uninjured, as did Mr. Greive, with the exception of a skinned face. The horse took fright at an automobile and shied, upsetting the carriage. Mr. Greive states emphatically that the accident was one that might happen to any one, and that the road was in no way responsible for the accident, as has been alleged.

The World's Best Climate

is not entirely free from disease, on the high elevations fevers prevail while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate affections, lassitude, malaria, jaundice, biliousness, fever and ague, and general debility, the most effective remedy is Electric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness, and insomnia. Sold under guarantee at Strang's drug store. Price 50c.

Low Rates to Newport and Yaquina.

Excursion tickets to Newport and Yaquina and return, June 1 to October 15, the Southern Pacific company will sell round-trip excursion tickets to the above-named points, good for six months, at \$10. Full information at the depot.

As a healing salve for burns, stoves, sore nipples and chapped hands Chamberlain's Salve is most excellent. It always relieves the pain of a burn almost instantly, and unless the injury is very severe, heals the parts without leaving a scar. Price 25 cents. For sale by Chas. Strang.

The old style of **DOUBLE SIGHT** glasses do not look as well, and there is always a dirty line separating the far sight from the near. The **BI-SIGHT BIFOCAL** is ground from **ONE** piece of glass. The difference between the two is illustrated in the cut below. There is no piece simply cemented on to the main glass to work loose in a few months, and when you wipe them they are clean, and no one knows that you are old enough to be compelled to wear double-sight glasses, because they cannot tell them from the kind of glasses worn by young people.

Bi-sight Bifocals are the nearest to one's natural sight of any glass made today. The patent on these bi-sight bifocal glasses was issued August 6, 1905, so they are the newest and most up-to-date glass obtainable.

Fitted and sold by Dr. J. G. Goble, Medford.

The new style. There is no dividing line. The old style bifocal. Notice dividing line. Samples to be seen at Dr. Goble's Optical Parlor.

To the Holders of Real Estate

We have in the last three months sold over \$95,000.00 worth of Real Estate. If you wish to sell, why not see US?

To the Buyer

Our time is yours, use it as you wish. It is a pleasure to show property listed with us.

YOURS FOR SQUARE DEALING, Medford Realty & Rental Co.

Death of J. H. Lane.

Mr. J. H. Lane died at his home in Central Point on Sunday, May 24, 1908, after an illness extending over a period of ten years, from diabetes and cancer of the stomach.

Deceased was born in Madison, Ind., in 1824. He came to Portland, Or., in 1851, and a few years later moved to Halsey, Or., and afterward to Roseburg and from there to Medford, in 1894, and after a brief residence here he moved to Lane's Creek this county, where he lived until a few weeks ago, when he moved to Central Point. He was a merchant nearly all his life, but retired from business when he left Roseburg. He was twice married. Three daughters by his first marriage survive him. In 1894 he was married to Miss Clara E. Webber of Portland, who also survives him. Mr. Lane was a member of the Christian church and had been for 40 years.

Funeral services were held by the pastor of the Christian church of Central Point and interment was made in the cemetery at that place.

Mr. Lane was an honest, upright citizen and had made a great many friends wherever known. During all these years of illness his wife watched and cared for him with the tenderness and solicitude of a devoted wife and helpmeet.

The couple had planned a trip into California, where his daughters reside and were arranging for their departure when he was suddenly taken seriously ill. Mrs. Lane will leave in a few days for Monrovia, Cal., where she will visit a few weeks, after which she will go to San Jose and teach in one of the colleges there.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me, I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Chas. Strang.

Courthouse Improvements.

The county court provided in their last levy for the collection of funds for repairs of the courthouse. It is the intention of the county court to install new steel furniture in the clerk's vault in order to relieve the congestion there and render the contents more secure from the dangers of fire. They also contemplate repainting the building and building a suitable woodshed and outbuilding.
